Whereas, It is believed that it would be a great public convenience and at the same time tend to relieve the congestion of the streets if the square upon which the Joint County and City Building is to be erected could be, until needed, used as a public parking place for automobiles; therefore, be it

Resolved, That a committee of three members of council be appointed to confer with the County Commissioners relative to the utilization of said site for parking purposes until such time as it may be needed for other purposes.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed, as members of said special committee, Messrs. **English, Woodburn, Garland.**

Mr. **Herron** moved

That the following members be excused for absence from council and committee meetings as follows:

Mr. **Dillinger** on November 4th, 5th, 6th and 9th, 1914, and December 21st, 22nd, 23rd, 24th, 28th, 29th and 30th, 1914.

Mr. **Garland** on December 7th, 1914.

Mr. **Kerr** on November 10th and 11th, 1914, and December 29th and 30th, 1914.

Mr. **Rauh** on December 30th, 1914.

Which motion prevailed.

Mr. **Kerr** moved

That the Director of the Department of Public Safety be requested to comply with the provisions of the following resolution at the next meeting of council.

Bill No. 2386. Resolved, That the Director of the Department of Public Safety furnish to council with the number of men appearing before the trial board; their names, and a complete history of each individual case as to the number of times they have appeared before the board and the charges preferred against them; the findings of the trial board and the disposition of the several cases, in the Bureaus of Police and Fire; and, be it

Resolved, Further, That the said Director furnish council with the number and names of all re-instatements in the Bureaus of Police and Fire during the year 1914.

(In council, December 15th, 1914, Read and adopted.)

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared council adjourned.

No. 2500

HOUSE OF REPRESENTATIVES.

Washington, January 7, 1915.

Hon. J. P. Kerr,
City Hall,
Pittsburgh, Pa.

My Dear Doctor:

The present session of Congress will end on March 4th and many of the members of both Houses are planning to visit the San Francisco Exposition, going by way of the Panama Canal and returning across the continent by rail. The President intends to accompany the party. I am reliably informed that the President will make a number of addresses during his trip home from San Francisco to Washington, D. C., and that an itinerary for him is now in process of preparation. I fell confident the people of Pittsburgh would like to again meet and hear him, and take the liberty of requesting you to lay the matter before the legislative and executive branches of the city government, with a view of extending to him an official invitation to again visit our city. I would make the invitation indefinite as to date, because of the uncertainty at the present time of his plans; in other words, put it in the form of a resolution of the City Council, approved by the Mayor.

Founder's day is fixed for Thursday, April 29th, and I feel somewhat inclined to urge the President to deliver an address upon that occasion, but this date may not suit his convenience. Many invitations are being received at the White House daily, requesting the President to stop over on his way home, and I believe it the part of wisdom to urge upon you promptness in this matter.

With kindest personal regards,
Very respectfully yours,
STEPHEN G. PORTER.

Which was read and referred to the Committee on Finance.

Also

No. 2501. Resolution authorizing the issuing of a warrant in favor of the Evan Jones Sons Company for the sum of $562.00, for extra work done on the contract for grading, paving and curbing of roads in the grounds of the University of Pittsburgh, Contract No. 2, and charging the same to Appropriation No. 1345.

Also

No. 2502. Resolution authorizing the issuing of a warrant in favor of the Pittsburgh Sanitary Flooring Company for the sum of $50.00, for extra work done on the contract of the construction of expansion joints and scuppers on the Wilmot Street Bridge, and charging the same to Appropriation No. 1450, Repairs, Division of Bridges, Bureau of Engineering.

Which were severally read and referred to the Committee on Public Works.

The **Chair** presented

No. 2503. An Ordinance providing for the letting of contracts for materials and general supplies required by the several departments of the city government for the year beginning January 1st, 1915.

Also

MAYOR'S OFFICE.

Pittsburgh, January 7, 1915.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

I enclose herewith copy of letter from the Panama-California Exposition in which they advise that December 6th, 1915, has been set aside as "Pittsburgh Day." The letter is sent to you for whatever action you deem necessary. A copy has also been sent to the Allied Boards of Trade and the Chamber of Commerce.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

PANAMA-CALIFORNIA EXPOSITION

San Diego, Cal.
1915.

December 29th, 1914.

His Honor,
The Mayor of
Pittsburgh, Penna.

Subject: Special Events—Pittsburgh Day.

Dear Sir:

It is our desire to celebrate at the Exposition a day in honor of your city, and we have, therefore, named December 6th, 1915, as Pittsburgh day.

Will you kindly advise your leading civic and social bodies and newspapers to this effect, so that the matter may be given proper publicity, and so that we may arrange with them for the entertainment of any of your citizens or former citizens who may, at that time, be in our city?

We feel sure that you will co-operate with us in this affair to the best of your ability, and assure you of our earnest desire to make it a day worthy of the name it bears.

Yours very truly,
PANAMA-CALIFORNIA EXPOSITION,
By Carl T. Worst.

MOTIONS AND RESOLUTIONS.

Mr. **Dillinger presented**

No. 2508. Whereas, At a public hearing before the Public Safety Committee of council, held January 6th, 1915, the Christian Social Service Union, through Rev. Dr. Zahniser, its Secretary, made complaint against the police courts of the city as being inefficient, vitiated by favoritism and given to gross injustice, and that a change of system should be inaugurated, and that among other qualifications of a police magistrate he should be learned in the law; that at said hearing complainants disclaimed any intention of filing or making charges against any of the present police magistrates, but that their complaint was directed against the system now in vogue; and

Whereas, It was alleged that the corrections and improvement in said system lay within the present powers of council and the Mayor, without additional enabling legislation by the state authorities; now, that council may be properly informed as to its power in the premises, be it

Resolved, That the City Solicitor advise this body upon the following questions:

First: In the absence of specific charges and proofs as to official misconduct on the part of police magistrates, what are the powers of council?

Second. In the event of charges of official misconduct being made and proven, what are the powers of council?

Third. What power has council as to a change of system of police courts including requirements as to qualifications of police magistrates, and in the event of council having such power, could it be made effective against present incumbents?

Fourth. What power has council by ordinance or otherwise to regulate the conduct, method of procedure and practice of the police magistrates in the carrying out of their official duties?

Which was read.

Mr. **Dillinger** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Kerr** presented

No. 2509. Resolved, That the Civil Service Commission be requested to furnish to Council the Register of Applications, the eligible lists, promotion eligible lists; list of provisional appointments made during the last year and the number of provisional appointments which were finally made permanent during the last year; number of positions placed in the exempt class and the reasons therefor; the number of positions placed in the non-competitive class and the reasons for placing such positions in the non-competitive class.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Mr. **Kerr** arose and said

"Mr. Chairman and Gentlemen: I want to say, in support of this resolution, that I have information which leads me to believe that the laws with reference to this Commission are not being properly administered. I am informed that there are a number of men occupying positions or acting in positions, without having complied with the laws governing the appointment of city employees, and that there is a large eligible list for the positions in which they are acting. That is not in compliance with the spirit or the letter of the Civil Service Act.

I also have information, Mr. Chairman, that a young lady took an examination before this Commission. When she received her grading the card stated that she had made a percentage of 46, or something like that. She was informed by a friend that there must have been a mistake because the questions submitted were such that any high school girl could have answered and passed successfully, and advised her to go to the office of the Commission and to go over her papers, which she did. The examiner claimed to have made a mistake and raised her percentage to 80. She was then advised by the examiner that if she would seek the influence of a politician named by him she could get the appointment she desired. Now, there was too much difference between 46 and 80 to be a mere mistake, it appears to me, and the examiner is certainly not privileged to refer any applicant to any politician to secure his influence in order to get an appointment one has merited by a competitive examination.

I want, also, to call your attention, Mr. Chairman, to the further fact that in the administration of this office it has cost the City of Pittsburgh $80 for each individual who has gone to work for the City within the last year, except those persons who have gone to work in the labor class. That amount of money being expended should certainly guarantee the administration of the spirit and letter of the Act."

And the question recurring on the adoption of the resolution.

The motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

To the Council,
Council Chamber.

Gentlemen:

Replying to the resolution adopted by your Honorable Body January 12th, 1915, concerning certain charges made by the Christian Social Service Union against the Police Courts of the City, I beg to state, as to Question

"First: In the absence of specific charges and proofs as to official misconduct on the part of Police Magistrates, what are the powers of Council?"

The Council has no power under the Act of 1911, or any other Act of Assembly relating to the government of the City of Pittsburgh, to try charges, either general or specific, against City Police Magistrates, and no power to correct defects or abuses even if they found the same to exist. This power is placed elsewhere by the Legislature and is therefore not one of the proper functions of the Councilmanic body.

"Second: In the event of charges of official misconduct being made and proven, what are the powers of Council?"

This question is practically answered by the reply to the above Question No. 1, i. e., the Council is not invested with power to try even specific charges of official misconduct and has not power to act thereon in any way that could be effective.

"Third: What power has Council as to a change of system of the Police Courts, including requirements as to qualifications of Police Magistrates, and in the event of Council having such power, could it be made effective against present incumbents?"

The office of Police Magistrate as it now exists is created by the Act of April 1, 1909, which fixes the minimum and maximum number of said officers and their qualifications, giving to the Mayor the power to appoint, subject to the approval of Council, but removable at the pleasure of the Mayor only. This cannot be changed by any ordinance of Council. Therefore, the Council cannot remove any incumbent of this office.

"Fourth: What power has Council, by ordinance or otherwise, to regulate the conduct, method of procedure and practice of the Police Magistrates in carrying out their official duties?"

The only power possessed by Council in relation to Police Courts is the right to divide the City into certain districts or jurisdictions. The powers of said Magistrates, the method of procedure and practice in the Police Courts, are governed by the Act of June 16, 1891, and other statutes, legal custom and practice, and this, therefore, cannot be regulated by ordinance or other act of Council.

It is contrary to every sense of legal right, as well as of fairness and justice, to permit any man, or set of men, under pretext of reforming a system, to come before the Council which has no power to act, and use it as a medium of publicity, to assail and besmirch the conduct and character of public officers, instead of preferring and proving specific charges before the proper tribunal.

Respectfully,
CHARLES A. O'BRIEN,
City Solicitor.

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. **Kerr** arose and said:

Mr. President and Gentlemen:—The financial policy of the City, at this time, it appears to me, is not based on sound business principles. The application of delinquent revenues to current expense fund for the sole purpose of keeping down the millage is, to my mind, not good business. The deficit of last year was caused by overestimating the revenues and the City's inability or failure to collect the estimated revenues for the year. Therefore, the moneys collected from delinquent revenues should be applied to the deficit of last year in order to prevent a growing deficit which is certain to follow the policy which has been adopted.

The $737,600 received from the sale of water last year at metered rate and which was estimated as revenues for last year and which is now accredited to this year's revenues should have been applied to last year's deficit. A number of other smaller items should also be applied in the same way; for instance, $20,000 deferred payments by the Pittsburgh Railways Company for the cleaning of the streets; $16.000 pole tax of the Duquesne Light Company on the North Side. The application of money received from the sale of real estate (the property of the City) should not be charged to current expense fund; but should either be placed into the Sinking Fund or used to defray the expense of some permanent improvement.

It is a capital account and as a matter of sound business no one applies capital account to the payment of current expenses. The $386,200, to be received from the County in the City Hall-Court House exchange deal, should therefore be stricken from the estimate of the current revenues of this year. The continuance of the policy which has been adopted must of necessity lead to a growing yearly deficit, which must at some time be met by the taxpayers of the City of Pittsburgh. The City like an individual can postpone payment for a time, but the pay day is sure to come and the City must have real money to meet it. You cannot pay real obligations and just claims with "phony" money.

The flat rate for the sale of water has been increased about 25 per cent in this bill. That was done, I presume, for the purpose of increasing the revenues, in fact an indirect increase in the tax levy. The operating expenses of the Bureau of Water have been materially reduced within the last 3 or 4 years, and as a consequence the people have a right to expect a lower water rate. The water plant should not be a revenue-producing function of the City, but should be placed upon a self-sustaining basis. Therefore, the policy of increasing the rate while the operating expenses are decreasing, I believe, to be based upon unsound business principles. The business of the City in all its functions should be placed upon the same high business plan that any other big business is at present conducted; and if such were the case we would not again be placed in the humiliating position we found ourselves at the beginning of this year.

Mr. **Garland** arose and said:

"I desire to submit a statement showing the appropriations for 1915 and the estimated receipts:

"COMPARISON OF APPROPRIATIONS FOR 1913, 1914 AND 1915, AND SUMMARY STATEMENT OF POSITIONS ABOLISHED AND SALARY REDUCTIONS IN 1915 BUDGET.

Appropriations for operation and maintenance, exclusive of provision for payment of debt and interest. 1913, $8.840.234.54; 1914 (12 months basis), $9,296,738.98; 1915, $8,411,919.76.

Apropriations for payment of debt and interest, 1913, $1,600,845.19; 1914 (12 months basis), $1,529,346.14; 1915, $2,605,662.33.*

Total Appropriations—New City, 1913, $10,441,079.73; 1914, (12 months basis) $10,826,085.12; 1915, $11,017,582.09*.

---

*Including Sinking Fund for $800,000.00 1914 Current Expense Bonds.

Reduction in 1915 requirements due to abolishing positions (exclusive of bond fund amounts), $69,261.75.

Reduction in 1915 requirements due to reductions of salaries (exclusive of bond fund amounts), $20,660.00.

The additional amount set up in the budget to take care of January operations by reason of the salary ordinance not going into effect January 1st, $5.396.50.

Note:—No reduction was made in any per diem compensation, and in all cases requests for increases in compensation for positions paid at current union wage rates were granted. Only five salaried positions were increased over the 1914 rate, three of these being physicians at Marshalsea and Warner.

SUMMARY OF ESTIMATED RECEIPTS FOR 1915.

Estimated Current Water Collections, $2.200.000.00.

Estimated Delinquent Tax Collections, $1.316,400.00.

Estimated Miscellaneous Receipts, $2,319,700.00.

Estimated Current Tax Collections, 83.2 per cent basis, $4,813,342.00.

Total, $10,649,442.00

Total Appropriations, $11,017,582.00.

Less sinking fund provision for 1914 revenue shortage bonds. $800,000.00.

Actual 1915 appropriation provision, $10,217,582.00.

Plus one-third estimated revenue shortage at Dec. 31, 1914, $400,000.00.

Amount provided by 7.8 mills levy, $10,617,582.00.

Estimated excess of receipts over amount provided for, $31,860.00.

Estimated actual current water collections over amount included in estimates, per Mayor's letter, $82,000.00.

Estimated total excess of cash receipts over amount provided for by 7.8 mills levy, or 1915 requirements, plus one-third of 1914 revenue shortage, $113,860.00.

This statement shows that in the millage as fixed, the City is not only taking care of one-third of its revenue shortage for 1914, but there will be found a probable reserve or surplus of $113,860.00.

These figures are agreed to by Mr. Breitenstein, Chief Statistician in the Controller's Office, and Mr. Moffatt, the Head of the Bureau of Costs.

The following facts are shown:

The appropriations for operation and maintenance, exclusive of provision for payment of debt and interest, are $884,819.22 lower for the year 1915 than for the year 1914, both years being calculated on the same 12-months' period from January 1st to December 31st.

There has been affected a reduction of $69,261.75 in the 1915 requirements due to elimination of positions, and this is exclusive of those positions that have been abolished payable out of bond funds.

There has been effected a reduction of $20,660 00 in the 1915 requirements, due to reduction of SALARIES, and this is exclusive of reductions made payable from bond funds.

The additional amount set up in the Budget to take care of January operations by reason of the salary ordinance not going into effect January 1st is $5,396.50.

It should also be noted that NO REDUCTIONS whatever were made in any per diem compensation; in other words, WAGES were not reduced in any single instance in this Budget for 1915 operations.

It might also be noted that of the many thousand positions considered, only FIVE salaried positions were increased over the 1914 rate, and three of these were physicians at Marshalsea and Warner.

With regard to Revenues, it may be said that we are including three of the quarters of 1915 for collections for Metered Water. True. If we had collected in 1914 for metered water furnished during that year, the shortage in revenue experienced at the end of 1914 would have been considerably reduced.

The money coming to the City from the County on the City Hall-Court House Agreement, is proper revenue, and under the law must go into the City Treasury. The proceeds of the sale of the Seventh Avenue Engine House property two years ago to the Bell Telephone Company, amounting to about $180,000, went into the City Treasury in the same manner. There is no provision that money so derived must go into the Sinking Fund.

The City's credit, which is back of her outstanding Bonds, is not based on her tangible assets such as Property, Machinery, Pipe Lines, and the like, but on her borrowing power, which, in turn, is based on her assessable valuation of taxable property. Property sold is therefore revenue; has always been so considered, and will be so considered unless new legislation decides otherwise.

As to the probable rate of millage for the year 1916, this remains for future consideration. There will be various questions arising at that time that do not now confront us.

If, in order to satisfy the former City of Allegheny as well as the Boroughs of Sheraden, Esplen, Elliott, Montooth and Beechview, State Legislation is secured that will consolidate the present separate debt tax levies with that of the old City of Pittsburgh, so that one current millage will take care of all, this feature alone would represent possibly over one-half a mill of increase in the old City of Pittsburgh, being, of course, a particular saving to the North Side and Sheraden.

Nor shall we have in 1916 the extra collections for metered water that are available in 1915.

And again, under the Act which reduces the millage on Building Valuations 10 per cent every three years, a further reduction of 10 per cent (making 20 per cent) will be applicable or effective on 1916 valuations.

I maintain, however, that we should always face the situation as it presents itself. Possibly during the year 1916 (no effort is now being made), the City may sell to advantage a number of the few thousand pieces of property of which she is possessed, and that are now in a measure a drug on the market. These sales not only bring cash to the treasury, but place the properties on the list of taxables for steady revenue.

Let us hope, however, that times will be better and general conditions will have improved before another year rolls around, so that if an increased millage be necessary to take care of the added obligations of a growing City, our people will be the better able to stand their share of the burden.

In my opinion, we did the best we could. In many places we should, perhaps, have recognized meritorious service by increased compensation, but we had to consider the times and conditions.

Our main effort was to keep down the tax rate, and to this we applied ourselves constantly. The result is that the entire City Taxes (including separate indebtedness and School Tax) will be found to be 2½ per cent higher than for 1914.

For example:

If City Taxes amounted to $10.00 in 1914, they will be $10.25 in 1915.

If City Taxes amounted to $20.00 in 1914, they will be $20.50 in 1915.

If City Taxes amounted to $50.00 in 1914, they will be $51.25 in 1915.

If City Taxes amounted to $100.00 in 1914, they will be $102.50 in 1915.

But it must also be remembered that by reason of the County reduction in its tax rate, the City and County Taxes together will be LOWER for 1915 than for 1914.

Mr. **English** arose and said:

"Mr. President and Gentlemen:—Owing to the fact that this tax levy ordinance and the appropriation ordinance are so closely connected as to really be one subject, I will express my opinions on the appropriation ordinance to apply to both. However, in a brief remark permit me to call your attention to the attempt last year to make the citizens of Pittsburgh believe that 7.4 mills levy for 11 months would take care of 12 months' business. I did not believe that statement and the deficit of $1,346,000 is now a matter of record. I think we all agree that the 7.4 mills for 11 months should have been at least 8 mills for 12 months. To care for one-third of the deficit requires at least 0.7 mill which added to 8 mills would show 8.7 mills as the proper amount to care for the 1915 business and wipe out one-third of the deficit."

Bill No. 2434. An Ordinance entitled, "An Ordinance providing for the letting of a contract or contracts for five (5) years for the furnishing of current necessary for the operation of the Street Lighting System of the North Side, City of Pittsburgh; lighting certain municipal buildings, and the installation of all the necessary apparatus, and providing for the cost thereof for the fiscal year of 1915."

Which was read.

Mr. **Kerr** moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. **English** arose and said:

Mr. President and Gentlemen: In my opinion this ordinance is defective in that the unit price per kilowatt has been omitted and instead a lump sum of $35,000 has been inserted. If this sum of $35,000 is the cost of street lighting alone, based on the present number of lamps now installed, we will be unable to erect any new lamps which may be required or desired in any part of the North Side. Again, if this ordinance is intended to authorize the award of a contract for lighting any municipal buildings in the old city, North Side or any new sections which may be annexed within the next 5 years, such intention is not clearly defined or expressed and the absence of any specific definition may defeat the desire of Council to get electric current for the various city buildings at a low price.

My understanding in committee was that the grouping of all the City's electric current into one contract would be the means of reducing the cost of electricity from various maximum amounts to one low priced minimum rate. I think a careful reading of this ordinance will show that you do not accomplish this result.

The final objection I have to the ordinance is, that unless the right of the City to resume the operation of the North Side Light Plant is clearly expressed, defined and agreed to, it would be a mistake to pass this ordinance. I think you will agree with me that the matter of electric current for various City buildings in every part of the City as well as possible additions to the City, is of sufficient importance to deal with in a separate ordinance. Certainly such an important change as the abandonment of the North Side Electric Light Plant is itself of sufficient importance as to require a separate ordinance.

We should separate these two projects, because the courts have so ruled in the past and further we should be careful in the Light Plant matter to protect the future. We should make the matter so clear that it would be impossible for any one to charge that the City could not start up its light plant at any time. I believe that in the ordinance and contract we should clearly set forth that we are not giving up the City's right to maintain and operate a lighting plant and one should make the successful bidder agree to it. Permit me to remind you that the Postal Telegraph Cable Company declined to accept a similar clause on a time limit in their franchise for fear of prejudice to their rights if the matter should get into court.

Now, I submit that if the Company who proposed a contract at less than 1c per kilowatt is acting in good faith and if the Council who I believe are acting in good faith, both understand that if this proposed contract is made that none of the City's rights are violated; that the City will have the right to start up the North Side Plant during the life of this proposed contract, what objection can any one make to stating this clearly in the ordinance and then repeating it in the contract. In these matters of public utilities we must be careful to have everything clearly defined, so that if the subject is reviewed by the Public Service Commission and later possibly the courts we can show clearly all that is intended.

Past experience of the City in similar matters should remind every member of Council that foresight on the part of the law-making power is much better than hind-sight years after and expensive law suits to determine just what was meant by the law-makers. Let us be fair to the City and corporation alike and set forth clearly what we mean, but do not leave such an important matter in an unsettled state. Am I correct in assuming that the City is to have the right to start up the plant again without paying the light corporation a sum of money on this contract or am I wrong? In either event, state the matter squarely in the ordinance and contract and do not leave it for an outside commission or judge to determine.

Mr. **Kerr** moved

That the bill be recommitted to the Committee on Public Works.

Which motion prevailed.

Mr. **Woodburn** presented from the Committee on Public Service and Surveys, with an affirmative recommendation,

No. 2532. Report of the Committee on Public Service and Surveys, for January 13th, 1915, transmitting an ordinance to Council.

Which was read, received and filed.

Also

Bill No. 852. An Ordinance entitled, "An Ordinance amending an ordinance entitled, 'An Ordinance granting to the Pennsylvania Light, Heat & Power Company, of Allegheny, its lessees, successors and assigns, the right to enter upon, use and occupy the streets, avenues and alleys in the City of Allegheny, for the purpose of constructing, laying down and maintaining therein, conduits, subways, tubes, cables and wires, and to erect poles and supports upon and along said highways and string wires and cables upon the same.'"

In Public Service and Surveys Committee, January 13, 1915, amended in Section 1 as shown in red, and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. **Woodburn** moved

That the amendment of the Public Service and Surveys Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. **Woodburn** moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

When the name of Mr. **English** was called, he arose and said:

Mr. President and Gentlemen: As a matter of principle I am opposed to the amendment of the Pennsylvania Light, Heat & Power Company ordinance from 2½ per cent on gross receipts to a lump sum of $5,000. I am sorry that a single member of this Council would even introduce such an amendment in the face of public opinion on the entire matter of public utilities owned by private corporations.

In my opinion it is idle for this Council to pass the resolution introduced by the president urging the taxing of public utilities and asking the Legislature of the State to help us to find a way to levy such taxes and at the same time to actually throw away the only ordinance we have which gives the city 2½ per cent on gross receipts. Surely such action cannot be reconciled by any intelligent observer of public affairs.

It has been urged that the Duquesne Light Company, the present owner of the Pennsylvania Light Company's franchise, is in position to so manipulate the affairs of the Pennsylvania Light Company that the present receipts from the 2½ per cent tax (about $4,800.00) will be gradually reduced to a few dollars. I want to state, Mr. President, that I do not believe such a monstrous charge of bad faith on the part of the Pennsylvania Light Company or the Duquesne Light Company; I am not willing to believe that any set of men would deliberately conspire to cheat the City of Pittsburgh of any just revenues. But if such a charge is true, or if any member of this Council even suspects that such a conspiracy is possible or even probable, then I submit that our sworn duty demands that we protect the taxpayers of Pittsburgh by requiring that the Pennsylvania Light Company lives up to its contract and franchise.

Aside from the name of the Company it seems to me that every member of Council should know by this time the temper of the public in the matter of franchises of any and all kinds. It is not a mere $5,000 or $1,000. or even $1.00 with which we are dealing; it is a principle of keeping a contract entered into in good faith by the former City of Allegheny and a Light Company. Inasmuch as the Pennsylvania Light Company and Duquesne Light Company are interlocking companies with the Pittsburgh Railways Company and the Philadelphia Gas Company, it is easy to show you that we are doing in another manner the very things former Councils did when they gave away valuable rights and franchises to underlying companies of the above named corporations, and now this Council is compelled to seek relief from the Legislature and the Public Service Commission as a result.

It can be said in all sincerity that perhaps the councilmen who gave away these valuable rights years ago did not do so deliberately; that they did not know the franchises were to attain such enormous values, and finally that they thought they were doing the best they could for the City. We, in 1915, cannot plead any such excuses if you will examine the various subway ordinances in which we seek to obtain a percentage of receipts for the City, because we know the advantage of such percentage. If the corporation prospers the City is entitled to a fair return; if on the other hand the corporation does not prosper, the city is not in all fairness entitled to any return.

If it is the intention of the Duquesne Light Company to gradually reduce the business of the Pennsylvania Light Company and eventually abandon the charter of the Pennsylvania Light Company, then let the city and Company have a mutual understanding and do the thing decently and orderly.

I have no malice or hatred for the Pennsylvania Light Company, the Duquesne Light Company, or any person connected with either corporation; but I do have enough intelligence to enable me to express my opinion in the matter of the city deliberately giving up the principle of taxing gross receipts because the sum received happens to be small. Why do we wish and hope to get a subway some day on which we can collect a percentage of receipts? It is my honest opinion that the principle of taxing gross receipts is of more importance than the sum of money at issue, $5,000, and I respectfully urge the members of Council to stand by the old ordinance and refuse this amendment. I vote "No."

Ayes—**7.**

Noes—**2.**

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. **Dillinger** presented from the Committee on Public Safety, with an affirmative recommendation,

No. 2533. Report of the Committee on Public Safety for January 13th, 1915, transmitting two resolutions to Council.

Which was read, received and filed.

Also

Bill No. 2449. Resolution authorizing the issuing of a warrant in favor of Atlantic Terra Cotta Company for the sum of $40.00, for additional terra cotta furnished at No. 3 Engine House on Webster avenue, and charging the same to Code Account No. 1161, Bureau of Fire.

Which was read.

Mr. **Dillinger** moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

REPORTS OF SPECIAL COMMITTEES

Mr. **Woodburn** presented from the Special Committee, Pittsburgh, January 6th, 1915.

REPORT OF SPECIAL COMMITTEE OF COUNCIL APPOINTED TO CONSIDER THE QUESTION OF CLAIMS OF THE CITY FOR STREET-CLEANING, FOR CAR LICENSE TAX AND FOR OTHER CLAIMS OF THE CITY OF PITTSBURGH AGAINST THE DUQUESNE LIGHT COMPANY, THE PITTSBURGH RAILWAYS COMPANY AND THE PENNSYLVANIA LIGHT, HEAT AND POWER COMPANY.

To the Council of Pittsburgh,
City Hall.
Gentlemen:

In pursuance of the resolution appointing a Special Committee made up of Dr. S. S. Woodburn, Dr. J. P. Kerr, Robert Garland and President Goehring, ex-officio, a conference was held with the Law Department of the City and the facts relating to the matters of the claims of the City of Pittsburgh against the Pittsburgh Railways Company, the Duquesne Light Company and the Pennsylvania Light, Heat & Power Company were thoroughly explained to the Sub-Committee.

Thereafter, two conferences were held with the representatives of the Pittsburgh Railways Company and as a result thereof, your Committee has reached the following agreement, subject to approval by Council and by the subsequent enactment of ordinances to carry out the said agreement, namely:

That the Pittsburgh Railways Company shall pay to the City for street-cleaning for the years 1913 and 1914 the sum of $85,000 per year, or at the rate of $10,000 per year in excess of the amounts heretofore paid, making a total additional payment of $20,000. That they shall pay to the City of Pittsburgh the sum of $85,000, as an agreed amount for the fiscal year 1915. That a further study will be made of the cost of street cleaning, both by the City and the Railways Company in the year 1915 and the adjustments for the year 1916 will be based upon the results of this study and investigation.

The Railways Company on the advice of its Council has refused to make any payments whatsoever for the past for a car license charge, leaving this matter open to be determined by litigation by the City. As to the future, the Company has agreed to pay the sum of $20,000 a year, which amount has been fixed after taking into consideration the fact that the Railways Company pays to the City between $20,000 and $25,000 a year on the gross receipts of the North Side Traction Company, which is in lieu of car license tax on these cars on the North Side. This amount would make approximately $25 a car if the cars operated on the lines on the North Side Traction Company were excluded, or about $20 a car including all the cars in the City of Pittsburgh which are now operated, or are likely to be operated in the next three years and giving no deductions for cars operated less than fourteen hours each day, as was provided under the old original ordinance of the City.

The Railways Company also pays an additional sum of about $3,000 per year for car license under the provisions of certain ordinances of the former City of Allegheny.

It appears that the Railways Company operates at the present time between 900 and 1,000 cars and that the average number of cars would be less than 1,000 cars. It has been, however, understood and agreed that the amount of $20,000 is fixed upon the arbitrary assumption that there will be 1,000 cars operated and that the amount is fixed at $20 a car for the considerations herein mentioned. It seemed advisable to fix the charge upon this basis for the further reason that as this constituted a fixed sum there would be nothing to operate against the Railways Company operating as many cars in emergencies, or on special occasions, or generally, as the demands of the service may require, whereas, if the tax were to be based upon a varying number of cars there might be a tendency on the part of the Railways Company to reduce the service in order to reduce the tax to be paid.

It was also understood and agreed that this amount of $20,000 a year would be paid for the years 1915, 1916 and 1917, or in other words, for a period of three years, this constituting the reasonable amount to be paid by the Railways Company over and above the matters referred to in the North Side Traction Company's payments for the City's inspection of poles, cars, wires, track and other appliances of the Railways Company within the City of Pittsburgh.

With reference to the original franchise ordinance of the Pennsylvania Light, Heat & Power Company, it is understood and agreed in lieu of the charge of 2½ per cent of the gross receipts of the Company, there shall be paid by the Company the fixed sum of $5,000 per annum, payable semi-annually, and that the payment of this sum will be guaranteed by the Duquesne Light Company so long as that Company, its successors or assigns shall operate on the North Side. Also that the Pennsylvania Light, Heat & Power Company, or its operating company, the Duquesne Light Company shall pay to the City the amount due for the rental or tax on poles for the past years, which amounts to the sum of $13,262 for the years prior to December 31, 1913, and remaining unpaid, and that this Company shall pay all the deferred payments up to and including the fiscal year 1914 and shall hereafter make the payments promptly at the times when said amounts are due. All of the said payments as provided for herein are to be exclusive of the payments of various sums, such as the car tax on gross income under the North Side Traction Company ordinance, or taxes on cars under other ordinances specifically imposing the obligation of certain payments under the terms of the franchise.

The Committee unanimously recommend the adjustment of these matters with the Pittsburgh Railways Company and the Duquesne Light Company and the Pennsylvania Light, Heat & Power Company upon the basis herein set forth, and recommended that the Law Department be instructed to prepare the necessary ordinances and agreements to carry out the provisions of the arrangements herein set forth.

Respectfully submitted,

S. S. WOODBURN,
Chairman.
ROBT. GARLAND,
J. P. KERR,
J. M. GOEHRING,
President of Council.

Which was read, and on motion of Mr. **Woodburn**, received and filed.

MOTIONS AND RESOLUTIONS.

Mr. **Kerr** presented

No. 2536. Whereas, An Ordinance for the grading, paving and curbing of West Liberty avenue, from Warrington avenue to the city line, and the construction of a storm sewer for the drainage thereof, describing said sewer, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby, passed Council December 30, 1913, and approved by the Mayor January 2, 1914; and

Whereas, The property holders interested in the improvement of West Liberty avenue appeared before this Council and proved the necessity of making this improvement; and

Whereas, The impassible condition of the street works a great hardship upon the citizens of the community and also all those business people having business in that locality; therefore, be it

Resolved, That the Mayor and the Director of the Department of Public Works be and are hereby requested to proceed to award a contract for the carrying out of the above named ordinance.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Garland** presented

No. 2537. Resolved, That the Mayor shall be and he is hereby requested to extend an invitation, on behalf of Council and the people of Pittsburgh, to His Excellency, Woodrow Wilson, President of the United States, to visit this city on his return from the Panama Pacific Exposition to Washington.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2538. Resolved, That the Mayor be requested to issue a proclamation designating Tuesday, July 20th, 1915, as "Pittsburgh Day," at the Panama Pacific Exposition, and urging the attendance of our citizens at that time.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

The **Chair** presented

No. 2539. Resolved, That a committee of three members of Council be appointed to confer with the Pittsburgh Auto Club relative to proposed legislation looking to the payment to the city for tax or license by autos and trucks for use of the city streets.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed, as members of said committee, Messrs. **Kerr, Garland** and **Rauh.**

Mr. **Woodburn** moved

That the Director of the Department of Public Health be requested not to expend the $1,800.00, set up in the budget for 1915, for the purchase of a portable house in which cases of measles are to be confined, until a further study of the question is made by Council.

Mr. **Herron** moved

To amend the motion by adding, And that the three doctor members of Council take the matter up with the said Director.

Which motion prevailed.

And the question recurring on the adoption of the motion, as amended.

The motion prevailed.

Mr. **Kerr** moved

To reconsider the vote by which

Bill No. 2529. Communication from the City Solicitor relative to the duty of Council in the matter of hearing complaints made against the Police Courts.

In Council, this day, was read, received and filed and copy ordered sent to each member.

Which motion prevailed.

And the question recurring, "Shall the communication be received and filed, and a copy sent to each member of Council?"

The motion did not prevail.

Mr. **Kerr** arose and said:

"Mr. President and Gentlemen: I move to strike out the last paragraph of the City Solicitor's letter. I am perfectly satisfied with the opinion of the City Solicitor, but I take it that in this last paragraph he is giving us his personal opinion as to the motive of the man or men who brought this matter before Council. I want to state that it is the right of any man or men if he or they think proper to furnish or give Council whatever information he or they may have relating to the official conduct of any city employee. I want to state further that I accept the statement of the City Solicitor as a matter of law, but as I do not think his criticism of any person or set of men making complaint to Council on a certain subject is warranted. I am not discussing the merits of the complaints made by the Christian Social Service Union; and I furthermore grant that every American citizen has the right to face his accusers under the constitutional provision, and that the gentlemen who are under criticism in this matter should receive the same consideration as any other citizen of this great country. Now, in conclusion, as to what these people meant to do is for them to determine and not for the City Solicitor to give us his personal opinion as to where and how they should determine the matter."

The **Chair** arose and said:

"Gentlemen: The communication was received and filed. However, a member of Council has the right to criticise the opinion, but he cannot change, by motion, the wording of it. He either votes to receive or reject it."

Mr. **English** moved

That the communication (Bill No. 2529) be received and laid on the table for one week and each member of Council be furnished a copy.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

The adoption of the resolution.

Which motion prevailed.

REPORTS OF COMMITTEES.

Mr. **Garland** presented from the Committee on Finance, with an affirmative recommendation

No. 2543. Report of the Committee on Finance for January 19th, 1915, transmitting sundry ordinances to Council.

Which was read, received and filed.

Also

Bill No. 2024. An Ordinance entitled, "An Ordinance making appropriations to pay the expenses of conducting the public business of the city of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1st, 1915, and ending December 31st, 1915.

Which was read.

Mr. **Garland** moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. **Kerr** arose and said:

"Mr. President and Gentlemen: The refusal of Council to appropriate for many positions which I think is necessary for the proper conduct of the City's business and for the preservation of the peace and safety of the community was an unwarranted proceedure and will not make for the efficient economic management of the city's affairs. Such a policy is destructive in its nature and can accomplish nothing but a disorganization of the whole force. It seems to me that many useful men have been forced out of the service either because of individual antagonism or else to justify the continuance of a number of worthless positions which are being filled by political favorites. I am convinced that the taxpayers should not be called upon to pay political debts at any time and more especially at this time when the tax burden is already extremely heavy because of the great industrial depression.

"The Captains in the Bureau of Police are the most active and best informed men in their several districts and should have been retained in the service. The City will lose the service of several men, who by virtue of their time of service and their knowledge of the police business, should be most valuable to the department. Their retirement will tend to further disorganize the police force. The forced retirement of men in the full vigor of manhood, who are anxious to continue in the service, is detrimental to the best interests of the City. If there is individual incompentency and inefficiency, those persons should be dealt with in the way provided by the Acts of Assembly. It is unfair to the rank and file of the police bureau to force men who are capable of many years service to the City upon the Pension Fund which is already overburdened. This works an injustice to every man on the force. The retirement of such men causes such a drain upon the resources of the Pension Fund as to jeopardize the interest of every one who should participate in that fund. No one should be permitted or forced to retire and take advantage of the pension provision except those who either by acident or from sickness or from the infirmities of age are rendered useless to the City service. Instead of dissipating the fund in this way we should be devising ways and means for building it up so that every man who has given the best years of his life to the City's service can be assured of a livelihood in the declining years of his life.

During the time when the whole country is engaged in the work of social betterment, community welfare and moral uplift, I think we should have adopted the double-platoon system, which was so vigorously advocated by the firemen of this City. The preservation of our nation and the continuance of our sacred institutions depends upon the perpetuation of the American home. These men by virtue of their employment and the hours of engagement are practically deprived of home life and their families are denied the companionship of the husband and father. The man should be the guiding hand and the ruling spirit of every home. Therefore, let us adopt the double-platoon system and restore these men to the sanctity of the home and to the sacred fireside circle.

"The City as an employer of labor should set the standard by which the other employers should be expected to measure up to and no citizen will complain of a little additional expense if the men in the service give a full measure of value for the compensation they receive.

"The continuance in the appropriation bill and the salary ordinance of such places as the Civilian Aide, the Bureau of Information and Complaints, Efficiency Chief, Bureau of Publicity and a few other fads upon which I have frequently expressed an opinion is not in keeping with good, sound business judgment, and should have, in justice to the taxpayers of the City, been stricken out.

"There are many other items in these bills with which I am not in accord, but I will not impose upon your time any further, recognizing that any protest made by me have little weight with the majority of the members of Council."

Mr. **English** arose and said:

"Mr. President: In stating my objection to the tax levy and appropriation ordinances, I wish to express my regret that I canot agree with the majority of the Council. Each member has the right to act and vote as he sees fit, and I assure you that it is not a pleasure on my part to cast up any old unpleasant recollections. In view of the plan to proceed in 1915 without correcting the errors of 1914, I am compelled to place in the record some of my objections to the budget of 1915.

"I must first express sorrow that the following statement made near the close of the budget committee seemed to be the opinion of the majority. "We are working on the 1915 Budget, let 1916 take care of itself." This is at least some variation from the prediction made last year that 1915 taxes will be lower than 1914. If we could lose that $1,346,000 deficit, we might do better this year.

and next and next, but unfortunately the $1,346,000 is a real deficit and like Banquo's Ghost, will not down, so it will be carried over into 1915, 1916 and 1917.

"The first and most important objections I have is the matter of water rates, as this indispensable commodity called "water" is used by every inhabitant of the city, as well as by visitors, although very little has been sent through the water tower, which reposes in the Smithfield Street Engine House. The matter of water rates is questionable. No expert analysis of the value of the property has ever been made on which to base the various amounts charged for the service. The physical valuation of the property has been suggested and urged by the water department for years. Year after year this one valuable asset of the city is used by the officials in a blind pool guessing contest. Last year the experts guessed that if the free list was abolished the city would collect $250,000 additional revenue. This year an extra $100,000 is to be added to the flat rates in this wonderful guessing contest as to how the tax burden can be tossed about. I now venture to predict that the guess for 1916 will be an increase on the meter rates. Of all the places in which the efficiency experts have operated in the past few years at the expense of the taxpayers of Pittsburgh, here is one activity which has been neglected. The Bureau of Water is the one place above all others which should have immediate attention to determine (1st) the worth of the property and (2nd) the cost of operation. If we knew these two figures, the fixing of the water rates becomes a simple problem in arithmetic, which any 5 year old child could determine in a few minutes.

"Recall, if you will, the speed with which the actions to cut salaries and abolish positions of employes of the water department were passed in the budget committee; the acceleration of motion by which certain salaries and positions were put back in the budget, then ponder the position of the tax-payer who gets a bill for an increase in the cost of water, although the cost of the water department for 1915 will actually be $58,932.00 less than 1914. Do you think water rates should be increased at the pleasure of any man, or set of men, just because such a power is granted to Council? What reasonable explanation can we give the taxpayers for increasing the water rates in the face of the reduced cost of operation of the water department? Since no good reason can be given, excuses must be in order. Then why stop at a $100,000 increase in flat rates; why not go the entire distance and make up the entire $1,346,000 deficit by raising the water rates some more? It seems to me that common honesty would suggest that if you are determined to levy this extra tax on consumers of water, you would spend some of it in finding the value of this wonderful guessing machine. Then as a last resort, the aid of quarterly collection of metered water is invoked and for what purpose? To reduce the deficit? No, but to keep down the millage and permit a continuation of extravagant creations of 1914. Please remember when you come to add up the estimated revenue sheet for 1916, it will be reduced by as many dollars as the 1915 estimate is raised. That is, instead of having an estimated revenue from water rents in 1916 of possibly $1,600,000, it will be $1,100,000, if $500,000 of the 1915 mater rates are paid in the year 1915. Then you must either guess again on water rates, or raise the millage for 1916, for I assume that you are determined not to reduce expenses.

"Even now you are guessing that the people will pay the 1915 meter rates in the year 1915. If the people cannot pay, or do not pay, I suppose the 1915 deficit will be blamed on the taxpayers. The next step will be to ask them to pay 1917 water rent in 1916.

"Second in importance is the item of the $386,000 due from the county on the building transaction between the City of Pittsburgh and Allegheny County. No excuse, or situation, no matter how desperate, is justification for using this $386,000 to pay current expenses. Clearly our duty is to apply this money to the interest and sinking fund charges due to the issue of $1,500,000.00 worth of bonds for a new city hall. If a private citizen, or corporation, would apply such methods in business, it would be considered an act of bankruptcy. No person of average intelligence is deceived by any such practice as disposing of valuable assets to pay running expenses of a business. This attempt to avoid an increase of one-half mill of tax cannot be excused on account of ignorance, as it is being forced through here as a matter of expediency. What will happen in 1916 when there will not be any city hall to sell?

"In addition to the questionable method as stated, there is the actual cash loss of $3,500.00 a month in rent for every month following the use of the $386,000.00. As one year is the least possible time in which to erect a building of the size and character of the proposed city and county building, the actual cash loss will be 12 times $3,500.00 or $42,000.00. Truly it looks as though 1916 will have to take care of itself.

"The next item in the Contingent Fund. I must give every other member of Council due credit for keeping down the Contingent Fund to $100 000.00, although that in itself is an admission that the $200,000.00 fund last year was too much, as I then stated. I still think that $100,000.00 is too much unless of course, as the Mayor and Controller stated, the Council is not sure of the other items set up in the budget. On this basis it would be just as consistent to cut out $500,000.00 worth of budget items, and then set up a $500,000.00 Contingent Fund to take care of blunders. The Mayor pointed out three items making a total of $32,500.00, which should be set up in the budget instead of depending on the Contingent Fund. The three items referred to are: Snow and Ice, $18,000.00; Sick and Accident claims in the Bureau of Police, $12,000.00; and Clerk in Sinking Fund Commission, $2,500.00. I believe I am right in insisting that items of which we have past records should be set up in the budget and not left to be taken from the Contingent Fund, as such items are not contingent items. I think we did right in striking out over $46,000.00 worth of items known as not otherwise codified, miscellaneous, etc.

"The Asphalt Plant on the North Side is of doubtful value if figured as a saving proposition, particularly when compared with the two platoon system in the Fire Department. We started out to save $4,500.00 to $9,000.00 on hauling charges from the East End plant to the North Side streets. Up to December 26, 1914, we had invested $30,900.62 in the North Side plant. In the Budget $59,270.00 for additional equipment and machinery was asked for the year 1915. This sum was cut down to $27,625.00, or a reduction of $31,645.00. I am compelled to make two observations on this: First. Either $59,270.00 was an error in overestimating, or Second. The sum of $27,625.00 is not sufficient to properly equip and efficiently operate both plants. In view of the statement that the Department cannot separate the figures for the two plants and show a budget exhibit for each, I must suggest, First. Searching inquiry should be made as to the amount of work done by the East End Plant, with particular reference to the unit cost per yard of work done at nearby points and compared with unit cost of similar work at distant points. Second. That the items for each plant be shown as separate exhibits in the Budget, the same as the various markets.

"I must record my protest against the attempt to make up the 1914 deficit by attacking the organization of the various departments and bureaus. Unless there were some secret meetings with responsible officers who had knowledge of the salary reductions and abolishing of positions, I must say that such a proceeding will do more to crush the spirit and independence of the city employes than any other action the Council could take. The folly of the hasty action was clearly shown when the Mayor and the Directors were forced in self defense to plead with the committee to correct a majority of the blunders in the closing days. The beautiful dream of Civil Service became a hollow mockery when panic seized the gentlemen who created a $1,346,000.00 deficit as a result of trying to make the citizens of Pittsburgh believe that the year 1914 contained eleven months instead of twelve.

"Street repaving, one of the most important items, is made to suffer. Last year $375,000.00 was appropriated, this year it is cut to $175,000.00.

"In my opinion the matter of street repairs should be treated the same as bond issues. When a new street is laid a small sinking fund should be provided annually, so that when any new street is laid a small sinking fund should be provided annually, so that when any new street begins to show signe of wearing out, a sum of money would be instantly available. In reality a street should be considered of more importance than a bond, for the bonds usually run thirty years, while streets are seldom guaranteed by contractors for over five years. I hope that some day the Council and the Director of the Department of Public Works, whoever he may be, will realize the wisdom of adopting some kind of a consistent policy of repairing streets before they are worn out. It costs money to repair streets and until a consistent policy is followed for several years, I suppose the City must continue to suffer from an excess sum one year and half as much the year after, in order to get rid of the eleven months-to-the-year idea.

"The Council, by majority vote, accepted and approved the figures submitted by the Mayor showing a plan of disposing of the $1,346,000.00 deficit over a period of three years. On this sheet was plainly shown that during the years 1912-1913 and 1914, although the tax levy ordinances were respectively 7.3 mills, 7.4 mills and 7.4 mills, yet the actual expenses were so much greater that the proper tax rate should have been 8.15 mills, 8.07 mills and 9.05 mills, respectively.

"In the face of this graphic chart, it is now proposed to repeat the known mistakes of the past, and although staggering under a deficit of $1,346,000.00, another attempt is made to get by with a fourth vain and futile effort.

"To this $1,346,000.00 deficit should be added the $2,750,000.00 bond issue authorized by Council on November 10th, 1914, which makes a total of $4,096,000.00.

"I was laughed at last year when I pointed out that the 7.4 tax levy was a mistake, but the bond issue and the deficit are not being laughed at by the taxpayers of this City today. I am compelled to remind you that contractors' claims now amount to $1,500,000.00, and will have to be provided for in 1916 and 1917, unless carried over into the next administration. The citizens of Pittsburgh should know the whole truth about the cost of government and the policy of concealing these matters is unworthy of a business Council, or any other kind of a Council for that matter. The only source from which we may positively expect to get any help in 1916 and 1917 is from the Bank Deposit Guarantee Fund, and I feel sure that you will be sorely tempted to use that money next year. Aside from that there is no doubt in my mind that the millage for 1916 and 1917 will not only both be materially increased, but further councilmanic bond issues will be necessary. One other possible relief may come from the Legislature of the

State now in session, but we will all agree that that is uncertain, to say the least. Let us be prepared for the worst and fervently hope for the best.

"Practically all the extravagant items to which I called your attention on February 4th, 1914, have been continued in 1915, so I will not burden the record with a repitition. I cannot help again calling attention to the useless positions of Civilian Aide and the Bureau of Information and Complaints, Employment Bureau, Office of the Unemployed and whatever additional titles you may care to attach to them.

"If every other item in the Budget was satisfactory and it still contained these positions, I would consider it my sworn duty to vote against the entire ordinance.

"Since I cannot prevent the passage of this ordinance, I deem it my duty to call your attention to some of the most important items that do not meet with my approval, and I wish it noted that there are a lot of other items to which I objected during the sessions of the Budget Committee.

"I could write a small book on my objections to the 1915 Budget, but as there are nine members in this Council and each has equal responsibility, I must not use up all the time, so I will come to a conclusion with the following statement, which I made in committee:

"The Mayor is the executive head of the City government and he is charged with the administration of the City business, consequently he should insist that the Directors he has called to his aid should prepare a Budget showing estimated receipts and expenses for which he must assume the full and complete reponsibility: If, after the Burget comes to Council, it is found that the total estimates, if approved by Council would mean a burdensome rate of tax levy, it is the duty of Council to return it to the Mayor for a revision. Then if still too high, the Mayor and the Director of each Department should go over each item of receipts and expenses with the Council and frankly discuss the matter. The Council could then decide what rate of tax they could reasonably ask the people to pay, return the Budget to the Mayor and advise him that the Directors' estimates will have to come within the agreed rate of tax and the men responsible for the Budget would have to meet the issue. In making up the 1915 tax levy and appropriation ordinances, the matter of revenue was disposed of in a few minutes, after a glance at the estimate sheet presented by the Mayor. The item of receipts from water was the only item which received any consideration at all, and it was based on figures which were not checked up, but on the contrary were detached from the committee report for fear the newspapers might get hold of them and make the matter public.

"Having protested against all these matters, which did not meet with my approval, I cannot now vote for them when assembled in these ordinances, so I vote 'No' "

Mr. **Garland** arose and said:

"Mr. President, I would like to know from the gentlemen when he says there is a deficit of $1,346,000.00, if those figures are correct?

Mr. **English** arose and said:

"Mr. President, those are the figures I took from the list submitted to us by the Mayor, and I presume they are correct."

Mr. **Garland** arose and said:

"Mr. President, I have a letter from the Controller certifying to this appropriation bill and salary ordinance, which I will present at the proper time. I wish to state that the figures of Mr. **English** of $1,346,000.00 is wrong and that the correct figure is $1,200,000.00 and I will ask the Statistician, Mr. Breitenstein, to verify that."

Mr. H. S. Breitenstein, Statistician in the City Controller's Office, being given the floor said:

"Mr President and Gentlemen: The correct amount of the deficit is $1,200,000.00 according to the revision of estimates.'

Mr. **Garland** arose and said:

"Mr. President, I wish to further say that the $1,346,000.00 was given to us a month ago, but since that time various revenues have been received, and that the correct amount is $1,200,00.00."

Mr. **English** arose and said:

"Mr. President, I will not humiliate the Chairman of the Finance Committee by asking him whether the 1914 appropriations were for eleven or twelve months."

Mr. **Garland** arose and said:

"Mr. President, the remarks I made in Council on Tuesday on the passage of the tax-levying ordinance, will also apply to the ordinance now before us.

"It is with pleasure that I now record myself as being one of the six members who consistently worked on behalf of the taxpayers to keep down the expenses of government and thus decrease the rate of taxation. I have no excuse to make or apologies to offer.

"I will now pledge my efforts during the year to strict economy along the lines of the appropriation bill, which for operations and expenses of government outside of Sinking Fund and other debt obligations, show that there has been appropriated this year $880,000.00 less than was paid out in 1914 on a twelve-months' basis. And I also pledge myself towards the conservation of the Contingent Fund during the year, so that by the strictest economy, in which it is hoped all department heads will join, we will keep within the comparatively small appropriation made for expenses of government during the present year."

Mr. **Rauh** arose and said:

"Mr. President and Gentlemen: In voting in favor of the Budget for 1915, I desire to say there are some items of which I was not in favor and voted against. But when we consider that this Budget consists of 425 pages, and approximately speaking, each page on an average contains about 45 items, or over 19,000 individual items which have been gone over carefully again and again; when I consider the propositions that I opposed were carried by a majority of the votes of the members of this Council, and furthermore when I consider no Budget in this or any other city has been given the careful attention of this one, I feel it is my solemn duty to support the entire Budget.

"Any member of this Council could easily object to voting for the Budget on the ground that a few items were not satisfactory to him, but the people of this City could never secure a Budget under such circumstances, and the government of the City would remain at a standstill. This to me seems to smack of anarchy, and being opposed to such principles, I vote in favor of passing the Budget."

Mr. **English** arose and said:

"Mr. President, does the gentleman mean to say that I am an anarchist because I object to this Budget?"

The **Chair** arose and said:

"The **Chair** did not so understand the gentleman."

Mr. **Herron** arose and said:

"Mr. President and Gentlemen: I cannot vote for this ordinance and be consistent. I have always claimed and will continue to do so, that there is absolutely no excuse for the Bureau of Information and Complaints. The fact that the Free Municipal Employment Agency has been added to this Bureau is an excuse but not a reason for its existence. The duties performed by the Chief Investigator could very readily be done by any member of this Council, and I am sure the clerical work could be done, as recommended by the New York Bureau of Municipal Research, by the employes in the Mayor's office. Last year the report of the New York Bureau of Municipal Research was given as an excuse for creating this Bureau, but this year an adverse report by the same Bureau was entirely ignored. It is a wilful waste of public money to continue this unnecessary Bureau as at present organized.

"My contention also that the position of the Civilian Aide to the Director of the Department of Public Safety was unnecessary has been borne out by the fact that the Aide is giving his entire time to the Detective Bureau and has been doing so for several months, and the Director of the said Department, so far as I can learn, has made no complaint of being overworked. To all outward appearances the Department is being operated just as efficiently as at any time during the present administration. The salary for this position has been reduced to $4,500, but when you realize that three building inspectors, at a salary of $1,500, have been dropped to make this up, the injustice to the public is apparent. A committee composed of the most prominent builders in the City waited upon this Council and urged the continuation of this force of building inspectors. I know of no such committee who requested the retention of the Civilian Aide. But notwithstanding the arguments advanced by the builders the inspectors were dropped.

"Three inspectors of weights and measures have also been dropped, notwithstanding the protest of the Director of the Department of Public Safety as well as some prominent workers interested in reducing food prices.

"I am not satisfied with the manner in which the employes of the Water Department have been treated. All agreed that the corps of engineers were competent and had brought the Department to a high state of efficiency, yet the excuse of economy was given for cutting the salary of some of the men who were responsible for the splendid results obtained; and this was done despite the protest of the Director of the Department of Public Works and His Honor the Mayor of the City, both of whom had experience in this Department.

"In view of the drastic reductions in the operating expenses of the Water Department, there is no justification for increasing the water rents. I feel as though the water we use should be as nearly free as the air we breathe. The City should furnish water for the actual cost of production and in my opinion it will be a mistake to convert it into a revenue-producer.

"I feel as though we should have tried the two-platoon system for the Fire Department. There was just as much evidence that it was feasible as there was to the contrary, and I am sure that it was worthy of a trial. Men who have been connected with the Fire Department for years have stated that it is practical and the excuse given that we will need more men does not fit in very well with the offer now made by the Department to reduce the force.

"There are several other items that I could enumerate, but I will not take up your time. I am not satisfied that we have sufficiently reduced our expenses to avoid the complications which arose last year. As individuals we must confine our expenditures to our income, and I feel we have failed to follow this rule with the affairs of our City, and it seems to me that to continue the plan as now laid out is simply to postpone the day of wrath.

"While one of the gentlemen has classed any person voting against this ordinance as an anarchist, yet I am against it and I am not an anarchist. Actions speak louder than words. Anarchists meet in secret places and under the cover of the darkness of night. These are things with which the gentleman should be thoroughly familiar."

Mr. **Dillinger** arose and said:

"Mr. President, I ask that the following remarks which I made at the meeting of the Finance Committee on December 9th, 1914, be inserted in the record:

"There were some statements made here last week about the Budget, which, without an explanation, could and have been, outside of this chamber, misconstrued. I have taken a great deal of pains in making an analysis of the Budgets from 1910 up to the present one; and if the other members of Council have not made a similar investigation, I believe this report, which I will read, will give them some enlightenment.

"As the estimates for 1915 now stand at $11,411,500.00, $3,327,000.00 must be cut to bring the current expense millage to 7.4, the same as 1914.

"Seven and four-tenth mills, the 1914 millage, would produce in cash during 1915, $4,669,000.00 on an 85 per cent collection basis. Adding to this the estimated miscellaneous receipts from other sources, $4,762,000.00, the total expected receipts would be $9,431,000.00, and to raise in cash collections during 1915 the difference between this amount and the estimates as they stand today, $11,412,000.00, or $1,981,000.00, would require a levy of 3.4 mills additional, or 10.54 mills, not considering the 1914 deficit.

"The $1,346,000.00 shortage from 1914 and $1,981,000.00 shortage in estimated receipts in 1915, on a 7.4 mill basis make the total of $3,327,000.00 that must be cut from the estimates as they stand today if we are to make our current expense levy 7.4 mills as in 1914.

"The current millage for 1915, on the basis of the estimates as they stand today, would be 10.54 mills for 1915 requirements plus 2.13 mills for the estimated deficit at the end of 1914, or a total estimated current expense levy for 1915 of 12.67 mills.

"The present status of estimates for 1915, $11,412,000.00, is approximately $1,278,000.00 more than the appropriations for 1914. The appropriations requested for interest on damages, contracts, judgments and bonds, plus the amounts asked for sinking funds and payments of judgments, are approximately $516,000.00 more than they were in 1914, leaving an increase in other items over 1914 of $762,000.00 The expenditures actually made, or estimated to be made, for 1914 are about $347,000.00 less than those for 1913, this measuring the reduction reflected in the appropriations for 1914, by reason of the eleven-month fiscal year, the actual requirement for salaries for one month, however, being approximately $150 000.00, this being to a large extent the increase in requests for 1915 due to the one month difference. This makes the 1915 request over the 1914, not accounted for, approximately $312,000 00, at the present status of the estimates.

"Among the larger increases in requests as the appropriations stand today, not previously considered, are:

Bureau of Police (101 extra patrolmen)	$103,000.00
Garbage and Rubbish Collection	36,000.00
Carnegie Library of Pittsburgh	48,000.00
Pittsburgh Playgrounds Association	55,000.00
Northside Playground Association	8,000.00
Total	$250,000.00

"These increases very largely account for the increase in the present 1915 estimates over 1914.

"Cash receipts from current expense millage levies in 1912, 1913, and 1914, when added to the miscellaneous receipts, have in no year produced the amount spent for that year, the shortage in 1912 being $544,000.00; in 1913, $431,000.00, a total of $2,009,000.00. At the beginning of 1912 there was a free cash surplus of $663,000.00, which has been applied during these years to reduce the millage that otherwise would have been necessary. This amount was reduced at the beginning of 1913 to a surplus of $119,000.00, at the beginning of 1914 to a deficit of $312,000.00, and now reflects at the beginning of 1915 a deficit of $1,346,000.00 instead of a surplus of $663,000.00, as at the beginning of 1912, as the total receipts for this period have been $2,000,000.00 less than the expenditures. On the basis of actual collections and expenditures of each year, the current expense millage in 1912 should have been 8.15 mills, in 1913, 8 07 mills, in 1914, 9.05 mills, and in 1915 on the basis of $11,412,500.00 appropriations, 10.54 mills. It may be noted that the 7.4 mills actually levied in 1914 has the same effect as a levy of 7.1 mills under the old law, due to the reduction of the rate of taxation on buildings.

"The increase in millage that should have been levied in 1914 to 9.05 over 8.07 in 1913 is due to the miscellaneous receipts other than current taxes and water rents falling off to the extent of over $600,000,00, the delinquent tax collection being $274,000.00 less than in 1913, the interest on bank balances being $106,000.00 less, the receipts from Diamond Market $30,000.00, receipts from switch licenses $23,000.00 less, no money being received from the Pittsburgh Railways Company for the cleaning of tracks in the years 1908 to 1912, $34,000.00 for which was received during 1913, and no money being received from the sales of large properties, $182 000.00 having been received during 1913, for the Seventh avenue engine house. This decrease is miscellaneous receipts, amounting to $622 000 00. is practically equivalent to one mill of increase, which as has been stated, should have been made in 1914.

"The amount that the City may expect to receive in cash during 1915, on the basis of 7.4 current expense levy, has been stated before to be about $9,431,000.00. This is over $700,000.00 less than the 1914 appropriations and it has been stated that the $1,278,000.00 increase in the present estimates over 1914 is due to salaries for one month, fixed charges and certain requests for increased service. It is impossible to cut the requests for increases in fixed charges, and the only possible way to cut the other requests is to refuse the additional amounts for increased service and to reduce the regular operating costs for salaries, supplies and materials so that there will be no increase in these items over the appropriations for 1914. This would reduce the 1915 estimates by between $750,000.00 and 800.000.00 and would require a current expense millage of about 9.27 mills for 1915. To provide for the deficit at the end of 1914 will require about 2.13 mills, a total for 1915 of 10.4 mills.

"The statement was made here last week that the Budget has come to us padded. In this analysis that I have presented you will see that no such condition exists in the Budget, but that it is a plain business statement of appropriations asked for the ensuing year and in them is included the Sinking Fund, Contractors' claims, interests, etc., which are fixed charges and which have made up the great deficit and which has been referred to.

"You all know that the $4,321,000.00 that was referred to as having been cut out by Council was not cut out by Council but was properly taken out by the Controller upon advice by his attorneys, Messrs. Beatty and Longfellow, and are not proper items for the Budget. I call attention to the fact that the Controller's report shows that during the past five years the bonded indebtedness of the City is increased over $14,000,000.00, and I am not criticizing at this time these improvements nor in addition to our overhead charges; but I want to call your attention to the fact that as these fixed overhead charges have been made by the City we must meet them as fixed legal debts, and they must be paid by an assessment or an increase in our millage.

"All the talks about "Secret Payrolls" which do not exist, positions created, increase in salaries, and increase in salaries of Directors, amounts to between $45,000.00 and $48,000 00, or practically one-fifteenth of a mill. This is all this administration has added to the burden of the taxpayer and this had been done by Council and not the Mayor, as some would have you believe.

"I show you an illustration in the Controller's report of what he calls the 'taxpayer's dollar,' which shows that more than one-fourth of our revenues goes to the Sinking Fund, interest, Contractors' claims, etc."

Mr. **Dillinger** then said:

"Mr. President, in answer to one of the statements made by one of the other speakers, in regard to the disorganization of the Police Department, due to a number of positions eliminated, I want to say that during the making of the Budget I made the motion to eliminate from the payroll of the Police Department certain positions which I thought were unnecessary. To be more specific, I want to refer the members of Council to the records of the trial of John M. Morin, former Director of the Department of Public Safety before Council three years ago on charges of malfeasance in office, and in that record will be found the reasons that actuated me in voting for the abolition of these positions. I hope that when this Budget is signed the men holding the positions which have been abolished will retire.

"As there have been some votes against the adoption of our present millage of 7.8 and some statements have become part of Council's records, in regard to the same I wish to make a statement and have it become part of the records, showing that the action of the majority of Council throughout our entire Budget-making and in our deductions which have resulted in the establishment of the present millage are the results of sincere and honest endeavor to keep the tax levy as low as it is possible and at the same time maintain a reasonable degree of efficiency.

"As I stated before Committee on December 9th, and which statement I wish to make part of the record of Council, I showed that the deficiency for 1912 was $544,000.00, in 1913 $431,000.00, and in 1914 a revised deficit of about $900,000.00, and that the present Mayor on assuming office on January 5th, 1914, was confronted with a deficit of $312.000 00, and as stated before, the deficit in 1914 was due partly to a mistake in the estimate of the Bureau of Water and due to the failure of estimated revenues coming in in the shape of taxes going delinquent and not being paid in 1914. Our present Budget stands nearly $900,000.00 less than the 1914 Budget on a twelve-months basis, and I defy any member of Council or any newspaper in the City of Pittsburgh to show where there has been any extravagance during the past year. There has been more yammering and whining about the hundreds of thousands of dollars of new positions created during this administration, which when sifted down amounts to this: That the positions of Civilian Aide and Superintendent of the Bureau of Information and Complaints, whose combined salaries amount to $7.000.00, are the chief sources of these wild and exaggerated statements. I want to go on record now that I believe the position of Civilian Aide is filled by a man whose services are today worth to the City of Pittsburgh $10.000.00, and who in re-organizing the Bureau of Detectives has put that Bureau in a position where graft and crooked dealing is an unknown factor, and this is more than can be said of this Bureau in the past twenty-five years. I believe the Bureau of Information and Complaints and Employment will prove to be of great benefit and convenience to the citizens of Pittsburgh and especially to those of our poorer classes who are seeking employment.

"As I stated before, the Mayor upon his presentation of the Budget to Council before any newspaper started a campaign for economy stated to Council that owing to the business depression and the great burdens that the taxpayer had to carry the Budget Committee should observe the strictest economy. In 1913 the appropriation for operation and maintenance was $8,840,000.00, in 1914 on a twelve-month basis) $9,297,000.00, and in 1915 our present Budget for these purposes is $8,412,000.00, or an actual reduction below 1914 (on a twelve-month basis) of $885,000.00. Some would try and have the public believe that the monies borrowed for this month's payroll, $400,000.00, will be figured up at the end of 1915 as an additional deficit. Any one making this statement knows that it is false, as this amount has been taken care of in the millage, as the Controller will verify. Our deficit then for 1915 will be $800,000.00, or the remaining two-thirds of the deficit we had at the beginning of this year, which has been divided over the periods of 1915-16-17.

I know there is bitter disappointment in some quarters over the fact that we have kept the millage down to its present figure, as they hoped for political purposes that they might be able to go before the people and show them perhaps a 10 or 11 mills tax levy, and it appears to me that some members of Council in analyzing their vote throughout the entire Budget have been imbued with this same spirit, as they voted against putting in the revenues of $500,000.00 this year of meter rents, $386,000 00 that we are to get from the County and even when the Firemen's Committee realized that it would cost from $100,000.00 to $150,00.00 more to put in the double platoon system, they still voted for its adoption, also were willing to add to the Budget $15,000.00 for the policemen's uniforms, when the police themselves were satisfied to wait another year when they knew the financial conditions. And the same members are on record as being opposed to a great majority of the reductions in salaries, amounting to about $30,000.00, and voted against almost every motion to abolish positions, which amounted to about $69.000.00. These two items make over a $100,000.00 reduction. These being added together, you will at once see would amount to over $1,000.000.00, which would have been added to the burden of the taxpayers had the majority of Council not acted along strict and sincere business lines. It is my opinion that any member of Council who, after considering the serious business depression of these times and how hard it is for the small taxpayer to even pay his delinquent taxes, will in the face of this stubbornly fight to make the millage an oppressive rate, is either doing it for political purposes or simply lacks any instincts of a business man.

The people of Pittsburgh are today burdened with the extravagances of an ex-Mayor, who, if I am rightly informed, shortly after assuming office stated that he would build up a political machine that could not be beaten in thirty years and immediately proceeded as fast as possible to add to the payroll $426,000.00 in increased salaries and new positions created, 118 positions being created in one year in one Department at an expense to the taxpayers of $138,000.00. We have made a reduction in these extravagances of $100,000.00 during this Budget-making, and if my belief is borne out by the investigations of the Efficiency Chief of the Civil Service Commission during the next year, I believe there is yet a lot of dead wood that can be removed from the payrolls. I believe there should be as great efficiency and economy used in the carrying on of the Cities business as is used in the proper management of a private corporation.

Mr. **Woodburn** arose and said:

"Mr President and Gentlemen: I really haven't anything to say in addition to what I said when the Budget was considered item by item. Every item in this Budget was carefully considered and I voted for those which I thought were necessary and against those which were not. I am not going to throw away thousands of items because I could not agree on a few. I am going to continue to abide by the will of the majority, because I respect their will, and because I think every item was conscientiously considered. I therefore wish to vote for this measure as it is presented to us today."

The **Chair** arose and said:

"Gentlemen: The difference of a City's expenditures and revenues has to be made up by taxation. In a City growing in population and territory, under the most economical and efficient administration of its affairs there will be an increase of its expenditures, and if there is not a corresponding increase in its revenues it follows that either valuations or millage must be increased. The history of Pittsburgh for the past years shows a gradual increase of outlay, while the revenues have decreased. In order to fix the millage for the year 1915 at the lowest sum, we have made drastic cuts in departmental estimates and at the same time reduced allowance to grants and other municipal activities. It is possible that in some cases we have been too conservative in our estimates and this is particularly true with regard to supplies and the errors will have to be made good through the Contingent Fund during the year as they become apparent.

"As to the revenues of the City, we have been able to make but little change, as we are handicapped for want of legislative power to collect from sources that should pay. We have done our duty in reducing expenditures. It remains for us to see that the City is empowered by proper legislation to get adequate returns in the shape of revenues from persons and properties now wholly or partially exempt. Without taking into consideration additional revenues through proposed legislation, Council has made a conservative estimate of revenues for the coming year. It may be that, as was the case for the past year, we may be disappointed as to some of the items, but to have been more liberal in our expenditures or to cut out some of the expected revenues, would mean a still larger increase in the millage for 1915 than that provided for, and while there may be some criticism as to expenditures and certain items of revenues, I have yet to hear any suggestion of the only alternative and that is that the millage for 1915 should be higher than that decided upon."

Mr. **Garland** presented

No. 2558.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, January 25th, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

With reference to Bill No. 2536, the same being a resolution "that the Mayor and the Director of the Department of Public Works be and are hereby requested to proceed to award a contract for the carrying out of the above named ordinance," the same being an ordinance for the grading, paving and curbing of West Liberty avenue, from Warrington avenue to the City Line, and the construction of a storm sewer for the drainage thereof, describing said sewer, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby.

Beg to advise that the amount of assessment against the City on this improvement is very much and this is part of the proposed Councilmanic Bond Issue, and as soon as the Bond Issue is approved by the Court and by Council we will proceed to advertise for the work.

Yours very truly,

ROBERT SWAN,

Director.

Which was read, received and filed.

Also

No. 2559. Communication from Roger Williams, Secretary of the Pittsburgh Board of Trade, stating that said organization is in favor of legislation looking towards the collection of proper compensation from public utilities corporations.

Which was read, received and filed.

Also

No. 2560. Communications from R. G. Gamble, President of the Twenty-seventh Ward Progressive Club, favoring payment of water rents quarterly; protesting against the sale of the North Side Light Plant to the Duquesne Light Co., and endorsing the action of the Christian Social Service Union in requesting Council to investigate the police court system of the City

Which was read, received and filed.

The **Chair** presented

No. 2561.

MAYOR'S OFFICE.

Pittsburgh, Pa., January 26, 1915.

To the Honorable, the Council of the City of Pittsburgh.

Gentlemen:

On going over the Tax Levy Ordinance I feel that an error has been made in the amount set forth with respect to the millages for the separate indebtedness.

As appears upon the face of these bonds they are issued under and in pursuance of an Act of Assembly relating to the bonded indebtedness, which provides that an annual tax shall be levied in each instance sufficient to pay the interest annually and redeem the bonds within a period of thirty years, and the levy as made is inadequate in this particular.

I would therefore ask Council to recall the bill and correct this deficiency.

Yours very truly,

JOS. G. ARMSTRONG,

Mayor.

Which was read, received and filed.

Mr. **Garland** presented

No. 2562. Resolved, That the Mayor be and he is hereby requested to return to Council, without action thereon, Bill No. 2023, An Ordinance levying and assessing taxes and water rents for the fiscal year beginning January 1st, 1915, and ending December 31st, 1915, including the levying of special taxes for the payment of the separate indebtedness of certain annexed districts, upon all property subject to taxation within the limits of the City of Pittsburgh.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

And the Mayor having returned, without action thereon,

Bill No. 2023. An Ordinance entitled, "An Ordinance levying and assessing taxes and water rents for the fiscal year beginning January 1st, 1915, and ending December 31st, 1915, including the levying of special taxes for the payment of the separate indebtedness of certain annexed districts, upon all property subject to taxation within the limits of the City of Pittsburgh."

In Council, January 19th, 1915, Rule suspended, bill read three times and finally passed.

Which was read.

Mr. **Garland** moved

To reconsider the vote by which the bill was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring, "Shall the bill be read a second and third times and finally passed?"

The motion did not prevail.

Mr. **Kerr** moved

That the bill be recommitted to the Committee on Finance.

Which motion prevailed.

The **Chair** presented

No. 2563.

MAYOR'S OFFICE.

Pittsburgh, Pa., January 26, 1915.

To the Chairman and Members
of Council.

Gentlemen:

In accordance with your Resolution No. 2386, I am sending you herewith a list of the Fire and Police Officers against whom charges were brought before the trial boards, together with the disposition of the same, during the administrations of Mayor Guthrie, Mayor Magee and the present one.

Yours very truly,

JOS. G. ARMSTRONG,

Mayor.

Also

List of Fire and Police Officers as aforesaid.

Which was read.

Mr. **Kerr** moved

That the communication be referred to the Committee on Public Safety.

Which motion prevailed.

Also

No. 2564.

CIVIL SERVICE COMMISSION,

Pittsburgh, January 26, 1915.

To the Council,
City Hall,
Pittsburgh.

Gentlemen:

With all due respect and courtesy to your Honorable Body, the Civil Service Commission of the City of Pittsburgh, in reply to your request for the production of certain applications, eligible lists, promotion lists, provisional appointment lists, and other records of the Commission, respectfully reports:

That under the law governing the Commission, it is under no duty or obligation to furnish to the Council such matters; that the Council has no power or supervision over the Commission, or its records, or proceedings.

It is, therefore, not deemed expedient or proper to comply with the aforesaid request.

Respectfully yours,
JOSEPH F. JOYCE,
F. H. FREDERICK,
HOMER E. LESLIE,

When the name of Mr. **English** was called, he arose and said:

"Mr. President, I cannot see my way clear to vote for this bond issue in view of my opposition to the last bond issue and more particularly on account of having predicted such a situation as now exists. You will all remember that I was laughed at on February 4th, 1914, when I predicted that the passage of the tax levy and appropriation ordinances at that time would bring about the trouble in which the City now finds itself as the result of the errors of the majority of this Council. While it is not fair to the employes of the City to have their pay withheld, and I regret this feature very much; nevertheless, since I am not responsible for this condition, but having opposed it in the making, I must continue now to oppose the issuing of these bonds. Consequently, I am compelled to vote NO."

No. 2570.

January 28, 1915.

To The President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

I return herewith Bill No. 2511, an Ordinance fixing the number of officers and employes of all departments of the City of Pittsburgh, and the rate of compensation thereof, without my approval. My reasons for said disapproval are, that under the following sections certain provisions as listed herein have not been made.

Certain positions have been stricken from the salary schedules and the salaries of others have been reduced which should be replaced and restored in accordance with the suggested changes in the Appropriation Bill No. 2024, as follows:

Section 23, Department of Public Safety, Bureau of Police.

Should be added:

Assistant Superintendent, $2,400.00 per annum.

Captain, Secret Service Operatives, $2,400.00 per annum.

Seven Captains, $1,800.00 each per annum.

Section 26, Department of Public Safety, Bureau of Electricity.

Should be added:

Assistant Superintendent, $1,800.00 per annum.

Section 27, Department of Public Safety Bureau of Building Inspection.

Shoud be added:

Superintendent, $4,000.00 per annum.

Should be:

Superintendent, $4,800.00 per annum.

Section 88, Department of Public Works, Water-Mechanical Division.

Division Superintendent, $3,000.00 per annum.

Should be:

Division Superintendent, $3,600.00 per annum.

Section 98, Department of Public Works, Water Distribution Division.

Division Superintendent, $3,000.00 per annum.

Three Division Engineers, $2,000.00 each per annum. (One from bonds).

Three Assistant Engineers, $1,800.00 each per annum. (Two from Bonds).

Should be:

Division Superintendent, $3,600.00 per annum.

Three Division Engineers, $2,500.00 per annum, each.

Three Assistant Engineers, $2,000.00 each per annum.

Section 53, Department of Public Works, Bureau of Engineering.

Superintendent, $4,000.00 per annum.

Chief Clerk, $2,100.00 per annum.

Should be:

Superintendent, $4,800.00 per annum.

Chief Clerk, $2,400.00 per annum.

Section 54, Department of Public Works, Division of Surveys.

Principal Assistant Engineer, $2,700.00 per annum.

Six Assistant Engineers, $1,800.00 each per annum.

Should be:

Principal Assistant Engineer, $3,000.00 per annum.

Six Assistant Engineers, $2,000.00 per annum, each.

Section 58, Department of Public Works, Division of Design.

Division Engineer, $2,700.00 per annum.

Assistant Engineer, $1,800.00 per annum.

Should be:

Division Engineer, $3,000.00 per annum.

Assistant Engineer, $2,000.00 per annum.

Section 60, Department of Public Works, Division of Bridges.

Division Engineer, $2,700.00 per annum

Two Assistant Engineers, $1,800.00 per annum, each.

Should be:

Division Engineer, $3,000.00 per annum.

Two Assistant Engineers, $2,000.00 each per annum.

Section 61, Department of Public Works, Division of Sewers.

Division Engineer, $2,700.00 per annum.

Should be:

Division Engineer, $3,000.00 per annum.

Section 62, Department of Public Works, Division of Public Utilities.

Division Engineer, $2,700.00 per annum.

Assistant Engineer, $1,800.00 per annum

Should be:

Division Engineer, $3,000.00 per annum.

Assistant Engineer, $2,000.00 per annum.

Section 63, Department of Public Works, Division of Streets.

Division Engineer, $2,700.00 per annum.

Six Assistant Engineers, $1,800.00 each per annum.

Should be:

Division Engineer, $3,000.00 per annum.

Six Assistant Engineers, $2,000.00 each per annum.

Yours truly,

JOS. G. ARMSTRONG

Mayor.

Which was read, received and filed.

And

Bill No. 2511. An Ordinance entitled," An Ordinance fixing the number of officers and employes of all departments of the City of Pittsburgh, and the rate of compensation thereof."

When the name of Mr. **English** was called he arose and said:

"Mr. President, inasmuch as the Mayor has practically covered the ground completely and fully, and it agrees almost exactly with my own position while these matters were being discussed in the Appropriation Committee, it is my duty to sustain the Mayor when I think he is right. I will, therefore, have to vote to sustain the veto of the Mayor, and as I do not desire this bill to become a law I will vote No."

Ayes—**6.**

Noes—**3.**

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

The **Chair** presented.

No. 2571.

January 27, 1915.

To the President and
Members of City Council
City of Pittsburgh.

Gentlemen:

I return herewith Bill No. 2024, An Ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1st, 1915, and ending December 31st, 1915, with my disapproval as to certain items and parts of items as follows, to-wit:

1142, A-I. Salaries, Regular Employes, Bureau of Police, $1,028,909.75 This item is disapproved for the reason that it is not sufficient. Seventeen thousand four hundred dollars was stricken out of the estimates for the items mentioned below.

In this item Council has seen fit to eliminate a number of positions I feel that the loss of these men will be very detrimental to the efficiency of the Police Bureau of the City, and will undoubtedly be the means of encouraging, and bring into our midst, that element whose sole source of revenue and whose existence is maintained by thievery and robbery. This element has been recognized as a shrewd, smart class of people, thoroughly acquainted throughout all the large cities with the different systems in operation for protecting the public against their activities. They make a study of the different police departments for the purpose of learning the weakness in their organization whereby they may feel safer in their operations in some cities than in others.

If the service of the Emerson efficiency engineers were valued so highly I cannot understand why Council so lightly considered the suggestions of those engineers with regard to demoralizing and disrupting the organization of the department. On page 8 of the report which The Emerson Company submitted to Council they offer the following comment on the Department of Public Safety:

> "Reducing not only the rank but the pay of the older members of the force tends obviously to demoralize it, disheartening those who have made a life profession of police work by depriving them of incentive to advance. We believe that the lax discipline observed throughout the Bureau of Police is largely attributable to the general dissatisfaction that has prevailed as a result of these reductions."

The interference with the Department of Public Safety by Council has, in my opinion, again placed the City back a number of years.

In reviewing the action of Council in what I might term the crippling of this department I will take up as my first subject the Assistant Superintendent of Police.

Council, in its wisdom, has seen fit to eliminate the position of Assistant Superintendent, Bureau of Police. I claim this position is an absolute necessity and should be maintained, for the following reasons: The Superintendent of Police has under his direction more than 900 officers of different kinds, whose duty it is to protect the property and the citizens of this City. It is the Superintendent's duty to supervise and direct the Police Commissioners in the various districts throughout the City; receive complaints from various sections of the City; personally direct the police Commissioners in looking after the complaints, and such other work that comes under the direction of a man in a position of this kind who practically holds in the palm of his hand the welfare of the people of this City—and not a City of 560,000 inhabitants, either but a City of practically a million population.

If the Superintendent of Police take sick, or be off duty for any length of time for any other cause there should be an assistant to take his place, who, every day is acquainted with every day's reports which come into the office, and be able to take up the Superintendent's duties in such a thorough and efficient manner that no delinquency would result by reason of the Superintendent's absence and our people get that protection for which they pay and to which they surely are entitled to receive.

This is a much more responsible and bigger position than Council by their action seems to appreciate, and undoubtedly they have not given it the serious thought and consideration due it.

Many emergency cases arise and are brought to the notice of the Superintendent, who immediately starts his assistant out to investigate and take such action as is necessary on short notice to clean up the condition, which. if left lie dormant for any length of time might result disastrously to the community where it occurred.

The New York Bureau of Municipal Research evidently recognized the responsibilities and necessity of this position, for on page 14 of their report to Council in June and July, 1913. among other things, they say: "The functions of the assistant superintendent correspond to those of the chief inspector in other large cities. His duties as now prescribed by the manuel are so numerous and his responsibility so great that he should be relieved of as much detail as possible, etc"

In striking this place out of the Budget I feel that Council has deprived the tax payers of the City of Pittsburgh of one of the most valuable police officers not only in this City but in any other City in this country. For more than 20 years he has been a member of the police department, rising from one step to another at the expense of the tax payers of the City of Pittsburgh By taking this man out of the Department, with the others who will be mentioned later, there is no doubt in my mind it would be the greatest encouragement and incentive to that criminal element mentioned before in this statement, to make Pittsburgh their goal, and I therefore do not approve the policy of Council in this matter, especially after the City of Pittsburgh has trained and paid for this police officer's experience in the duties he has performed for years until now he has become such a valuable officer at the expense of the tax payers of the City and I believe it wrong that he now be turned over to some corporation who will pay him the same salary, or more, after the City has paid for that schooling and the City be compelled to pay him fifty per cent. of his present salary in his retiring on pension and get nothing in return for same. This officer is in the prime of life (48 years old) and by the action of Council he will retire from the service on pension at half pay.

Council has eliminated the position of Captain of the Secret Service Operatives. This position should have been retained. The duties of this position are somewhat of a general character. It is not unusual for the Bureau of Police to be notified, on short notice, that suspicious persons are loafing around banking institutions and other places throughout the City where robberies could be carried on profitably, and trained men have to be sent immediately on the job for the protection not only of the people and the institutions, but to verify the report and learn whether the suspicions are correct, or not In many instances desperate characters are thus picked up and taken before the police courts before crimes are committed. Sometimes it is necessary to follow for weeks and months at a time persons under observation in order to locate and secure information that is necesary to bring to justice those who have been implicated in crime. This character of work is just a step beyond the work of the ordinary police officer and is delegated to what is known as the secret service men who are picked for these positions on account of their special training and keenness at investigating and judgment of criminals and who can more readily and efficiently look into cases of this kind and make the necessary arrests. This is distinct from the ordinary police work, as stated above. and while the detective bureau does come under the Superintendent of Police it impairs the efficiency of the Bureau to be without a superior head. Therefore, you have made a mistake, in my judgment, in not providing for this position.

In no previous administration, so long as there has been a Bureau of Detectives, or call it by whatever other name you wish, has this Division been without a head.

The Emerson Company, on page 85 of their report on the Department of Public Safety, recommend that a Captain of Detectives be appointed.

You have also deprived the citizens of Pittsburgh of the services of Police Captains, 7 in number—covering the various districts through the City. This I claim is unwise and absolutely a mistake, I therefore strongly protest against your action.

The duties of a Captain of Police are really those of an Assistant Police Commissioner. In other words, the Commissioner cannot be expected to work 24 hours a day, every day in the year. There are times when he cannot be and is not on duty, and it is then very essential to have on duty a man with authority who can command the respect of his district and is able to maintain the discipline of the men under the Commissioner and himself in such manner that the residents of the district will receive what is due them—protection to lives and property.

The Captain's work is all night work He is located at the different police headquarters and is there to take up the work that is performed by the Commissioner during the day time. Should anything occur in his district that demands immediate attention there ought to be a man in authority at the different police headquarters who could immediately appear on the scene with the necessary help. It has been my great pleasure to know that the greatest desire of all the gentlemen filling the duties of Captain has been to keep their districts as free from robberies and violations of the law as it was possible to do.

While it might be said the Lieutenant of Police can do this work, nevertheless, a close study of the situation will show it is not for the greatest efficiency of the department that this change be made. The chief duty of a Lieutenant now is his field work—traveling from one beat to another at unexpected hours to see that the officers who are entrusted with the safety of the people are diligently on guard at their posts, and honestly patrolling their beats and attending to their duties as expected of them. If the Captains are dropped and the Lieutenants given that work, naturally the supervision over the men by the Lieutenant will be discontinued, the Lieutenant will have to give up his field work and be stationed at the police headquarters or within range where he can immediately and at all times step out and do what the Captain now does, which would leave the field work uncovered and the police officers patrolling the beats would be given free reign over their entire beats to conduct themselves practically as they choose. And if an officer be inclined not to treat his employers fair, it can readily be seen the danger that would follow in taking the watchman off him. In all fairness to the police officers, however, I must say that a great percentage of them are honest and attend to their duties properly, yet, if any of them are inclined not to hew to the line as they should, knowing that the watchman is no longer over them, they might become more or less careless, and in that event nothing else can be expected than petty robberies and thefts, and other violations of the law would occur.

The cutting of these seven positions from the budget will undoubtedly be more or less an encouragement or incentive for the criminal element throughout the City to start and operate more freely than they are at the present time. They certainly will know that the department has been deprived of the services of these trained men and they also will know that the other men who will have to shoulder these additional responsibilities will be overburdened with work and cannot be expected to perform all these duties in an able and efficient manner.

Your action in cutting out these positions will also put a stop to the routine of Sergeants of the different stations of the different districts, also the routine of Lieutenants as now done in the department. In other words, having both day and night turns, vice versa, the best men that can be picked will have to do the night work, as they will be absolutely in charge on account of the Commissioners not being able to look after their districts both night and day continuously. This certainly does not appear to me to be fair as it is putting a penalty on men who render the best service to the City, keeps them away from their families all the time on night duty and deprives their families of some of their evenings, which now they get.

The amount saved in this disrupting and disorganizing the department is so insignificant in comparison with the safeguard these men would throw around the residents of their different districts, that I feel, as stated above, it is absolutely a mistake.

High priced men brought here from other cities to enlighten Council upon their work in this matter have all recommended in their many reports that the positions of Police Captain were very essential and should be kept. In filing my comment on the action of Council in this matter I would refer you to pages 10 and 11 of the report of the Bureau of Municipal Research made to your Council in the months of June and July, 1913, for which report the City paid $7,040.75. The Emerson Company also employed and made an investigation and report on this matter to Council, for which report they charged $13,076.90. In other words, a total of two different expert bureaus brought into the City and whose advice Council received and has apparently neglected to observe, cost the City $20,117.65. Among other suggestions of the New York Bureau of Municipal Research on page 15 of their report is the following: "The Superintendent, with the approval of the director, should abolish the present district line immediately and should assign a captain to each of the eleven most important precincts, etc., etc." Therefore, if the judgment of these high priced men was worth anything near what Council paid them for advice, I feel again that Council is absolutely mistaken in thus disorganizing the department.

When it is taken into consideration that police protection provided to the tax payers in this city is on a basis of 2 to 3—in other words, other cities in the country of similar size have 3 officers to our 2 and our officers must contend with nearly all nationalities on account of Pittsburgh being a large manufacturing center—I think you can readily see by the changes you have made, the handicap that is placed on the police department and should note that it is somewhat out of reason. It might be all right for economic reasons to cut out an engineering corps, stop a piece of work and let it lie closed for a year and cut an office force and close their books, but it can not be expected that you can drag men off the police department and then tell the criminals of the country they can not come to Pittsburgh, because you have not a sufficient number of police officers to look after them.

These men are all trained men in the police department and practically in the prime of life but by the City being deprived of the services which they are so able to give, it does not look fair that they be forced on the pension roll at this time and the city have to pay fifty per cent. of their salaries and receive nothing in return for same. The amount saved in cutting these men from the budget is so insignificant in comparison with the safeguard they would throw around our citizens that I believe your action is unwise.

Further commenting on the appropriation for the Bureau of Police, I think it was a mistake on your part to omit some provision for gathering evidence in cases. This matter has been before Council a number of times and no doubt you are thoroughly acquainted with the necessity of an appropriation of this kind.

1166, A-1. Salaries, Regular Employes, Bureau of Electricity, $55,610.00. This item is disapproved for the reason that it is not sufficient. One thousand six hundred and fifty dollars was stricken from this estimate, which represents the Assistant Superintendent's salary for a period of eleven months, one month having been provided in the above item.

Your Body has seen fit to eliminate the position of Assistant Superintendent in this item. The incumbent has been employed in the electrical department of the city for over twenty years. Prior to this service he was a member of the Bureau of Fire for five years. Prior to his appointment as Assistant Superintendent he filled the positions of Police Telegraph Operator, Police Box Inspector, Fire Alarm Operator, Chief Fire Alarm Operator, and Lineman. The duties now performed by him as Assistant Superintendent are the general supervision of all repairs to signalling apparatus, including fire alarm boxes, police boxes, and all receiving and transmitting instruments in engine houses and police stations, assist in the direction and supervision of the general plans of construction and betterment of plant conditions, and, under the direction of the Superintendent, assists in many details of administration of the Bureau's affairs. This length of service and experience in the different capacities in the Bureau has undoubtedly fitted the incumbent for this present position, and with the work now on hand and contemplated improvements for a betterment of fire alarm and police signal system conditions, as proposed for many years to come, I feel that it is unwise to eliminate this position.

The best evidence of the qualifications of the incumbent in the carrying on of his work, and his knowledge of this character of work, is that after Pittsburgh has paid him for these many years they have had him in their employ he now has been offered a position at an equal salary, or better, to go to work for a private concern which does a great amount of work with the city, showing that they know the value of the man's services. This man is in the prime of life and if he leaves the service of the city will have to pay him $900.00 a year pension, which means that it will be paying out that amount of money and will receive nothing in return. I feel that the place is a necessity and will have to be filled later on and I believe that it would be a grave mistake to allow this man to slip out of our hands after paying for his education in this work for so many years.

1178, A-1. Salaries, Regular Employes, Bureau of Building Inspection, $27,425.00. This item is disapproved for the reason that it is not sufficient. Four thousand one hundred and twenty-five dollars was stricken from the estimate for the salaries of three inspectors.

In my judgment your Honorable Body made a serious mistake in eliminating the positions of three Inspectors in this Bureau. A committee representing the builders of Pittsburgh, headed by Mr. Nicola, called at my office not long ago with the complaint that there were not enough employes in the office of the Building Inspector to give them efficient service, which they required. They went to Council and complained the same as they had to me. Mr. Nicola stated to Council, and to me personally at the office, that if the charge for the permits was not enough they would be willing to have it increased as they would sooner pay a little more and have efficient service.

The Bureau of Building Inspection is a self-sustaining office. The permits there issued and the tax collected for same so far as new buildings are concerned make it possible for this office to be self-supporting. Therefore, so long as the builders of the city are willing to pay the bill they should get service such as they feel they are entitled to receive.

While the Bureau of Building Inspection last year collected $24,581.23, for new buildings, alterations and signs and the expense of running the Bureau was $32,000.00, nevertheless, there is a great deal of work that the Building Inspectors are required to do by the Act of Assembly, such as inspecting theatres, nickelodeons and all other places of amusement, for which last year $30,847.00 was collected in the way of license tax. They are also compelled to inspect all old buildings that appear to be dangerous, and many other duties have to be performed by them where the law does not require the taking out of a license, but, nevertheless, have to have the approval of the Building Inspector's office but no fee is attached to same. It can readily be seen that the amount of license tax collected upon the approval of the Building Inspectors' reports runs into a great deal of money, not counting work they do where no revenues are collected at all.

1135, A-1, Salaries, Regular Employes, Division of Weights and Measures, $10,710.00. This item is disapproved for the reason that it is insufficient. Two thousand nine hundred and seventy dollars was stricken from the estimate for salaries of three Inspectors of Weights and Measures. The ordinance of Council now requires that all scales be inspected at least twice a year and the force of men now in this Bureau is not equal to that work. Therefore, the reduction of the force would make it impossible for the ordinance to be complied with. Any impairment of this service resulting from action of Council on this item will be a direct and immediate loss to the people.

1631, A-1. Salaries, Regular Employes, Bureau of Water, Superintendent's Office, $5,266.67. This item is disapproved for the reason that it is insufficient. Seven hundred thirty-three dollars and thirty-three cents was stricken from the estimate for the salary of the Superintendent. Council has reduced the salary in this position from $4,800.00 to $4,000.00. When you consider the great responsibilities that are necessary for the man filling this position I feel Council has made a mistake in reducing this salary. If the present incumbent were to leave, I know it would be practically impossible to get a man with the knowledge of city affairs in this big Water Department, who would take the position at the same salary Council has set in this budget. The City would be severely handicapped in filling this position, as well as those of the Division Superintendent of the Mechanical Division and the Division Superintendent of the Distribution Division, whose salaries were reduced from $3,600.00 to $3,000.00, respectively, as well as several other positions of Assistant Engineers in these Divisions whose salaries were reduced, and in reducing these salaries it is absolutely detrimental to the Bureau. It has taken years and years to build up this organization and I consider that our Water Bureau at this time is equal to that of any city in the country, and it was so recognized by the Bureau of Municipal Research during their investigation in our City.

These slight decreases amount to nothing to the City, comparatively speaking, but no doubt will be the means of causing a great deal of dissatisfaction among the men. And in the cases of those men who are in charge of Divisions whose salaries have been reduced to the same basis as their subordinates the effect will be to impair the authority of the men so reduced as there will be no incentive for them to exercise the authority of the superior officer which they are called upon to do under the existing organization.

Among those affected are many who have been in the service for a great number of years and merit the salaries they are now receiving. These reductions in salary will cause them to look for other places. It appears to me to be too bad that after these men have been schooled up in this work at the expense of the City, and have reached that point as engineers where their services are being sought by other cities and engineering organizations, that we will have to let them go or put them in a position where they will accept a situation, if offered them, which you know, has been the case in several instances during the past two years, but the men did not accept, thinking they would be kept on their work at their present salaries. This would necessitate the starting of a new school to train other men up from the bottom of the ladder, which will take a great many years to bring it to the point where these men are now. I feel that for every dollar you are saving now in these cuts you will lose hundreds of dollars by the changes made. The rates now paid are less for the corresponding positions than are paid in other cities comparable in size and presenting the same difficulty of operation.

These men are the administrative force who have entire charge of the Bureau. The operating expenses of this Bureau are over $800,000.00 per year. In addition to operating the plant, they now have on hand about $1,000,000.00 worth of bond improvement work for the coming year. In the last four years they have had charge of about $6,000,000.00 worth of bond improvement work.

1651, A-1. Salaries, Regular Employes, Mechanical Division, $33,498.34. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1631 as stated above. Five hundred fifty dollars was stricken from the estimate for the salary of the Division Superintendent.

1659, A-1. Salaries, Regular Employes, Distribution Division, $43,530.00. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1631 as mentioned above. One thousand six hundred and fifty dollars was stricken from this item for salaries of Division Superintendent, two Division Engineers and one Assistant Engineer.

1413, A-1. Salaries, Regular Employes, Bureau of Engineering, General Office, $13,091.67. This item is disapproved for the reason that it is insufficient. One thousand eight dollars and thirty-three cents was stricken from the estimate for the salary of the Superintendent and Chief Clerk. Council has seen fit to reduce the salary of the position of the Superintendent from $4,800 00 to $4,000 00 as well as the salary of the position of Chief Clerk from $2,400.00 to $2,100.00. When it is taken into consideration the great responsibilities involved in the duties of these positions, I feel that Council has made a mistake in cutting the salary. If the incumbent were to leave the service of the City it would be almost impossible to find a man with the knowledge of City affairs and ability in this particular line to take his place at the salary set by Council. It certainly would be very difficult to fill this position, also that of the Chief Clerk, whose salary you have cut $300.00 a year. The work entrusted to the Chief Clerk is equal to that of any Cost Accountant in the city. He has as high as 40 or 50 jobs now at one time. His business is to seperate the cost of these jobs, go over all the estimates of the Engineers and in fact give the Director of the Department an itemized statement showing the engineering cost, the cost of materials, etc., on all kinds of work that is going on during the year. His work has to be exact, too. It is not like making an estimate which shows a mistake and can be corrected. The payments of estimates are paid out on his O. K. He figures the cost on all work going through the Engineering Bureau. Prior to his time there were many changes in the position because it was hard to get a man equal to the office. What is true of these two men with regard to the position in which Council has placed them where they would favorably consider offers from outside corporations on account of a reduction in their salaries is also true of the principal Assistant Engineer in the Division of Surveys, who received a cut of $300 00 a year in salary, and the six Assistant Engineers in that Division who were reduced $200 00 each a year; also the Division Engineers and Assistant Engineers, who received reductions of $300.00 and $200.00, respectively, each, in the following Divisions: Division of Design, Division of Bridges, Division of Sewers, Division of Public Utilities and Division of Streets.

These men have charge of the construction of new streets and sewers. They have all been in the service many years and have been trained to do the work, and are acquainted with all the work done by contract. If this work were in the hands of incompetent men a great loss would undoubtedly result. At the salaries, as readjusted, these men will probably accept other positions from outside sources if offered.

There is not only the regular amount of work to be done for the season, but there is also a large amount of money available for bond work and it is expected that before the middle of the summer there will be half to three-quarters of a million dollars released for assessment work, so that the work of the Bureau will be in excess of what it has been for the past several years.

Owing to the topography of the City of Pittsburgh it is impossible for a new engineer to fully grasp the conditions while the men now in the service are thoroughly familiar with all engineering requirements in laying out and constructing streets and sewers. It is plain, therefore, that Council made a great mistake in cutting these salaries.

1420, A-1. Salaries, Regular Employes, Division of Surveys, $54,225.00. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1413 as state above. Thirteen hundred seventy-five dollars was stricken from the estimate for the salaries of the principal Assistant Engineer and six Assistant Engineers.

1438, A-1. Salaries, Regular Employes, Division of Design, $15,461.67. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1413 as stated above. Four hundred fifty-eight dollars and thirty-three cents was stricken from the estimate for the salaries of one Division Engineer and one Assistant Engineer.

1445, A-1. Salaries, Regular Employes, Division of Bridges, $18,799 This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1413 as stated above. Five hundred thirteen dollars and thirty-three cents was stricken from the estimate for the salaries of one Division Engineer and two Assistant Engineers.

1465, A-1. Salaries, Regular Employes, Division of Sewers, $22,645.00. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1413 as stated above. Two hundred seventy-five dollars was stricken from the estimate for the salary of one Division Engineer.

1472, A-1. Salaries, Regular Employes, Division of Public Utilities, $25,841.67. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1413 as stated above. Four hundred fifty-eight dollars and thirty-three cents was stricken from the estimate for the salary of one Division Engineer, and one Assistant Engineer.

1478, A-1. Salaries, Regular Employes, Division of Streets, $31.025 00. This item is disapproved for the reason that it is not sufficient as stated in my comments upon the disapproval of Item 1413 as stated above. Thirteen hundred seventy-five dollars was stricken from the estimate for the salaries of one Division Engineer and six Assistant Engineers.

In many places throughout the departmental estimates Council has stricken out many of the items classified under the caption "Miscellaneous N. O. C.", which means NOT OTHERWISE CLASSIFIED.

Under the code classification of accounts put up by your expert accountants there are a number of articles used in the various departments which are classified in the above manner, and your experts provided that articles such as these should all be under this head. In a great many instances you have cut those goods under this title completely out of the budget, many of which will have to be provided for either out of the general appropriation for these various codes or out of the Contingent Fund.

It is not possible for our department heads to estimate more closely upon these items than they did in making up their estimates for the coming year. It is impossible to foresee, especially in such places as the pumping stations in the Bureau of Water what sort of a break may occur but provisions for such a break must be made each year. Certain repairs and replacements must be made from time to time and whenever accidents occur or when certain machinery parts give way through natural wearing out they must be replaced.

I have not specified in the foregoing paragraph any of these items but I wish to state plainly to your Body that in the striking out from the estimates these items without regard to the necessity for them so restricts the appropriation for the natural carrying on of operations that it can readily be shown many necessary repairs cannot be made. The total amount of such reductions in the Department of Public Works alone is about $12,000.00.

In my election to the office of Mayor I was distinctly pledged to economical administration of the city government, and I consider that I have consistently adhered to that pledge, but the appropriation ordinance now returned with my veto is not based on real, but false economy. The elimination of positions or the reduction of salaries in such positions necessarily involves serious impairment of the public service, and this is not economical, but failure to appreciate the duty of the legislative body in the matter of public administration. It cannot be denied that at least the majority of the positions involved in the items of this ordinance which I have vetoed are those which vitally affect the efficient and satisfactory work of the two most important branches of the city government. Impairment of service either in the Department of Public Safety or the Department of Public Works practically means failure of city government. Weak or inefficient police service touches every citizen directly in the safety of his home and all his property rights, and incompetency or inexperience in the great Department of Public Works means not only the actual loss of hundreds of thousands of dollars but also that the municipality is moving backward instead of progressing as it should. I am convinced that this apparent saving of a few thousand dollars, amounting to a total of $34,541.65, in cutting out these positions and reducing the salaries of others is radically wrong and that I am fully justified in refusing my official sanction to the same. All the other items and parts of said ordinance I do hereby approve.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

MOTIONS AND RESOLUTIONS

Mr. **Garland** presented

No. 2572. Whreas, Unless the Tax Levy, Appropriation and Salary Ordinances become law during this month, the City will not derive the benefit during the month of February of the large economies effected; and.

Whereas, The Council has today amended the Tax Levy Ordinance in line with the Mayor's suggestions; therefore, be it

Resolved, That His Honor, the Mayor, be respectfully requested to act upon said Tax Levy Ordinance at the earliest possible date, so that the Council may, if found necessary, take final action upon the same on Saturday, January 30th, on which date a special meeting of Council has been called to consider said measure.

COUNCIL

JOHN M. GOEHRING . . . . President
E. J. MARTIN . . . . City Clerk
ROBERT CLARK . . . . . Assistant City Clerk

Pittsburgh, Saturday, Jan. 30th, 1915.

Council met pursuant to the following call:

Mr. E. J. Martin,
Clerk of Council.
Dear Sir:

Please call a special meeting of Council for Saturday, January 30th, 1915, at 4 o'clock, p. m., for the purpose of considering unfinished business of Council and such other business as may come before the meeting.

Yours respectfully,
J. M. GOEHRING
President.

Absent.

Mr. Dillinger.

The **Chair** stated that as there were no objections, the reading of the minutes of the previous meeting would be dispensed with.

Mr. **Garland** moved

A suspension of Rule VIII, which provides that all bills, ordinances and resolutions when returned from committee shall be printed and a copy mailed to each member at least 48 hours previous to a meeting of Council, in order that the bills may be considered.

Which motion prevailed.

Mr. **Rauh** asked leave and obtained permission to present at this time,

No. 2573. Whereas, The City of Pittsburgh owns considerably over one thousand pieces of property for which it has no use;

Whereas, Every piece of this property that is sold this year will aid in reducing some of the millage next year, which will act as a benefit to all the taxpayers; therefore, be it

Resolved, That Council respectfully ask for a conference with the Mayor and the Law Department in the near future, at a time convenient for the Mayor and the Law Department, to devise ways and means for the disposition of this property.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Garland** presented

No. 2574.

Whereas, In the passage of the ordinance fixing the numbers and salaries of the employes in the City Service, over the veto of the Mayor, several changes were made in the number of employes and in the salaries paid, which became effective on January 28th, 1915; and

Whereas, But two working days elapse between the passage of the ordinance and the end of the month; and

Whereas, In the larger number of cases, it is necessary, in order to complete the closing up of the year's business, that the men should be retained until the end of the month, and in all cases the time given in which to notify those whose positions were abolished of their dismissal was too short; and

Whereas, It was the intention of Council to retain these men during the month of January, 1915; therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to issue, and the City Controller to countersign, warrants in payment of those employes whose positions were abolished and whose salaries were changed for the entire month of January, charging the same to the several items to which the same would have been chargeable in case such change should not have occurred.

Which was read.

Mr. E. S Morrow, City Controller, was given the privilege of the floor, and said:

"Mr. President and Gentlemen: By the passage of the ordinance fixing the number and salaries of the officers and employes of the City over the Mayor's veto the ordinance became effective at once. Therefore a number of men then in the employ of the City were dismissed and others had their salaries changed. I understood at the time these changes were made that Council had provided money to pay these employees in accordance with the old ordinance in force in 1914 and that the men therefore could be paid for the two working days which complete this month. I believe it is just and proper to pay them as some of them were out on the work and had no knowledge of the effect of the ordinance and could not be notified of their dismissal from the City service. In order to pay these City employees for these two working days it will be necessary to adopt the resolution which is presented to you under the Act of 1874 and which will require a two-thirds vote."

Mr. **Garland** moved.

That the resolution be referred to the Committee on Finance with instructions that said committee return the same to Council with an affirmative recommendation.

MOTIONS AND RESOLUTIONS.

Mr. **Kerr** presented

No. 2604. Whereas, The Mayor and the Council have recognized the necessity of raising Penn avenue and adjacent streets to a 33.3—9 grade as recommended by the Director of the Department of Public Works, so as to avoid the destructive floods which frequently visit this district of the City; and

Whereas, The Bond Issue passed by the Council and approved by the Mayor covering the cost of said improvement has become the subject of litigation in a case now pending in the courts to determine the Councilmanic borrowing power; and,

Whereas, No other funds are available at this time for the payment of the cost of this improvement; therefore, be it

Resolved, That the Penn Avenue Improvement Association submit to the Law Department of the City of Pittsburgh the waivers which they have already procured and arrange with the Law Department for an extension of said waivers or the procuring of such other waivers as may be acceptable to the Law Department.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed. (Mr. **Rauh** not voting).

Mr. **Woodburn** presented

No. 2605. Whereas, Under the present law the taxes must be paid in the months of March, April and May of each year, or otherwise become delinquent; and,

Whereas, Under the present practice the tax statements against any one person, include all the property belonging to such person in any ward, and it sometimes happens that an owner of several properties in the same ward is desirous of paying on some of the property and not on all the property in the said ward before the same becomes delinquent and it is believed to be advisable to permit of such payments hereafter; now, therefore, be it

Resolved, That the Mayor is hereby requested to see that provision is made hereafter through the proper departments that the owners of property in the City of Pittsburgh may be permitted to pay their taxes at any time whether current or delinquent upon one or more of the properties which they may own in any given ward of the City and that the City Treasurer be authorized and directed to give receipts for the specific properties in the given ward when the taxes thereon are paid.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

The **Chair** stated

That a list has been prepared and furnished each member of Council of the outstanding special committees of Council, and that he would request that these committees meet and report as soon as possible.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

MAYOR'S OFFICE.

Pittsburgh, Pa., February 8, 1915.

To the President and
Members of Council,
City of Pittsburgh.

Gentlemen:

I have seen by the public press that the Thaw residence at the corner of Third street and Penn avenue has been turned over to one of the charitable organizations of the City for the purpose of being turned into a lodging house to take care of those unfortunates who are not able at this time to take care of themselves. This is a humane proposition and a very worthy one.

In my inaugural address you will find the following plank:

"A glance at the records kept at the different police stations is all the evidence necessary to indicate that Pittsburgh must devise a more humane plan of caring for its so-called 'down-and out' class. If those who are in this class are to be helped to a higher plane more practical methods must be pursued than at present. The man who is out of work and without a home will not start out in the morning to battle with life for better things if he is compelled to start on an empty stomach and without knowing where he is going to sleep that night if he fails in his effort.

The present system makes the police station lodging houses for this class of unfortunates. I recommend that the executive and legislative branches of the government immediately begin a study which will bring about a solution of this problem and the establishment of a municipal lodging house. Many a man would be taken out of the 'down-and-out' class if he were given the proper start in his hunt for work with his body properly bathed and his stomach sufficiently fed. If he knew that in case of failure to find work on that particular day the prison doors were not staring him in the face his mind would be easier and filled with more determination in his search for employment."

Feeling that Council and the Mayor at this time could not have carried out my declarations, I would earnestly request your body to take up with the interested parties what I might term this substitute plan, believing the City should give what assistance it can. This is an obligation which those who are in better circumstances in life owe to the ones who need help.

I therefore ask for a conference with Council and the interested parties at Council's convenience.

Yours very truly,
JOSEPH G. ARMSTRONG,
Mayor.

MAYOR'S OFFICE.

Pittsburgh, Pa., February 8, 1915.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

There has been presented to the Mayor and the Council of the City of Pittsburgh a communication from the Executive Committee of the Voters' League, of this City, suggesting that new financial policy be adopted by the City.

Would state at this time that a policy such as indicated in their circular is what the administration has already had in mind, and is now working upon, and was indicated to your body in my letter of December 15th, 1914. In that letter I suggested a plan to take care of the shortage in collections and spread the same over a period of years. In making that suggestion I had in mind that a system should be inaugurated (and we have already started the same) whereby the fixed charges for years ahead should be kept before Council. These fixed charges and operating expenses would be before your body in such a way that revenues to be collected to offset same would show whether the City is in a position to make any extensive improvements, and if improvements were made what amount of increase in the tax levy it would make, not only for the year the improvement is made but also following it up from year to year. I felt that these matters should be taken into consideration together with all new problems that might present themselves which would obligate the City in the way of fixed charges, for the purpose of enabling the City to see just how far it could go in the matter of improvements and not allow itself to get into questionable financial troubles. Our Bureau of Costs has been working on this plan for some time. Just now they are engaged with work which is very essential for the purpose of putting into operation the collection of revenues and the following and checking up of delinquencies that might occur. Just as soon as this work is cleared away I will again put them to work on the new schedule, which, as stated above, we had already started. This plan will enable us to let Council know just exactly what additional tax will be necessary in order to make any new additions in the way of improvements that run into large amounts of money which they might have in mind.

While I feel grateful to know that outside organizations such as the Voters' League, which has given so much of its time to the study of our local civic problems, is willing to help, feeling that this would make the work much easier for those who are held responsible for same, I would suggest at this time that Council, if it has any set views or ideas on this matter, either collectively or individually, also present same to me and I will assure them that their views will be worked out to that point where it can be intelligently debated, and to all of us looking for results the best methods will be adopted.

Yours very truly,
JOSEPH G. ARMSTRONG,
Mayor.

Noes—Messrs.

English	Herron.

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen:—I would like to have this statement placed in the record. In my judgment this method of spending the City's money for this joint city and county building is wrong. It is my opinion that we should receive a certificate or a letter from the Building Commission, which is composed jointly of City and County officials, of all moneys to be expended on this joint building. In this particular case, a bill for $23,000 should have been presented by the architect to the Building Commission and then the Building Commission split that in two; one-half to be paid by the City and the other half to be paid by the County, which bill should have been properly endorsed and approved by the Commission or the proper officers. We are making a mistake by spending any money without a letter from the Commission as a matter of record. I am not opposing the payment of this $11,500 to the architect, but I am opposed to the manner of paying it without a certificate or letter from the Joint Building Commission. Therefore, I vote No."

Ayes—**6.** Noes—**2.**

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Mr **Kerr** presented from the Committee on Public Works, with an affirmative recommendation,

Mr. **English** presented

No. 2667. Whereas, The Council of Pittsburgh, together with His Honor, the Mayor, are interested in obtaining new State laws and amendments to present laws for the benefit of the citizens of Pittsburgh and t government thereof; and,

Whereas, It is desirable that there should be complete harmony regarding the proposed laws and amendments; therefore, be it

Resolved, That His Honor, the Mayor, be requested to call a conference at the earliest possible moment with the Council, City Solicitor and the City Controller, for the purpose of considering bills for the Legislature.

Which was read.

Mr. **English** moved

That the resolution be adopted.

Mr. **Woodburn** moved

Noes—Mr. English.

Ayes—7.

Noes—1.

So the motion prevailed.

Mr. **English** presented

No. 2668 Whereas, The City of Pittsburgh is entitled to free gas in the Diamond Market; and,

Whereas, The present fuel used in the boilers for steam heat for the building is coal; therefore, be it

Resolved, That His Honor, the Mayor, be requested to have the Director of the Department of Public Works change the heating boilers so that gas can be used as fuel; and, further, be it

Resolved, That His Honor, the Mayor, be requested to furnish to Council the cost of necessary machinery required to make electric current for all purposes in the Diamond Market using the free gas as fuel.

Which was read, and on motion of Mr. **English** was referred to the Committee on Public Works.

Mr. **Herron** presented

No. 2669. Resolved, That the Mayor be and he is hereby requested to instruct the heads of all departments of the City Government to refer all claims of city employees for lost time on account of injuries or sickness sustained in the performance of their duties as such city employees to the Department of Law for its opinion and approval before the same are presented to Council.

Which was read.

Mr. **Herron** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Woodburn** presented

No. 2670. Whereas, Representations have repeatedly been made to Council that the Police Courts of the City are not giving satisfactory service; therefore, be it

Resolved, That a committee consisting of three members of Council be appointed with instructions to investigate the present methods and work of these courts in this city, to ascertain what methods introduced in other cities might be desirable here and, in consultation with the City Solicitor, to devise and present to Council a plan for reorganizing or reconstituting these courts so as to secure such corrections or improvements as the committee may find to be needed, together with any ordinance or other legislation they may find necessary for carrying the same into effect.

Which was read.

Mr. **Woodburn** arose and said:

"Mr. President, I wish to make the motion that that resolution be adopted My reason for presenting it to Council is that the committee should be a special committee of Council rather than a subcommittee of one of the standing committees. I would also like to say that if this motion prevails, with no disrespect to the President, Pro tem., that the naming of the committee be withheld until the President of Council comes back, because Senator **Goehring** has had something to do with the preparation of this resolution, insofar as he recommended the mode of procedure in the matter, and that he be given the opportunity to choose the members of the special committee. I again move that the resolution be adopted."

Which motion was seconded by Mr. **Kerr.**

Mr. **Garland** arose and said:

"Mr. President, a communication came into Council from the Christian Social Service Union. Do I understand that this resolution is the child of the communication? Do I also understand that the purpose of the committee is to frame an ordinance changing the mode and form of the police courts, to fix the qualifications and duties of the police magistrates, and that nothing further will be done with regard to the charges already made against certain police magistrates?"

Mr. **Woodburn** arose and said:

"Mr. President, I understand by this resolution that a new proceeding will be started in regard to correcting the evils complained of in regard to the police court system, and that this resolution is introduced as a result of the communication addressed to Council by the Christian Social Service Union, and the said resolution meets the views of said association."

Mr. **Garland** arose and said:

"Mr. President, I want to say that I read in yesterday morning's paper that a reverend gentleman on the North Side said that the Council was lacking in courage, because it did not take up the original charges of the Christian Social Service Union. I want to say that that is a misstatement. There was no lack of courage on the part of Council. The union lacked courage. I want also to say that now these charges are withdrawn and this resolution supercedes the previous letters sent to Council by this organization. I want also to say that it is unfair to the present police magistrates to accuse them of misconduct in office without giving them a trial

"I want to again repeat that the lack of courage was on the part of the people representing the Christian Social Service Union in that they have refused to give us the names. With this information the Council could have gone after the parties accused.

"I have no objection to the investigation proposed, but I do object to any man or group of men attacking by inference or innuendo all the magistrates of the City when they claim to have evidence against but four out of seven police magistrates, and then refuse to name the four. It was a stigma put upon all the magistrates. It was a stab in the dark; it was unfair and un-American. I am glad to have the opportunity of saying a few words in this regard.

"If the persons representing the Christian Social Service Union would have brought charges against the police magistrates accused, I, as well as I believe the other eight members of Council, would have been glad to consider the charges and if they were found to be true the Council would have placed the blame where it belongs.

"Now, it seems, my friend, the Doctor, has brought in a communication, at least a communication from the Christian Social Service Union was presented by him, which was received and filed. That means that the charges against these police magistrates are gone forever and that this resolution is another way of getting at the complaint.

"I am in favor of reconstructing these courts if it is necessary to do it. If these charges were brought before Council and the names of the accused mentioned and the references these people say they have of official misconduct by the police magistrates, I, for one, would have been glad to go into a hearing. But I want to say that it is un-American and unfair to stab a man in the dark; it is and undecidely unfair for persons to accuse this Council of lacking courage when the information which Council should have had regarding the police court system was withheld. Since the days of Magna Charter 700 years ago this year, every man has had the right of trial by jury, and there are two sides to every question."

The **Chair** said:

"Gentlemen, the President of Council is out of the City and will not be back before the next meeting, where would the delay occur if this matter was referred to a committee, and if there is no objection it will be referred to committee."

Mr. **Woodburn** arose and said:

"Mr. President, by referring the resolution to a committee I admit there will be no delay, but what is the necessity? We should adopt it right here and the naming of the committee may be made upon the return of the President of Council.

"I want to say in reply to my colleague (Mr. Garland) that I think he is mistaken when he says that the Christian Social Service Union feared or refused to give names of the police magistrates accused. I never understood that they were disposed to make charges against any individual police magistrate. When this organization brought up the matter and recited the various occurrences which took place in the police courts they were simply reminding us of their opposition to the system under which the individual works rather than the individual's mistakes of service. You know and we all know that there is positively no ordinance governing the workings of the police courts and the only provision regarding the police magistrates is covered by the Act of Assembly. This Act, however, does not recite the duties and qualifications of the individuals holding the positions of police magistrates. The reason for presenting this resolution is for the purpose of preparing an ordinance for introduction into Council which will be the means of advising the individuals holding the position of police magistrates how to carry on that activity of the City. Let the past take care of itself and let us take up the future. This letter which Mr. **Garland** speaks of complains of the system rather than individual misconduct in office and that letter has been received and filed. Now the only proposition remaining is to provide by ordinance of Council for the police magistrates, without reference to their personality, ability or past or present, just what their duties should be. It is not to be retroactive.

"There were no individual charges made against any of the police magistrates, at least they were not publicly made; I have not heard of any. Reference was merely made to his official procedure, the manner of disposing of an activity in which he is left entirely to his own judgment. I do not blame him for acting upon his own conscientious convictions when left entirely to him. The proposition is to put this matter in the right shape."

Mr. **Garland** arose and said:

"Mr President, I want to say again I do not think it proper, whether past, present or future, for any one to criticise this Council for not performing its duties. We had no names and therefore could not properly go into a hearing. I want to be put on record as saying that it was unfair and un-American to charge Council of lacking in its duty. I also want to say that it is a stigma on the seven men holding the positions of police magistrates."

And the question recurring, "Shall the resolution be adopted?"

The motion prevailed.

And there being no further business before the meeting the **Chair** declared Council adjourned.

MOTIONS AND RESOLUTIONS.

Mr. **English** presented

No. 2700. Whereas, Under the franchise granted to various individuals and corporations to furnish and sell natural gas to the people of Pittsburgh, the consideration given to the City for the privilege of using the streets was free gas for certain city buildings; and

Whereas, It is desirable that the City should know the extent and value of this consideration; therefore, be it

Resolved, That a committee of three be appointed to investigate this matter of free gas to which the City is entitled; and, be it further

Resolved, That His Honor, the Mayor, and the City Controller, be requested to co-operate with Council in this matter.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Mr. **Garland** arose and said:

"Mr. President and Gentlemen of Council·

"It is. I take it. well known to the members of this Council that the matter of free gas, which under the contract is to be furnished certain of the buildings belonging to the City, has been a subject for discussion in practically every Council since 1885.

"It has invariably been brought up during the sessions of the Appropriation Committee, and in December, 1913 the subject matter was particularly acted upon when a special committee of three was appointed to investigate.

"That committee's report resulted in a resolution of Council, which passed unanimously on December 30, 1913, and which positively prohibited the payment of all bills for gas until disputes were settled, and also directed that litigation be instituted, if necessary, to protect the City's rights.

"This resolution is still in effect, not having been repealed, and if bills were paid, such action was against the expressed desire of Council.

"As I understand it, the suit is now pending, and should come to trial in a couple of months.

"Now, Mr. Chairman, on December 30th, 1913, Dr. **Kerr** presented the following resolution, which is still in force (this is from the printed record):

"'Bill No. 4833. Resolved, That the Mayor and the City Controller shall be and they are hereby directed to withhold warrants for gas bills rendered the City until the dispute between the City and the various gas companies supplying gas has been adjusted; and, be it further

"'Resolved, That the City Solicitor be and he is hereby directed to investigate the question of the gas supply to the City and institute such litigation as in his opinion may be necessary to protect the City's rights.'

"Now, as I understand it, this resolution was carried out in this way: The Law Department did institute suits and got decisions in some cases and that a suit now pending will be settled within 6 or 8 weeks. This question goes back for a period of 30 years. It is a question of whether under the old ordinances the gas to be furnished free to the City can be used for other purposes than for fuel, such as to generate electricity for light and power purposes. By the adoption of Mr. **English's** resolution we are merely repeating history. His resolution asks Council to do something that was done by Council a year or more ago. A committee of three was appointed to investigate this matter, of which Dr. **Kerr** was chairman, and the resolution he presented to Council was practically the report of the committee—in that it requested the Mayor and the Controller to not pay any gas bills until the matter was settled, and directed the Law Department to go ahead with the suits in court.

"Therefore, Mr. Chairman, not in opposition to Mr. **English's** resolution, but for information of Council, we should lay this resolution on the table until we get a report from the Mayor, the City Controller and City Solicitor on this gas question."

Mr. **English** arose and said:

"Mr. President and Gentlemen: My object in introducing the present resolution was to bring additional help into this badly mixed situation. I am aware that the Council passed a resolution on December 30th, 1913, which was in the closing week of the former administration and naturally that administration did not have an opportunity to follow Council's instructions regarding the payment of gas bills. The new administration just coming into office within one week after the passage of the resolution was so busy getting started that it no doubt overlooked the matter of payment of bills.

"Regarding the litigation which the Law Department was directed to take up, I can say positively that they have not made any move whatever under this resolution. They did, however, bring a case to court a couple of years ago under Mayor Magee in behalf of the municipal hospital contract for gas, and this case was appealed and then sent back by the higher court. The new trial will probably take place, as explained by the Law Department some time this year.

"My object in getting into this question at this time is for the purpose of getting immediately the free gas to which the City is entitled in the Diamond Market; inasmuch as the franchise ordinances granted to individuals and corporations distinctly provide that the City Markets shall be given free gas for fuel. During the discussion last Wednesday (February 17th), while we were debating this matter in Public Works Committee, the Mayor and the Director of the Department of Supplies were about to award a contract for the purchase of natural gas for the Diamond Market; but owing to my having opened up the question at this time that contract has been held up. Even today the Council has passed an ordinance providing for a three-year contract for electric light and electric current for City buildings, and unless we move promptly in this matter, to my mind, we will be deprived of the opportunity of getting the benefit of free gas as fuel for generating electric current for the new Diamond Market.

"I assure you that I have no desire to attack this administration, the Law Department, the gas companies or any one else, but I do have a sincere purpose in endeavoring to secure for the City the valuable consideration which was passed in the franchise ordinances given to the gas companies. To my mind the proper thing is to pass this resolution and then if any member of Council wishes to get a report from the Law Department as to whether we are paying bills or what litigation has been taken, that is another question entirely. I do not see any wrong in passing this resolution, as it is a separate proposition inasmuch as the Diamond Market question is immediately before us and this will help to solve it."

Mr. **Dillinger** arose and said:

"Mr. President and Gentlemen: The City Solicitor told me that he instituted a suit, in accordance with the motion of Dr. **Kerr** adopted December 30th, 1913, and on account of a technicality the Supreme Court has not yet rendered a decision. The City Solicitor, however, expects that a decision will be rendered in six weeks.

"This is not a new thing for some members of Council. It is practically the same resolution as presented by Dr. **Kerr,** as chairman of the committee of three to investigate this matter. The resolution was the report of the special committee of three, and the City Solicitor is now acting on that resolution. I cannot say anything further, except that we should get a report on what action has been taken and why the gas bills were paid."

Mr. **Dillinger** moved

That the resolution be laid on the table until Council receives a report from the Mayor and the Controller as to what attention has been paid to the resolution adopted by Council on December 30th, 1913, and also a report from the City Solicitor as to what action has been taken in the matter.

Mr. **Woodburn** arose and said,

"Mr. President. I second the motion to lay the resolution on the table, provided that Mr. **Garland,** or some one else will make a motion asking the Mayor, the Controller and the Law Department to report why the orders of Council have not been obeyed in respect to free gas. As to the remarks made that the resolution of Dr. **Kerr** was pased during the last week of the previous administration, I want to say that the law exists and it should be applicable for all times under any administration."

And the question recurring on the motion to lay the resolution on the table.

The motion prevailed.

Mr. **Garland** presented

No. 2701. Whereas, At a meeting of Council held December 30th, 1913, the following resolution was read and adopted:

Bill No. 4833.

Resolved, That the Mayor and the City Controller shall be and they are hereby directed to withhold warrants for gas bills rendered the City until the dispute between the City and the various gas companies supplying gas has been adjusted, and, be it further,

Resolved, That the City Solicitor be and he is hereby directed to investigate the question of the gas supply to the City and institute such litigation as in his opinion may be necessary to protect the City's rights, therefore, be it

Resolved, That this Council ask the Mayor and the Controller what attention has been paid to the resolution in question; also that this Council ask the City Solicitor what action has been taken in accordance with the resolution passed; these reports to be made within one week.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Dillinger** presented

No. 2702. Whereas, The rates charged consumers in the City of Pittsburgh for gas and electricity furnished by the several public service corporations are exorbitant and excessive; now, therefore, be it, Resolved, That the Council, the Mayor, and the Department of the City immediately take the necessary steps before the Public Service Commission of the Commonwealth of Pennsylvania to ascertain and determine the reasonableness of the rates charged to consumers in the City of Pittsburgh for gas and electricity furnished by the several public service corporations.

Which was read.

Mr. **Dillinger** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2703. Resolved, That the City Controller be requested to furnish Council with a report as to whether the financial condition of the City will permit the awarding of contracts for the street and sewer improvement which have been authorized by Council, and if so, to what extent.

Which was read.

Mr. **Dillinger** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Woodburn** presented

No. 2704. Resolved, That the Director of the Department of Public Works be requested to furnish Council at its next meeting a list of assessment street and sewer improvements authorized by Council and upon which no contracts have been awarded, said list to be arranged according to dates of passage by Council and to contain name and character of improvement, total estimated cost of the same and the respective amounts to be paid by the City and the property in each case, and said Director is also requested to furnish a like list of street and sewer improvements which Council proposes to improve by bond issue.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

The **Chair** presented

No. 2705

Whereas, A certain ordinance entitled, "An Ordinance authorizing the settlement of the equity suit of the City of Pittsburgh against the Oliver Iron & Steel Company at No. 719 October Term, 1913, in the Court of Common Pleas of Allegheny County, involving the right and title of the City to certain wharf lands along the Monongahela river in the Seventeenth ward, Pittsburgh, setting forth the terms and conditions of said settlement, and authorizing the proper officers of the City to execute and deliver the agreements pertaining thereto," was passed on the 30th day of January, 1915, and approved by the Mayor on the 3rd day of January, 1915, and

Whereas, The last point in the description of the dividing line between the property of the Oliver Iron & Steel Company and the property of the City of Pittsburgh is therein designed as follows: "at a distance of 510 59 feet southerly from the southerly building line of Muriel street," and

Whereas, Said point is in fact "at a distance of 510.59 feet northerly from the northerly line of Muriel street," the words "northerly" having been, by clerical error, inadvertently changed to "southerly";

Resolved, That the Clerk of Council be and is hereby authorized and directed to corect said clerical error of record, and the Mayor and Director of the Department of Public Works are authorized and empowered to execute the Agreement in said ordinance recited with said correction.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2706. Resolved, That the City Treasurer be and he is hereby requested to report to Council as to whether water rents due from the Board of Public Education, churches and hospitals, etc., are being paid; and if not, the extent of delinquency and what, if any, steps are being taken to enforce collection.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2707. Whereas, Through the generosity of Andrew Carnegie, Esq., there has been completed a valuable addition to the Carnegie Library Building of the North Side; and,

Whereas, Said addition was suggested by W. G. Wilkins, Esq., a former member of this Council, who not only while a member of this Body, but since his retirement from the same, has taken an active interest in the said building and as a Civil Engineer and Architect given the City without compensation his valuable services; now, therefore, in recognition of the same, be it

Resolved, That the thanks of this Council be extended to W. G. Wilkins, Esq., for his public spirited interest and services rendered in connection with the building of the addition to the Carnegie Library Building of the North Side.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Mr. **Garland** moved

That the resolution be adopted by a rising vote.

The **Chair** arose and said:

"I want to say that it is only proper we take this action. The matter of the addition to the North Side Library building was suggested by Mr. **Wilkins.** He not only made the suggestion and enlisted the assistance of two other representatives of Allegheny City. but made a trip to New York City at his own expense and made a personal appeal to Mr. Carnegie. He got Mr Carnegie interested and he named the sum of $150,000, which Mr. Carnegie gladly donated to the City of Pittsburgh for this purpose. Mr. **Wilkins**, while a member of Council and the Committee on Parks and Libraries, took a great interest in this matter, and even after he had severed his connection with the City he continued to give his services during the construction of the building. Therefore, I think the City of Pittsburgh owes Mr. **Wilkins** a vote of thanks for the services rendered in the construction of this addition to the Allegheny Carnegie Free Library Building."

Mr. **Woodburn** arose and said:

"Mr. President, and Gentlemen: I heartily approve of all the **Chair** has said. Of course, Mr. **Wilkins** as a member of the building committee will have his name engraved on the bronze table to be placed in the building; nevertheless, he is deserving of the general recognition this resolution will give, as he has devoted his time, whether sick or well, to this cause, absolutely without expectation or anticipation of thanks."

And the question recurring on the adoption of the resolution.

The motion prevailed by a unanimous rising vote.

The **Chair** at this time announced the appointment of Messrs. **Woodburn, Herron** and **Dillinger** as members of the special committee under the provisions of Bill No. 2670, adopted at a meeting of Council held February 16th. 1915, providing for the appointment of a committee of three members of Council to investigate the present methods and work of the police courts, etc.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

MAYOR'S OFFICE.

Pittsburgh, March 1st, 1915.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

Referring to your bill No. 2573 in which you ask for a conference with the Mayor and the Law Department relative to disposition of property: On account of not being able to give title in a great percentage of these cases I have had the Law Department prepare a bill correcting same and it will be impossible to go any further in this matter until such time as we have the bill passed and signed by the Governor. We have no doubt this will be done as it interferes with no other section of the state.

Yours very truly,

JOS. G. ARMSTRONG,
Mayor.

Which was read, received and filed.

Also

No. 2763

MAYOR'S OFFICE.

Pittsburgh, March 1, 1915.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

I am in receipt of your Bill No. 2701 in which you call my attention to Bill No. 4833 which passed Council December 30, 1913. Bill No. 4833 was passed prior to my time in office and a copy of same was not left on file in the office, and I was not aware of the fact that such a resolution was in existence. However, the question of the amount of free gas to which the City is entitled by old contracts, agreements and grants of right of way by the City to these different corporations is a matter which I have had in mind for some time and have had the same in the hands of the Law Department. This question had been raised during Mayor Magee's administration but for some reason or other had not been worked to a final conclusion. However, as stated above, I have taken the matter up with City Solicitor O'Brien and he notifies me their cases are now pending in court and the same will be disposed of as speedily as possible. No doubt we will have a decision in the very near future.

Yours very truly,

JOS. G. ARMSTRONG,
Mayor.

Which was read, received and filed.

Also

No. 2764

DEPARTMENT OF LAW.

Pittsburgh, February 26th, 1915.

To the Council,
Municipal Bldg., City.

Gentlemen:

Replying to your request for report on Bill No. 2701, concerning litigation relative to City gas supply, I beg to say:

That I am prepared to fully report to Council on this matter personally at any time, but do not deem it advisable to state the whole situation in written report.

Respectfully,
CHARLES A. O'BRIEN,
City Solicitor.

Which was read, received and filed.

Also

No. 2765

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, March 2nd, 1915.

To the Council.

Gentlemen:

In reply to your Resolution No. 2701, permit me to say that the failure to comply with Resolution No. 4833, directing the withholding warrants in payment of gas bills until the dispute between the gas companies and the City was adjusted rests entirely with this department. On receipt of the Resolution on December 31, 1913, I immediately ordered that no vouchers for gas furnished the City should be paid until further orders. Afterwards, in May, just prior to leaving the City, finding that no adjustment could be made out of Court, and knowing from experience that the case would not be decided under one or two years, that the City was liable for all gas used for illuminating purposes and for all gas used for fuel where contracts had been made in compliance with ordinances passed by your honorable body, I revoked the order, and believe I was right in so doing.

If you desire a reinforcement of this order and will assume all responsibility for its enforcement (the resolution as it stands would include bills of all gas companies now acting under contracts) I will agree to reissue the order.

Respectfully,
E. S. MORROW,
City Controller.

Which was read, received and filed.

Also

No. 2766

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, March 2nd, 1915.

To the Council.

Gentlemen:

In reply to the request for information contained in your Resolution No. 2703, I beg leave to say that until the pending suit of Schuldice vs. Pittsburgh involving various questions of law relating to debt limit of the City is determined, it will be impossible to render you a statement, even approximately correct as to the present debt incurring capacity of the city without the assent of the electors. The suit involves a number of items of very considerable amount and the debt limit will be affected according to the view that the Court takes as to these questions. This case has been argued before the Referee, but has not as yet been decided by him. As soon as this is done, which will be probably within a period of two weeks, the case will go to the Court of Common Pleas on exceptions, and from there to the Supreme Court. Counsel for both sides intend to ask for an early hearing of this case in the Supreme Court, and if this is granted, which probably will be the case, I am given to understand that the case will be argued in either April or May, and that we may expect a final decision of the same probably no later than July of this year.

The contracts authorized also in some instances will cause considerable property damage and I cannot tell without estimates furnished by the Department of Public Works how much this will be, nor until that case is decided whether I have to include them as debts in determining the debt limit of the City.

Respectfully,
E. S. MORROW,
City Controller.

Which was read and referred to the Committee on Finance.

MOTIONS AND RESOLUTIONS.

Mr. Garland presented

No. 2774.

Whereas, This Council being a representative body interested in whatever pertains to the welfare of the people of our City, especially at the present time in the matter of food stuffs and the cost of living, we therefore express our hearty approval of the action of the Chamber of Commerce in adopting the following resolution, and we tender our strong and earnest support of the same:

"Whereas, The Carriers in Official Classification Territory have filed tariffs advancing the rates and minimum weights on live stock; carloads, all the way from 19 per cent to 47 per cent above the recently allowed 5 per cent advance; and

Whereas, This advance in rates will work discrimination against Pittsburgh in that the cost of live stock on the hoof is increased, the selling price of dressed meat is also increased and will not affect Western dressed meat shippers in that the inbound rate on live stock on the hoof is not increased; and,

Whereas, This advance in rates will be added to the cost of dressed meat which burden will fall upon the consumer and tend to increase the cost of living to a considerable extent; now, therefore, be it

Resolved, That the Chamber of Commerce of Pittsburgh is opposed to this radical advance in the rates for the movement of one of the necessities of life and that we voice this sentiment by a petition to the Interstate Commerce Commission for a suspension of the effective date of all tariffs containing advances in rates and, minimum weights on live stock pending an investigation as to their reasonableness."

No. 2776. Whereas, An ordinance authorizing the purchase of certain real estate in the Nineteenth ward of the City of Pittsburgh, being the property of Theo Lau, for playground purposes, was passed by Council September 15th, and approved by the Mayor September 18th, 1913; and,

Whereas, This property has never been acquired by the City in accordance with the provisions of the above cited ordinance; therefore, be it

Resolved, That the City Solicitor be requested to make a report to the Council as to what has been done by the Law Department looking to the acquirement of the property for the people of that district either by direct purchase, or by condemnation proceedings.

Which was read

Mr. Kerr moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2777. Whereas, In a decision handed down by the Common Pleas Court during the past week, the Bureau of Public Morals Act was, in the opinion of the Court, unconstitutional; and,

Whereas, The City Solicitor has intimated that he will take no appeal; and,

Whereas, There is in the custody of said Bureau books, documents and other papers and furniture which should be in the possession of the City.

Resolved, That the Mayor shall be and he is hereby requested to direct the Director of the Department of Public Safety to take possession of all such books, documents, papers and furniture as is now in the custody of the Bureau of Public Morals.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Mr. **Kerr** arose and said:

"Mr. President and Gentlemen: I want to say that this resolution is not intended as a reflection on the Bureau of Public Morals. The purpose of the resolution is to protect the information which this Bureau has collected. I take it that there is some information acquired or collected by this Bureau which can be turned to very bad account, and it should be, as I take it, in the hands of a legally constituted representative of the City, and not in the hands of some one not connected with the City in any capacity whatever. If the opinion rendered by the Court is correct, then those who have this matter in charge at this time are not legally constituted agents of this municipality and have no rights to the documents, etc. The purpose of the resolution is to request the Mayor to see that these documents, papers, evidence and furniture are turned over to the legally constituted authorities of the City of Pittsburgh so that they may be properly safeguarded."

Mr. **Dillinger** arose and said:

"Mr. President and Gentlemen: I want to say that if the Bureau of Public Morals is found to be unconstitutional, it might be argued that whatever information it had did not belong to the City of Pittsburgh. The Bureau could not become an unconstitutional body until a formal Court decree had been entered, and the Bureau still has ten days within which to take exceptions or file an answer. I want to say further that the information in the possession of the Bureau, which the gentleman says might be used to a disadvantage, was collected by members of the Bureau and by sworn officers of the City of Pittsburgh. The Bureau up to the present time is a Bureau in the Department of Public Safety, and a meeting has been called for Thursday afternoon.

"I want to say further that it is not within the jurisdiction of this Council to dictate to the Bureau of Public Morals what it should do with its office equipment and documents. The members of the Bureau are persons of honor, and I am confident that when the proper time comes the books, papers, evidence and furniture in their possession, which some people are very much interested in (I don't blame them), will be turned over to the Director of the Department of Public Safety. I do not think the Council has any jurisdiction in this matter."

Mr. **Dillinger** moved

That the resolution be laid on the table.

Upon which motion he demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger	Hetzel
Garland	Rauh
Goehring (Pres't.)	

Noes—Messrs.

English	Kerr
Herron	Woodburn

When the name of Mr. **Goehring** (President) was called, he arose and said:

"Gentlemen, I vote aye with the understanding that the matter be referred to the City Solicitor for an opinion as to who is entitled to the custody of the books, papers, evidence and furniture of the Bureau of Public Morals."

Ayes—**5.**
Noes—**4.**

And a majority of the votes of Council being in the affirmative, the motion prevailed.

The **Chair** presented

No. 2778. Whereas, There are certain important questions relating to the administration of the City affairs, which can only be correctly solved by investigation and study. In the preparing of the annual budget some of these questions are brought to the attention of Council, but for lack of time are passed only to re-appear at the next budget making; and

Whereas, It is desirable that not only these, but other questions of the same character which arise from time to time during the year, should receive prompt consideration and action; and

Whereas, It is believed that this can best be done by small Councilmanic committees acting in conjunction with the Mayor and such heads of the City departments as may be specially interested in the matters under consideration; now, therefore, be it

Resolved, That special committees of three members each be appointed to act in conjunction with His Honor, the Mayor, to investigate and study, and to report to Council, their conclusions upon the following questions:

1st. The consideration of the suggestion contained in communication of the Voters' League to the Mayor and Council regarding the City adopting a financial program in the making of municipal improvements.

2nd. The consideration of the creation of a Bureau of Public Welfare to take over activities now conducted by commissions and organizations to which the City is making appropriations and grants.

3rd. The adoption of a salary standardization of grades and rates.

4th. Municipal pensions or insurance of firemen, police and city employees generally.

5th. The two platoon system for the fire department and instruction schooling for firemen and police.

6th. Regulation of street traffic, parking of automobiles, etc.

7th. Regulation of stands and rental in city markets and revising of market rules.

8th. Consolidation of machine shops in the Bureau of Fire and the reduction of engine houses due to motorization.

Which was read.

Mr. **English moved.**

The adoption of the resolution.

Which motion prevailed.

The **Chair** presented

No. 2779.

Whereas, Council believing that the existing laws, which forbid donations of money to corporations or individuals for other than municipal purposes, to be a wise safeguard in the interest of the taxpayer, it, therefore, expresses its disapproval of any legislation that will enlarge the power of the City in that direction as opening the door to improvement expenditure of the City funds; now, therefore, be it

Resolved, By the Council, that it expresses its disapproval of such legislation and requests our representatives at Harrisburg, and His Excellency, the Governor, to negative such legislation.

Which was read.

The **Chair** arose and said:

"Gentlemen: The purpose of this resolution is to request the members of the Legislature and His Excellency, the Governor, to take adverse action on any legislation looking towards the City of Pittsburgh making donations to institutions other than for City purposes. I do not think it is proper for the City to appropriate or donate for any institution other than those conducted by the City. The members of Council will remember that in the year 1913 a proposition was before this body for its endorsement, which provided that the City should donate money to estimable institutions of the City. The Council at that time took adverse action on the proposition because it did not think the City should open its doors for such purposes. I believe it is unfair for the City to be requested to make donations or grants to institutions other than for City purposes."

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **English** called up

Bill No. 2700.

Whereas, Under the franchises granted to various individuals and corporations to furnish and sell natural gas to the people of Pittsburgh, the consideration given to the City for the privilege of using the streets was free gas for certain City buildings; and

Whereas, It is desirable that the City should know the extent and value of this consideration; therefore, be it

Resolved, That a committee of three be appointed to investigate this matter of free gas to which the City is entitled; and, be it further

Resolved, That His Honor, the Mayor, and the City Controller, be requested to co-operate with Council in this matter.

In Council, February 23rd, 1915, read and laid on the table pending reports.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Herron** moved

That the following members be excused for absence from Council and committee meetings:

Mr. **Dillinger** on January 5th, 26th, 27th and 30th, and on February 2nd, 3rd, 9th and 10th, 1915.

President **Goehring** on February 16th and 17th, 1915.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

No. 2809.

CIVIC CLUB OF ALLEGHENY COUNTY.

Pittsburgh, March 9th, 1915.

To City Council of Pittsburgh,
Municipal Hall,
Pittsburgh, Pa.

Gentlemen:

The Municipal Art Committee of the Civic Club wishes to respectfully call your attention to its communication to you under date of February 8th, 1915, and to repeat its protest against the erection of a market shed on the Monongahela Wharf. As stated before, this committee feels that the City should not proceed with this work without a preliminary comprehensive survey and study of the problem of municipal market facilities.

In the absence of such far-sighted preparation by the City, this committee feels that its protest against the use of the water fronts for this purpose is a logical one, and most earnestly requests that this project be abandoned until a comprehensive plan of development of market facilities and of water front wharf development shall have been developed and officially adopted.

A proper development cannot be insured and may very easily be made impossible if the City carries out the policy of making use of river front land from time to time to accommodate occasional or permanent needs which have not been intelligently planned for in the beginning.

We, therefore, recommend to your serious consideration that the study of the problems of market facilities and water front development be undertaken, with the co-operation of experts in these municipal problems, and that no structure on the wharf be erected until such studies shall have been made and adequate plans officially adopted.

Very truly yours,

WILLIAM BOYD, JR.,
Chairman of Municipal
Art Committee.
H. M. DERMITT,
Secretary.

MAYOR'S OFFICE.

Pittsburgh, March 5, 1915.

To the President and

Members of City Council,

City of Pittsburgh.

Gentlemen:

Enclosed herewith is a communication from Director Edwards of the Department of Public Health with reference to conditions at the Municipal Hospital. I feel that this is a matter which ought to be given the most serious and immediate thought, and would ask that Council appoint a committee, preferably the gentlemen who are physicians, to look into this matter and ascertain whether the complaints of the Director are such that immediate help is needed at that institution. I am bringing this matter to your attention due to the fact that we had three very bad cases of itch which were impossible to get into any hospital in the city. The sufferers were in terrible agony for a year or more and they could no longer be kept at home. It became necessary to isolate them from the other members of their families. You can therefore see to what extent the City had to go to take care of them by the statement in the Director's letter and if it is possible to give relief to such cases as this within a reasonable appropriation I feel it should be done, and if the small amount mentioned by the Director will do it I believe it could be accomplished by taking it from the Contingent Fund.

Yours very truly,

JOS. G. ARMSTRONG,
Mayor.

Accompanied by letter from Dr. J. F. Edwards, Director of the Department of Public Health, asking for the enlargement of the Municipal Hospital to take care of infectious diseases, such as the itch, etc., which must be isolated from other patients, in the hospital.

Which was read and referred to the Committee on Health and Sanitation.

MAYOR'S OFFICE.

Pittsburgh, March 5, 1915.

To the President and

Members of City Council,

City of Pittsburgh.

Gentlemen:

I am forwarding you herewith a communication from Mr. A. R. Pardington, Vice President of the Lincoln Highway Association in which they express appreciation to City officials for action in connection with The Lincoln Highway.

Yours very truly,

JOS. G. ARMSTRONG,
Mayor.

THE LINCOLN HIGHWAY COMMISSION.

Detroit, Mich., March 4th, 1915.

Hon. Jos. G. Armstrong,
The Mayor,
Pittsburgh, Penna.

Dear Sir:

There has just been received in this office a copy of Bill No. 62, having to do with the proper marking and designation of certain streets through your city and across Allegheny county which are coincident with the popularly known Lincoln Highway.

This Association has had some correspondence with Mr. Robert Swan, the Director of Public Works, which has been extremely gratifying and indicates that Pittsburgh is alive to the many possibilities of co-operating in the establishment of this great Memorial Highway.

I am directed by our President to express to you, on behalf of our Directors, their appreciation and to ask that this be passed on to the members of your City Council.

Very truly yours,
A. R. PARDINGTON,
Vice President.

Which was read, received and filed.

No. 2817.

MAYOR'S OFFICE.

Pittsburgh, March 8, 1915.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

In reply to Bill No. 2668, whereby Council passed a resolution requesting the Mayor and the Director of the Department of Public Works to change the heating of boilers in the new market house in the Diamond Market so that gas can be used for fuel instead of coal; would state that for all new boilers installed in the new market house the fuel provided for is gas instead of coal.

The cost of installing the necessary engine and generator to make electricity for the Pittsburgh Market, including in the estimate enough electricity to operate the elevators and light the entire market, including stall lights, the cost of installation will be approximately $20,000.00.

The cost of operation will be very little, as under the opinion of the City Solicitor, which I understand was received Saturday, the City is entitled to free gas. The engineer running the brine pump can also operate the electric plant with the assistance of perhaps one man to take care of the lamps.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

Which was read.

Mr. **English** moved

That the communication be referred to the special committee of Council to investigate the matter of free gas for the City of Pittsburgh, consisting of Messrs. **English, Garland** and **Dillinger.**

Which motion prevailed.

CITY TREASURER'S OFFICE.

Pittsburgh, Pa., March 9, 1915.

To City Council,
Pittsburgh, Pa.

Gentlemen:

In reply to Resolution, Bill 2706, requesting the City Treasurer to report to Council as to whether water rents due from the Board of Public Education, churches, hospitals, etc., are being paid. I beg to say that I have compiled and transmitted to the Law Department for collection, a statement of all delinquent water rents due from the above mentioned institutions, and requested speedy action thereon.

Some churches and hospitals have paid water rents, but there remains a total sum of about eighty thousand dollars ($80,000) still due and owing and included in the said statement for collection.

Respectfully,
H. M. LANDIS,
City Treasurer.

Which was read and referred to the Committee on Finance.

When the name of Mr. **Dillinger** was called, he arose and said:

"Mr. President and Gentlemen: I want to say that this ordinance does not create a new position, which will be a burden on the taxpayers. No new money other than that already appropriated in the budget is to be used. This money will be transferred from one code account in the Bureau of Public Morals to another code account in the Department of Public Safety. I also wish to call your attention to the fact that we appropriated $3000, a year for the salary of the Superintendent of the Bureau of Public Morals and the salary asked for in this ordinance is $1,000 less. The reason for fixing the salary at $2,000 is that the position should be on the same salary basis as that of the police commissioners. If the right man is appointed in the position it should be worth $10,000 to the City of Pittsburgh. The Director of the Department of Public Safety came before Council and requested that he be given 101 additional policemen, but his request was refused. We know that we have not enough police officers to properly man the beats and guard the morals of the City. More effective work can be done by one who is thoroughly acquainted with this vice problem, and it is hoped that the right man will be given the position. I want to say further that the taxpayers of Pittsburgh who have the best interest of the City at heart desire to see Pittsburgh clean and kept clean, and those who know of the effective work done by the Bureau of Public Morals will not object to $2,000 being paid for a special investigator. I therefore want to be recorded as voting "YES."

When the name of Mr. **English** was called he arose and said:

"Mr. President and Gentlemen: In my opinion a position of this kind is unnecessary at this time, in view of the fact that we have high priced officials charged with the handling of the Department of Public Safety. If it were possible to continue the Morals Bureau of seven members and allow them to continue their work under the nominal supervision of the Director of the Department of Public Safety, it would be perfectly proper to transfer the whole bureau and its employees into the Department of Public Safety and continue the work as heretofore; but the court having decided that the Morals Bureau must be abandoned and the Bureau itself has given up the work, it seems to me the passage of this ordinance, attaching a special investigator, will only divide the responsibility and no good result can be had.

"A recent editorial in The Post expresses my views exactly on this proposition, and with your permission I will read it:

"Let every member of the force know that he must make arrests for any violation of law he may discover without waiting for the word of a special investigator. Keep the police under one head and hold each responsible for keeping his beat clean instead of furnishing him with the excuse that he thought a special officer was supposed to do certain things. Let each know that he has nothing to fear from doing his duty.

"Give the police the same free hand for dealing with vice that they have in fighting the sale of habit-forming drugs, and we will hear of their breaking up its 'gangs' in the same way.

"It seems that this work could be performed by the Civilian Aide, whose salary is $4,500 per year. When you consider that in addition to the Civilian Aide we have a Superintendent of Police at $4,000 per year, and a Director of the Department of Public Safety at $8,000 per year, certainly we are paying enough money to receive the services of high class, skilled men. To my mind it is a mistake to attempt to interfere with the police department. The Department of Public Safety is supposed to be able, and it certainly costs the City enough money, to expect that the entire matter will be properly handled by these high priced officials.

"Please do not misunderstand me in this matter. I am not opposed to the Morals Bureau, as I favor the continuance of this bureau, but think the entire bureau and its work could be placed under the Director of the Department of Public Safety and the work continued as heretofore; but since this cannot be done I do not see any necessity for creating an additional position. I therefore vote NO.

Mr. **Herron** arose and said:

"Mr. President and Gentlemen: I try to be consistent, and said time and time again that there was necessity for the creation of the Bureau of Information and Complaints; and that there was no necessity for the Civilian Aide in the Safety Department, and I for one do not propose to create positions until I know there is an absolute demand for it. The position of Special Investigator in the Safety Department is not desired by the head of the Department, and until I am reasonably sure that the head of the Department wants the position created, and will appoint a man who has the qualifications to fill the position and is satisfactory to every one concerned, not until then will I consent to such a position being created.

"The court has decided that the question of protecting the morals of the City is a police function, and therefore should be handled by the Department of Public Safety, which is the proper department of the City to watch over the morals of the City. I have confidence in the Department of Public Safety and feel that this department can satisfactorily take care of this question. I do not feel like casting a reflection upon the department by putting an additional position in the department when I believe the position is not needed. It would look as though the department was not able to cope with the situation. I cannot see any harm in laying this ordinance on the table for a week until the Council could have a conference with the Mayor and the Director of the Department as to whether they need the assistance of this special investigator. Unless the position is desired by both the Mayor and the Director I consider it would be an effront of their integrity to carry on the work of the department properly."

When the name of Mr. **Kerr** was called, he arose and said:

"Mr. President and Gentlemen: I think at a time when the taxpayers of the City of Pittsburgh are feeling the tax burden more than at any other time in the history of the City, it is certainly ill-advised to create new positions. It is but a few weeks since the closing of the budget, and if this position were necessary it should have been set forth at that time. I am very much opposed to re-opening the budget for the purpose of creating any new positions or to increase any salary. But, no doubt, this ordinance was brought about the decision rendered by the court a short time ago; and it is unfortunate that the court decided that the Morals Bureau was operating without authority of law. Yet I am unable to see how the creation of another position in the Department of Public Safety is going to carry on the work so well done by the Bureau of Public Morals.

"The Police Department, I take it, is well manned, and should therefore be able to look after the morals of the City, particularly if each man in the department does his duty. The administration has not asked for this position, to my knowledge, but has promised to carry on the work of the Morals Bureau with as much, if not more, vigilance than they did. The Mayor in public statements published in the newspapers has promised the people of Pittsburgh the moral conditions of the City would be even better after the abolition of the Morals Bureau than before. Now let us take him at his word.

"The Council, to my knowledge, has never passed an ordinance creating a position without a request either from the Mayor or the Department in which the position is desired; and at this time I cannot see why we should create a position, paying the salary of $2,000, that will add, although small, another burden on the taxpayers. If we begin in March to create new positions at $2,000 per annum, by the time the budget making season comes around the deficit will be larger than that of last year. Now is the time to begin to watch the treasury and not after the taxpayers' money has been fritted away. We are too apt to reward individuals without due regard to the interest of the taxpayer. I therefore vote NO."

When the name of Mr. **English** was called he arose and said:

"Mr. President and Gentlemen: I regret very much that I cannot vote for this particular ordinance owing to the fact that I am not satisfied with the plans for the proposed farmers market. With the market I am in hearty sympathy and think we should have it, but I think in building the structure we should build it of such a character as would make it suitable for other uses when the farmers are not using the market. As I understand it, the farmers market is intended to provide shelter for several hundred persons who congregate on the wharf in the early hours of the morning two or three times each week. During the balance of the day and during the entire day other than market days this building will be useless under the plan adopted. In my opinion we can help relieve the congestion on the streets by erecting this market building in such a manner as will provide parking space for automobiles during the day time or any other times when the market is not used by the farmers. If this were all of this building it would not make so much difference, but as this is only the initial unit and as later years will show this building may reach anywhere from 500 to 1,000 feet or more in length, you will then and later Councils will wish that the Council which started this market would have been far-sighted enough to have provided a suitable building for such purposes as automobile parking. Our streets are becoming more congested and as the years roll around this congestion will get worse. The wharves are the only available space downtown for automobile or vehicle parking, and it seems to me that wise management would dictate that we look ahead and construct the proper kind of a building rather than demolish it later after thousands of dollars have been spent on it. As I stated before, I am in favor of a farmers market, and if you will change the plan of this building so that we can get other uses out of the building, I will be glad to vote for it; but since I cannot have you change the plan I am compelled to vote against this bill. I therefore vote "NO."

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen: I am opposed to vacating any streets or to give any property of the City to any individual or corporations unless sufficient compensation is given to the City in return. In this case I would be glad to vote for this ordinance if some person in authority, such as the City Solicitor, City Controller or City Treasurer, would provide a statement setting forth that this property in question had been assessed for benefits some years ago on account of the opening and paving of Perrysville avenue, but that the property not having any frontage on Perrysville avenue had not actually received any benefit. This ordinance would be all right if that explanation were given by the proper authority and such statement attached to and made a part of this ordinance; or if we would include a preamble in this ordinance something like this:

"Whereas, This property was assessed and paid $1,100.00 (or whatever the amount is) for supposed benefits due to the opening and paving of Perrysville avenue, but such benefits had not actually been received on account of the property not having any frontage; therefore, it is now proposed to vacate a certain piece of ground which will give this property a frontage and which will change the property from a nontaxable class into a tax paying property.

"I am not satisfied to vote in favor of this ordinance unless some such reasonable explanation is made part of the ordinance. Consequently I am compelled to vote 'NO.' "

Ayes—**7.**

Noes—**2.**

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. **Hetzel** presented from the Committee on Filtration and Water, with an affirmative recommendation,

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen: I am in favor of motorizing the Fire Department, but I am not satisfied with the wording of this present ordinance. It seems to me that the former ordinance having specified the various amounts for each piece of apparatus, wise management would indicate that we ask the Department of Public Safety to tell us the unit prices of the apparatus they propose to buy under this ordinance. Unless we do this, higher prices may be paid for two or three particular pieces of apparatus, which would force the purchase of inferior apparatus for the balance of the items. I do not see why they have departed from the method used in the former ordinance.

"In addition to this, I think the purchase of a new truck for No. 40 Engine House at this time is an extravagance. It is true that I live in the section in which No. 40 Engine House is situated, and I am just as anxious as any other citizen of Pittsburgh to have the property in that vicinity receive sufficient fire protection, but my sworn duty to the entire City of Pittsburgh demands that I use my best judgment in the expenditure of the City's money; and I say positively, without fear of contradiction, that the spending of several thousand dollars for a motor truck for No. 40 Engine House at this time is a useless waste. We have been going along without any trouble whatever, using the present truck, which the old Borough owned, and as there are only one or two buildings over two stories in height and these have fire escapes, in my opinion, the City's money is being wasted in maintaining a truck, and certainly the purchase of a new automobile truck is not necessary."

When the name of Mr. **Herron** was called, he arose and said:

"Mr. President and Gentlemen: We should designate in the ordinance the price of each piece of apparatus that is proposed to be purchased. I believe this is the first time that the price of each machine or apparatus was not specifically stated in the ordinance. For this reason I am compelled to vote 'NO.' "

Ayes—**5.**

Noes—**3.**

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also, with a negative recommendation,

Bill No. 2712. Was, in Council, March 2nd, 1915, Read and further action indefinitely postponed.

Which motion prevailed.

And the question recurring, "Shall further action on the resolution be indefinitely postponed?"

The motion did not prevail.

And on motion of Mr. **Kerr,** the resolution was recommitted to the Committee on Finance.

Mr. **Rauh** presented

No. 2830. Whereas, In order to compensate City employes for time lost while in the employ of the City as the result of injuries, sickness or disablement of any kind sustained in the performance of their duties, an Act was passed in the last legislature known as the "Rauh Act;" and

Whereas, This Act has been unjustly taken advantage of lately by some of the City employes; and

Whereas, Only last week a number of cases were reported to Council—some as far back as 1913—one of them actually before the Rauh Act was passed by the Legislature; and ,

Whereas, The Act was never intended for the purpose of permitting any City employe to obtain money from the City under false pretense; therefore, be it

Resolved, That Council respectfully ask the Mayor to notify the Department Heads to investigate carefully every case before them before submitting their papers in these cases to Council, in order that the City may not be deceived by some few of the unworthy employes, who are not entitled to the benefits derived from this Act, for if deception is carried on in the future along this line, it will only result in the Act being repealed, which will be to the detriment of the honest City employe who is entitled to this compensation.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Dillinger** presented

No. 2831. Whereas, There is pending in the Legislature of Pennsylvania House Bill No. 89, which is an Act providing for an additional license fee of $100.00 on all retail liquor dealers in the Cities of the first and second class, ten per cent. of which is to be paid into the police pension funds of said City; and

Whereas, It is deemed advisable and expedient, for the best interests of the said Cities as well as for the efficiency and good of the service, that the police be as far removed as possible from any outside influence whatsoever; therefore, be it

Resolved, That this Council be recorded as opposed to the enactment of the above mentioned legislation.

Which was read.

Mr. **Dillinger** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **English** presented

No. 2832. Whereas, The uniform school tax put into operation by the enactment of the new school code has proved satisfactory; and

Whereas, It may be desirable that there be a similar uniform tax for current expenses of the City; and

Whereas, Council should have an expression of opinion from citizens and taxpayers who are interested in a uniform tax; therefore, be it

Resolved, That the Council hold a public hearing on Friday evening, March 12th, 1915, at 7:30 o'clock, P. M., for the purpose of hearing any and all citizens or civic bodies interested in a uniform property tax.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Upon which motion, Mr **English** demanded a call of the ayes and noes, and the demand having been sustained the ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

English	Kerr
Herron	

Noes—Messrs.

Dillinger	Hetzel
Garland	Woodburn
Goehring (Pres't)	

When the name of Mr. **English** was called he arose and said:

"Mr. President and Gentlemen: It seems to me high time that the City of Pittsburgh through its Council should make an effort to place the bonded debt of the City in up-to-date condition. Under the present system of separate indebtedness, it seems before Council or the people can make improvements payable through bond issues, it is necessary to go to court and get an opinion of the court before we can make any improvements. Right now several important improvements are being held up owing to the suit which has been entered on this very matter. In view of the fact that the legislature several years ago passed a law changing the classification of property assessments from agricultural and rural to the one full assessment, it seems to me that the time has come to adjust the various debts of the City in a manner similar to that which was accomplished by the passage of the School Code. Under the School Code we have but one uniform tax for school purposes and no person disputes it. It has been confirmed by the Supreme Court and any question as to its validity has been settled.

"It seems to me similar action should be taken regarding the various separate debts of the communities now making up the City of Pittsburgh, particularly in view of the fact that several years ago the Legislature passed a law which allows any new boroughs or townships to be annexed to the City of Pittsburgh and the City must assume the assets and liabilities of the newly annexed territories. Particularly in view of the fact that Allegheny was annexed in 1908, the City of Pittsburgh has increased its bonded debt some $26,000,000 without immediate corresponding benefits to the former City of Allegheny the property of that section is made subject to a lien for these $26,000,000 additional bonds.

"I think the least the Council can do in this matter is to pass this resolution providing for a public hearing, thus granting to the citizens of the various communities an opportunity to come before Council and express their views, which will enable the Council to decide whether or not to favor or oppose an uniform current tax law. I therefore vote 'AYE.' "

Ayes—**3.**

Noes—**5.**

And a majority of the votes of Council being in the negative, the resolution was rejected.

Mr. **Kerr** called up and moved to reconsider the vote by which

Bill No. 2625. Resolution authorizing the issuing of a warrant in favor of Carlo DeSanto for $13.50, being 6 days' lost time at the rate of $2.25 per day, on account of injuries sustained in the performance of his duties as driver in the Bureau of Highways and Sewers, and charging the same to Appropriation No. 1517, Wages, Temporary Employes, Cleaning Highways.

Was, in Council this day, read and further action indefinitely postponed.

Which motion prevailed.

And the question recurring, "Shall further action on the resolution be indefinitely postponed?"

The motion did not prevail.

And on the motion of Mr. **Kerr,** the resolution was recommitted to the Committee on Public Works.

The **Chair** presented

No. 2833

Whereas, The City by virtue of a resolution passed December 16th, 1913, with the co-operation of the Board of Public Education, distributed throughout the public schools of the more congested parts of the City a large number of small potted flowering plants and

Whereas, From letter received from teachers and others there is reason to believe that said distribution of plants was very much appreciated by pupils and parents now, therefore, be it

Resolved, That the Director of the Department of Public Works, through the Bureau of Parks, make a similar distribution of plants at such time during the coming months as he may think desirable.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Garland** presented

No. 2834. An Ordinance authorizing and directing the purchase of certain lot or piece of ground situate in the Twenty-sixth ward of the City of Pittsburgh.

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, March 16th, 1915.

To the Council.

Gentlemen:

The inspectors in this Department have called my attention to the fact that in the inspection of automobiles, especially the fire steamer and tractors, that they cannot make a thorough inspection unless made in the shops where they are being built. It is stated that after a steamer is built and fired as a test at the factory it would be impossible to tell without dismantling the apparatus whether or not charcoal iron had been used in the construction of the tubes, or whether in any instances, cast in place of forged iron had been used.

As I have no authority to order inspections at the factory, I refer the matter to you for your consideration, and if, in your judgment, this shop inspection should be made, I ask you, by resolution, to clothe me with the necessary authority.

Respectfully,

E. S. MORROW

When the name of Mr. **English** was called he arose and said:

Mr. President and Gentlemen: I regret very much that the City is in the ridiculous predicament that we now find in the matter of tearing down buildings and then allow a private contractor to turn around and make a profit from the City in the matter of $1,700 required by this resolution to buy back lumber which formerly belonged to the City. Further it is a question in my mind as to whether or not any savings at all are effected, in view of the fact that the purchase price of $17 per thousand is at the building site and that the City must load the wagons and cart the lumber to all points of the compass and then unload where the lumber is to be used. It seems to me there is no economy in such proceeding and I venture the assertion that the cost of handling, the loss of time by teams, while loading and the time consumed by the teams in transporting the lumber to the place where it is to be used will more than offset any apparent saving, to which your attention has been called. Further than this, is it possible to get clean lumber without nails or without any knot holes or broken corners or split pieces when it is necessary to use force to take these timbers out of an already constructed building? I cannot see the logic or wisdom in such an argument, and I am compelled to vote NO against this useless expenditure.

Ayes—4.

Noes—4.

And there not being two-thirds of the votes of Council in the affirmative, the resolution failed to pass finally for want of a legal majority of votes.

Also

Bill No. 2796. Resolution authorizing the issuing of warrants in favor of the following:

Carter Electric Company for $3,430 74, for emergency electrical work for proposed market stalls, accessory work, etc., in the East Building of the new Diamond Market.

John M. Tate Company for $924 82, for emergency plumbing required in connection with market stall equipment and accessory work of the new Diamond Market.

Henry Shenk Company for $1,418.93 for installation of certain emergency work in east building in new Diamond Market.

Anderson-Darragh Company, Limited, for $102.87, for the installation of certain sleeves in walls and floors of the new Diamond Market to provide for future installation of market stalls, equipment and accessory work.

York Manufacturing Company for $251.10, for miscellaneous labor and materials as enumerated in extra work order No. 2, New Diamond Market. Same to be charged to Appropriation No. 174, Market House Bonds.

Which was read.

Mr. **Rauh** moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

When the name of Mr. **English** was called, he arose and said:

Mr. President and Gentlemen: I cannot see my way clear to support this resolution authorizing the expenditure of so much money for extras in a new building. It is possible that those having charge of this $300,000 bond fund did not know exactly the minute details of electric lighting or wiring system. It is clear to my mind that it should have been known that certain aisles or passageways were absolutely necessary to accomodate the public. These aisles or passageways are an absolute necessity, much more so, in fact, than the size or number of the market stalls, inasmuch as a market with stalls alone without aisles and passageways would be absolutely useless. Consequently, it seems to me, some provision should have been made in the original contract to include the major portion of the piping for conduits in aisles and passageways; branch outlets could have been left to accomodate any number of stalls. The number of stalls could be increased or decreased by the use of non-use of these branches which is a small item of cost.

The same statement will apply to the plumbing. As I understand it, this extra work is simply for soil pipe drains placed in the passageways or aisles with bell trap openings, which will allow the stalls to be cleaned out and the dirt from same washed down into the aisles and passageways. Similar branches could have been left in the soil line for stalls.

I am not at all satisfied with the way the City's money has been spent in erecting public buildings, and it seems to me time that the Council, which is charged with the responsibility, of having these things done properly, should exercise its authority and look into detailed matters before the money is spent rather than after the work is done. Here is a large extra on one portion of the building and the other portion has not even been started. We have been confronted within the past few weeks with an extra demand for some $66,000 for stalls. How much will confront us before the completion of the second building no one seems to know, and I for one do not propose to vote away any more money unless I know what the ultimate cost is going to be. I therefore must register my objections to this resolution and am compelled to vote NO."

When the name of the **Chair** (Mr. **Kerr**) was called he arose and said:

"Gentlemen: In voting for this resolution, I want to say that we have called attention to the unbusiness-like method in which this has been done, but the fact that the work has been done it must necessarily at some time be paid, and although I do not approve of this method of doing business, yet I will vote for the approval of this bill. I hope, however, that the department will not present any more resolutions of this character."

Noes—Mr. **English.**

When the name of Mr. **English** was called he arose and said:

"Mr. President and Gentlemen: The remarks I have previously made on the purchase of lumber from the Old West Penn Playground now owned by the City, as well as those applying to the market house extras, apply with added emphasis to this ordinance. Here we have an opportunity to show the people of Pittsburgh that we are a business Council; before we authorize the construction of a building worth $350,000, would it not be well for us to have complete plans and specifications, or at least visit the site of the proposed building and get some idea, no matter how slight, as to what it is proposed to do with such a large sum of money. In committee meeting last week I asked the City Architect if he had the plans prepared and the specifications ready to take bids on this building. He stated that he had a few sketches and no member of the committee was interested enough to even take a look at these sketches.

Mr. President, I think it is high time that this Council get down to a business basis and look into all these matters before we authorize the expenditure of such a large sum of money, and I would suggest that this ordinance be laid over for a time, say 1 or 2 weeks, until the architect can present to us plans and specifications and until every member of the Council has had an opportunity to know something about the kind and style and size of the building it is proposed to erect at Marshalsea. Unless this is done I will be compelled to vote NO on this ordinance.

Mr. President, I need only remind the members of this Council of the present state of affairs up at the Municipal Hospital. There we have practically a new building, not over one or two years old, and but one patient occupying two large wards, and the building so constructed that it cannot be used for other cases of infectious diseases. It has even been so constructed that there is no fire-proof ceiling and it is impossible to put a second story on it. It is practically impossible to remodel the building to make it convenient at all, and it is necessary to erect another building. The Tuberculosis Hospital, which has been located on the Leech Farm and just recently completed, but not yet opened, is another illustration of blunders in building hospitals. I have heard it in this Council and have heard it in the various sections of the City that the proper location for the Tuberculosis Hospital is at Marshalsea. Yet what are we going to do? It seems to me that this Council should profit by the mistakes of the past and before authorizing any more contracts, particularly a contract for the large sum of $350,000, we should know what we are going to get for this money. For instance, with the market house extra of $66,000, do we know whether this $350,000 means simply the bare building without any furnishings, or does it include bedding, supplies, utensils and various other things which are needed in the operation of a hospital building. There is not one word in this ordinance to indicate what we expect the City to get for the $350,000; and I submit, Mr. President, that it is high time for this business Council to get down to a business basis and at least know what we are doing in such a matter as this. I care not what other members of Council may do, but I have a responsibility in this matter, and unless I am shown what we are going to get for $350,000, I cannot see my way clear to vote for this ordinance. I therefore vote NO."

When the name of Mr. **Herron** was called, he arose and said:

"Mr. President and Gentlemen: For the information of this Council, I waited on Mr. Brennen, the City Architect, after the committee meetings on last Wednesday, and asked him what this procedure meant, and he advised me that before the building can be erected and the plans ready to take on, they must be approved by the State Board of Lunacy. By the passage of this ordinance, it will give him an opportunity to have the plans approved, and then he will be in a position to award a contract. I see no harm in laying the ordinance on the table for a week if thereby we would bring about harmony. However we are not making any blunder should we pass the ordinance today. We know of what the State Board of Lunacy requires; there is a doctor at the City Home and the Art Commission to advise whether the building will meet the requirements of the City of Pittsburgh. I feel confident that the architect will have a building erected that will be satisfactory. I am not unmindful of what the gentleman has said about other buildings, but at Marshalsea it is not necessary to isolate the patients, because there are no contagious diseases. So far as I am concerned, I see no harm in the procedure here this afternoon. I therefore vote "AYE."

When the name of Mr. **Rauh** was called, he arose and said:

"Mr. President and Gentlemen: In explaining my vote, I want to say that I accept the statement made by the Chairman of the Committee on Charities and Correction, and I further want to say that I do not think the entire responsibility of the City rests upon my shoulders, as one member of this Council would make it appear. I am perfectly willing to distribute this responsibility to the nine members of Council."

Ayes—**7.**

Noes—**1.**

And a majority of the votes of Council being in the affirmative, the bill passed finally.

MOTIONS AND RESOLUTIONS.

Mr. **Garland** presented

No. 2871. Be it Resolved, That we, the Council of the City of Pittsburgh, do hereby express our faith in the Boy Scout Movement, our conviction that it is one of the best plans for the building of good citizenship, and that the Boy Scouts of America now organized in Allegheny County should have the hearty co-operation and support of all of our people.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **English** presented

No. 2872. Whereas, The former City of Allegheny, now known as the North Side of Pittsburgh, issued the following bonds for the original building, additions and extensions to the electric lighting plant and system:

April 1. 1891	$160,000	due in 1921
Oct. 1, 1893	14,000	due in 1923
July 1, 1894	86,000	due in 1924
Oct. 1, 1801	64,000	due in 1931
Aug. 1, 1904	20,000	due in 1918
Oct. 1, 1906	16,000	due in 1929
Oct. 1, 1907	57,000	due in 1932

making a total of $417,000; and

Whereas, None of these bonds have been matured and retired; and

Whereas, The present City of Pittsburgh authorized a contract for five years for electric current to provide lighting for the City streets on the North Side; and

Whereas, The sum of money invested in this lighting plant and system and the fact that the bonds have not yet been matured will indicate that some disposition should be made of a valuable property in which so much money is invested; therefore, be it

Resolved, That the President of Council appoint a committee of three to investigate this entire matter, finding out how much money is invested in the building and plant alone as distinguished from the amount invested in wiring, lamps, etc., for the purpose of finding some use for the abandoned plant.

Which was read.

Mr. **English** moved

REPORTS OF SPECIAL COMMITTEES.

Mr. **Woodburn** presented from the Special Committee.

No. 2914

Pittsburgh, March 23rd, 1915.

To the President and
Members of Council.

Gentlemen:

Your Special Committee on investigation of Police Courts would report in part that their investigation so far has convinced the committee that additional legislation on the part of the State Legislature is necessary in order to secure the establishment of municipal courts of the kind needed, considered necessary and established by other cities.

There should be legislation providing that the magistrates shall have power to release prisoners accused of minor misdemeanors, and who can give satisfactory reference and other sufficient guarantees, upon their own recognizance pending their appearance before the magistrate, they should also have power to parole in cases of minor misdemeanors and power to commit to remedial institutions.

At least the majority of magistrates hereafter selected should be attorneys and magistrates should be selected for terms are not co-terminous, so that there would be approximately one or two selected each year, thus divorcing the selection of magistrates from the change of city administration.

Your committee therefore recommends that Council go on record as endorsing legislation to this end, and that this Committee be empowered to co-operate in securing the same and instructed to continue its labors.

Which was read.

Mr. **Woodburn** moved

That the report be received and filed and adopted.

Which motion prevailed.

Mr. **Woodburn** arose and said:

"Mr. President and Gentlemen: I wish to make a partial or preliminary report on the part of the Special

Committee of Council appointed to consider the re-naming of streets. A week or so ago a petition numerously signed by residents of a certain section of the North Side was presented and referred to this special committee. The petition requested a change in name of what is now known as Nunnery Hill to 'Fineview.' As I understand it, the special committee has no power to change the name of any section of the City, but if the Council will give its approval to the change proposed, the street railway company will change the name of its line to the new name of 'Fineview,' and the citizens of that district will, of course, have to adopt that name, which they are perfectly willing to do, and make it sufficiently prominent so that it will become known by the new name."

Mr. **Woodburn** moved

That it is the sense of this Council that the name of Nunnery Hill be changed to "Fineview."

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. **Kerr** presented.

No. 2915. Whereas, The District Chief of the Bureau of Fire is generally the first to arrive at a fire; and

Whereas, If he carried a Babcock or fire extinguisher in his auto Runabout, he would very often be able to extinguish small fires before the arrival of the fire department, thus saving damages to property owners and cost to said department; therefore, be it

Resolved, That the Director of the Department of Public Safety be requested and instructed to have a Babcock or fire extinguisher placed in each of the Auto Runabouts of the District Chiefs of the Bureau of Fire.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Rauh** presented

No. 2916. Whereas, The people of Pittsburgh, the Boards of Trade and other civic bodies of this City are overwhelmingly in favor of a non-partisan administration of their municipal affairs; and

Whereas, The bill providing for the non-partisan nomination and election of officers of cities of the second class has not been in working operation long enough to already ask for its repeal; and

Whereas, In the interests of good government and civic uplift this bill shall be further tried out, and

Whereas, The bill for the repeal of the Non-Partisan Law was introduced by a member of the Legislature from Cambria County and not from this County; Therefore, be it,

Resolved, That the Council of the City of Pittsburgh ask for a hearing before the proper committee at Harisburg when the consideration for the repeal of the bill comes up for discussion, and that members of Council at that time go to Harrisburg, at their own expense, and appear before this Committee to unqualifiedly oppose the repeal or mutilation of this Act; and, be it further

Resolved, That the President of Council through the City Clerk ascertain the exact date and time when this hearing takes place, and on behalf of Council request that they be given a hearing, to which his Excellency, Martin G. Brumbaugh, Governor, be likewise invited. And, be it further

Resolved, That at said hearing at Harrisburg Council invite all citizens of Pittsburgh, representatives of civic bodies, boards of trade, etc., to attend this hearing. And, be it further

Resolved, That a copy of these resolutions be sent to His Excellency, Martin G. Brumbaugh, Governor, and each member of the Senate and House of Representatives of Pennsylvania.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **English** presented

No. 2917. Whereas, The newspaper accounts of the address of His Honor, the Mayor, before the Commercial Club at the Fort Pitt Hotel on Friday, March 19th, report that the Mayor stated there were more politics in Pittsburgh Council than in the Council of any other city; and

Whereas, It also credits the Mayor with stating that it is the custom of the members of Council to ask who is back of every ordinance introduced; and

Whereas, The whole tenor of the address as reported in all the newspapers tends to discredit the entire Council and at the same time attempts to mislead the people of Pittsburgh into believing that the Mayor has no responsibility in the matter of the higher tax rate he predicts for next year; Therefore, be it

Resolved, That His Honor, the Mayor, be requested to appear before the Council and either repeat his address or explain what he means and also be prepared to answer questions any or all members of Council may care to ask him.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Mr. **Garland** moved

That the resolution be laid on the table.

Upon which motion, Mr. **English** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dillinger
Garland
Goehring (Pres't.)

And a majority of the votes being in the affirmative, the motion prevailed.

Mr. Garland presented

No. 2918. Resolution requesting the Mayor to return to Council, without action thereon, for further consideration, Bill No. 2785, Resolution authorizing the Mayor to execute and deliver to Thomas Graham a deed for a certain lot or piece of ground on Parnell street.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

And the Mayor having returned, without action thereon.

Bill No. 2785. Resolution authorizing and directing the execution and delivery of a deed to Thomas Graham, upon the payment by him of the sum of $6.12, for a lot or piece of ground on Parnell street.

In Council, March 16th, 1915, Rule suspended, read there times and finally passed.

Which was read.

Also

No. 2919.

Mayor's Office,

Pittsburgh, Pa., March 22, 1915.

Mr. John M. Goehring, President,

City Council, City of Pittsburgh.

Dear Sir:

I am returning herewith Bill No. 2785, which is a resolution for the delivering of a deed to Mr. Thos. Graham for a piece of property upon which there was some mistake made when paying taxes. This resolution calls for Mr. Graham to pay into the City treasury the amount of expense for returning the same which was mentioned in the bill as $6.12. After referring same to the Law Department we find the record shows $68.47. The returning of the bill is not so much for the amount as it is to stop a precedent of this kind being established. The only proper place I believe, to get the records of indebtedness of this kind is at the City Attorney's office and all such bills should be sent there before the same is passed as the City Attorney finally has to make out the deeds and qualify to the correctness of same. If Council wish to allow this to go through and the City bear the rest of the expense, nevertheless, there should be a record of same.

Yours very truly,

JOS. G. ARMSTRONG

Mayor.

Which was read, received and filed.

Mr. Garland moved

To reconsider the vote by which Bill No. 2785 was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring, "Shall the resolution be read a second time and third times, and finally passed?"

The motion did not prevail.

And on motion of Mr. **Garland,** the resolution was recommitted to the Committee on Finance.

Mr. Garland presented

No. 2920. Whereas, The time for paying taxes and receiving a discount expires on Wednesday, March 31st, 1915; and

Whereas, Owing to depressed business conditions, many owners of real estate have to depend upon their rents to pay their taxes; and

Whereas, April rents will be payable during the first week of April; therefore, be it

Resolved, That the City Treasurer is hereby authorized and directed to extend the time for paying taxes and receiving the benefit of the 2 per cent discount up to and including Saturday, April 10th, 1915, in order to allow realty owners, who depend upon April rents to pay their taxes, to obtain the said discount.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

Mr. Rauh presented

No. 2921. Resolved, That our Senators and Representatives in the State Legislature be requested to support and work for the passage of House of Representatives Bill No. 968, entitled, "An Act granting to cities of the second class the authority to exercise the rights of local self government, and providing a method of securing the same," better known as the "Home Rule" bill, which is now pending in the Committee on Municipal Corporations.

Resolved, That the City Clerk be and is hereby directed to mail a copy of the above resolution to the local members of the State Senate and the House of Representatives.

Which was read, and on motion of Mr. **Rauh,** referred to the Special Committee on Legislation.

The **Chair** at this time said:

"Gentlemen: A week, or ten days ago, a resolution was passed by Council providing for the appointment of eight different special committees to study and investigate matters that annually come before the Budget Committee. My idea is that these special committees should meet at least once a week. Therefore, in order to do this a schedule should be fixed so that each member on the several committees would know when the committee of which he is a member is going to meet. in this way also there would be no confliction of time of meetings."

And there being no further business before the meeting, the **Chair** declared Council Adjourned.

Which was read.

The **Chair** presented

No. 2949.

March 30th, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

Referring to the Resolution authorizing the payment of $1,700.00 for 100,000 feet of lumber purchased from the Garden City Wrecking Company for repairs to boardwalks and steps in the Bureau of Highways & Sewers. You have had this matter up twice but no action has been taken upon the same and the season of the year is near when we must have lumber to carry on the work.

I would like to say in connection with this matter that the contract for the wrecking of the West Penn Hospital was let in the ordinary and regular way in which all contracts are let; the Ordinance authorizing the work was past by Council, the contract was advertised, bids received and contract awarded to the Garden City Wrecking Company, whose bid was the most advantageous to the City of the four (4) bids received.

The contract specified that all material was to become the property of the Contractor, which is the customary way of letting wrecking contracts. A similar contract was let about the same time, namely, to Booth & Flinn, Ltd., for wrecking the buildings on the site of the proposed County-City Building, for which the specifications were the same. The purchase of any material saved from the building is a matter entirely independent of the wrecking contract.

The Department of Supplies had a requisition from this Department to purchase certain lumber for boardwalks and steps and they heard of this lumber which could be purchased at a much less price than the contract price, as well as being a superior grade of lumber. Before purchasing the lumber the Controller sent his Inspector to examine the same and advised the Department of Supplies that it was good, sound, white pine which was worth $50.00 a thousand at least. The contract price for ordinary material for boardwalks and steps is from $28.00 to $30.00 per thousand, therefore the Department of Supplies, using the best of judgment, purchased the lumber from the Wrecking Company.

Yours very truly,

ROBT. SWAN,

Director.

Which was read, received and filed.

Mr. F. P. Booth, Director of the Department of Supplies, having been sent for, appeared before Council and verified the statement as made by the Director of the Department of Public Works in letter submitted to Council. He further stated that the City was saving a large sum of money by purchasing this second-hand lumber from the Gerden City Wrecking Company; that it was bought at the suggestion of the Bureau of Highways and Sewers, and that this bureau needed the lumber in order to repair boardwalks and steps.

And the question recurring on the final passage of the resolution, the ayes and noes were taken, and being taken were:

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen: I want to say that I am opposed to fixing up any illegal blunders made by anybody in the employ of the City. If this were a mere slip or small error, I would be glad to overlook it in view of the expected economy in the purchase of this lumber. Instead of being small slips or errors, however, the various directors are repeatedly doing things without authority and then sending the Director of the Department of Supplies or some individual to pull the wool over the eyes of Council, and it is high time that the Council call a halt. If this were a good thing, it could have been taken care of by resolution before the lumber was purchased, but to simply do business illegally as has been done repeaterdly is a wrong and I do not propose to condone this one. I therefore vote NO."

When the name of Mr. **Garland** was called, he arose and said:

"Mr. President and Gentlemen: I did not intend to say anything, but the gentleman to my right (Mr. **English**) has stated that the purchase of this lumber was illegal. I want to state that there was nothing illegal about it. It is a business matter absolutely and purely, and it is so shown by the Director's letter just read. There is absolutely nothing wrong about the matter in which this lumber was purchased, and I therefore vote Aye."

When the name of Mr. **Herron** was called, he arose and said:

"Mr. President and Gentlemen: I wish to call your attention to the fact that the contract for tearing down the old West Penn Hospital building was under the charge and jurisdiction of the Department of Public Works and the person charged with the responsibility of this department should have known that the material in this building could have been used for city purposes. Before the contract was let for tearing down the building, it should have been known that the old lumber could have been used for repairing boardwalks and steps.

"I also maintain, Mr President, that the department should have advertised for bids for this second-hand lumber to be used by the Bureau of Highways and Sewers for repairing boardwalks and steps the same as was done in the matter of second-hand fire apparatus for the Bureau of Fire. All contracts calling for the expenditure of $500 or more must be advertised; and if this contract had been advertised, I am sure, the City would not have paid as much for similar material.

"Mr. President, I do not propose to favor different rules, one for the Department of Public Safety and another for the Department of Public Works. If it was consistent on our part to order the Department of Public Safety to advertise for second-hand fire apparatus, then it was just as essential on our part to insist on the Department of Public Works doing the same thing when they wanted second-hand lumber. I try to be consistent and I feel as though I have a right to insist on things being done in a legal manner, and as this action today is far from that. I therefore vote "NO."

REPORTS OF SPECIAL COMMITTEES.

Mr. **Kerr** presented from the Special Committee.

No. 2957.

Pittsburgh, March 30th, 1915.

To the President and Members of Council.

Gentlemen:

We, the undersigned members of the Committee on Legislation, desire to make the following report on Bill No. 968, entitled, "An Act granting to cities of the second class the authority to exercise the rights of local self government, and providing a method of securing the same," better known as the "Home Rule" bill, which was referred to us at the last meeting of Council.

A meeting of the Committee on Legislation was held on Thursday, March 25th, 1915, which was attended by the City Solicitor and a representative of the Pittsburgh Realty Owners Association.

The bill submitted to your committee does not meet with our approval, and we have directed the City Solicitor to prepare a new bill which will be submitted to the Council through us as soon as the City Solicitor can have it prepared.

Respectfuly submitted ,

JOHN S. HERRON
W. Y. ENGLISH
S. S. WOODBURN
ROBT. GARLAND
J. P. KERR
Chairman.

Which was read.

Mr. **Kerr** moved

That the report be adopted and a copy be sent to the City Solicitor.

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. **Garland** presented

No. 2958.

Wheras, According to reports in the morning papers, there has been introduced into the Legislature at Harrisburg, a bill seeking practically to remove the competitive feature of the Civil Service Act of May 23rd, 1907, applicable to cities of the second class in this State; and

Whereas, Placing in the exempt class of any employees of the City would subject them to arbitrary removal and so tend to lessen the permanency of employment of such employees and the efficiency of their service to the City; and

Whereas, The competitive system of selection and appointment has been tested for a long time by the United States Government and by municipal authorities throughout the world, and has been found to be the most feasible and satisfactory plan for determining the relative efficiency of applicants for employment by municipalities; now, therefore,

Resolved, That the Council of the City of Pittsburgh is thoroughly opposed to the proposed change in the Civil Service Law applicable to cities of the second class in the State of Pennsylvania, as provided by the Bill introduced in the House of the General Assembly of said State by Honorable W. J. Mangan of Pittsburgh, on March 29th, 1915; and, be it further

Resolved. That the Council of the City of Pittsburgh is opposed to any legislation tending to weaken or lessen, in any particular, the restrictive provision of the present Civil Service Law affecting cities of the second class; and, be it further

Resolved, That copies of this resolution be sent to the Governor and to the Speaker of each House of the General Assembly, and to the Chairman of the Committee or Committees having the bill in charge.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Rauh** presented

No. 2959. Whereas, Tuesday, April 6th, 1915, having been set as the date for the hearing on the Non-partisan Ballot Bill in the City of Harrisburg, Pa.,; and,

Whereas, It is the desire of the members of Council to attend said hearing on said date; therefore, be it

Resolved, That the session of Council be held on Monday, April 5th, 1915, at 3 o'clock P. M., instead of Tuesday, April 6th, 1915 at 3 o'clock P. M.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Dillinger** called up

Bill No. 2835. Resolution authorizing empowering and directing the City Controller to transfer the sum of $400.00 from Code Account No. 42, Contingent Fund. to Code Account No. 1168. Item B. Miscellaneous Services, Bureau of Electricity.

In Council, March 23rd, 1915, Read and further action indefinitely postponed.

Which was read.

Mr. **Dillinger** moved

To reconsider the vote by which further action on the resolution was indefinitely postponed.

Which motion prevailed.

And the question recurring, "Shall further action on the resolution be indefinitely postponed?"

The motion did not prevail.

Mr. **Dillinger** moved

That the bill be recommitted to the Committee on Finance.

Which motion prevailed.

Mr. **Woodburn** presented

No. 2960. Whereas, Council, presuming upon the completion of the New Diamond Market within two years, fixed April 1, 1915, as the period of expiration of all leases for storerooms, stalls and stands in the North Side Market; and

Whereas, The New Diamond Market is not yet ready for occupancy and the South Side Market is being reconstructed; therefore, be it

Resolved, That the Director of the Department of Public Works be directed to extend or continue the present leases for storerooms, stalls and stands in the North Side Market until such time as Council shall fix the duration and terms of leases for all market houses.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Garland** moved

That the President of Council be authorized to send the following telegram to J. W. Smyth, Commonwealth Hotel, Harrisburg, Pa.:

When the name of Mr. **Rauh** was called, he arose and said:

In explanation of my stand on bill No. 2922, I desire to state that I am compelled to vote for this bill in the interest of efficiency and also to serve the interests of the taxpayers.

When, during the last Legislature, I succeeded in having enacted the measure commonly known as The Rauh Act, authorizing cities of the first and second class to compensate employes for time lost while in the employ of the City, as a result of injuries, sickness or disablement of any kind sustained while in the performance of their duties,—I did it feeling that the City would not be taken advantage of by any of its employes, but of late some City employes have asked for claims under this act which, in my opinion, are unjust.

Bill No. 2922 still give the employes of the City a certain compensaiton for illness contracted or injuries sustained while in the performance of their duties, but the provisions are such that it will be far more difficult to impose upon the City after its passage than if this bill were not in force.

While I am still of the firm opinion that all employes of the City should be paid in full as stated in the Rauh Act, nevertheless owing to the reasons aforementioned, I deem it my duty to vote for bill No. 2922.

Ayes—8.

Noes—None.

And a majority of the votes of council being in the affirmative, the bill possed finally.

Also

Bill No. 2782. Resolution providing for the execution and delivery to Henry E. Weil of a deed for property purchased by the city at M. L. D. No. 12 March Term, 1908, wherein Charlotte E. MOTIONS AND RESOLUTIONS.

Mr. **English** presented

No. 2978. Whereas, Governor Brumbaugh has signed the bill making the two-platoon system mandatory on cities of the second class; and

Whereas, The Director of the Department of Public Safety reported to Council that 200 additional men at an approximate additional cost of $200,000.00 annually would be added to the expense of the fire department to efficiently operate the two-platoon system; and

Whereas, This additional cost of $200,000 was the reason Council did not adopt the two-platoon system; therefore, be it

Resolved, That the Mayor be requested to have the Director of the Department of Public Safety investigate the matter of two-platoon and if possible experiment on the matter for several months; and further to make monthly reports to Council, so that when the matter of appropriations come before the Budget Committee some definite information as to the number of men required and the cost may be available for the guidance of Council.

Which was read and referred to the Special Committee appointed to consider the two-platoon system for the fire department, and instruction school for firemen and police.

Also

No. 2979.

Whereaś, Council having passed ordinance No. 2922, File No. 1387, regulating the payment of employees of the City during absence by reason of illness and accident while in the performance of their duties; and

Whereas, It is desirable that the employees of the City may have full knowledge of the requirements of this ordinance in case of future claims; therefore, be it

Resolved, That the Clerk of Council be directed to have printed sufficient copies of this ordinance to supply a copy to every office of the City where said copy may be placed in convenient location for employees to read same; and, be it further

Resolved, That His Honor, the Mayor, be requested to have a copy placed in every office.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Rauh** presented

No. 2980. Resolved, That the Councilmanic Committee meet on Tuesday, April 6th, 1915, starting with the Committee on Finance at 1:30 o'clock, P. M., and continuing in their regular order, instead of on Wednesday, March 7th, 1915, at 3 o'clock P. M., as the regular meeting of Council has been advanced from Tuesday, April 6th, to Monday, April 5th, 1915, at 3'oclock, P. M., the members of Council being desirous of attending a meeting of a Legislative Committee at Harrisburg on the Nonpartisan Election Bill, on Wednesday evening.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2981.

Whereas, A bill known as "House Bill No. 755," has been introduced, which proposes to change the law with reference to the selection of the permanent Board of Viewers, so as to make them elective hereafter instead of appointive as heretofore; and

Whereas, From about the year 1889 to the present time the power of appointing Viewers has always been vested in the Courts; and

Whereas, The duty of the Viewers is largely judicial in character, and their reports are ultimately submitted to the Court for its approval or rejection or modification, and for that reason it would seem wise to allow to remain in the Courts the appointment of such viewers; and

Whereas, The matters which come before the Board of Viewers are highly techincal in their character, and frequently involve legal questions, it is therefore essential for the proper performance of these duties that the viewers should be properly educated and trained to render proper services; and

Whereas, The bill requiring the members of the Board to be elected would occasion frequent changes in the makeup of the Board, and would make the whole matter political, and have a tendency to impair the efficiency of the Viewers and retard the performance of the work by increasing the delay in the decision of matters referred to them; and

Whereas, The performance of the duties such as devolve upon the Board of Viewers, if the members are requird to be elected, and subject to political influence and control, will have a tendency to increase the awards against the City and other municipal sub-divisions of the County, and thereby increase the litigation and the expense to the community; and

Whereas, Since the Act of Assembly which made the members of the Board of Viewers appointive by the Courts, there has never been occasion to change the personnel of the Board except in case of death, and the duties have always been satisfactorily performed; therefore, be it

Resolved, By the Council of the City of Pittsburgh, in meeting duly assembled, that in their judgment the Bill making the members of the Board of Viewers elective, should be negatively reported, and the method of appointment as at present should be allowed to remain; and

Resolved, That a copy of these preambles and resolutions be mailed to each of the Representatives and Senators within the districts included within the County of Allegheny, as also a copy to the Governor of the State.

Which was read and referred to the Committee on Finance with power to act.

The **Chair** presented

No. 2982.

Resolved, That the Committees authorized by Council, March 2nd, 1915, subject to further order of said committees or their chairmen, shall meet on the day and hour as hereinafter stated, to-wit:

Which motion prevailed.

Mr. **Kerr** presented

No. 2983.

DEPARTMENT OF LAW.

Pittsburgh, April 3, 1915.

Legislative Committee of Council,
Council Chamber, Pittsburgh.

Gentlemen:

I have fully considered the matter of reporting a so-called Home Rule Bill for governing of cities of the second class, which was referred to me by Your Honorable Body and have reached the conclusion that it would be out of the question to undertake any such task with any hope of being able to present the Act at this session of the Legislature.

An Act of this character, as I said at your meeting, would involve a radical re-enactment of the present Charter Act, as also the repeal of many special laws pertaining to Pittsburgh and this should not be done except after mature study and reflection.

Furthermore, I am entirely convinced that any real measure of Home Rule for cities which will be satisfactory and stable and not subject to continuous and vexatious litigation can only be accomplished by the proper consitutional amendment for that purpose.

Respectfully,
CHARLES A. O'BRIEN,
City Solicitor.

Which was read, received and filed, and a copy ordered sent each member of Council.

President **Goehring,** at this time, administered the oath of office to the City Clerk-elect, **E. J. Martin,** and to the Assistant City Clerk-elect, **Robert Clark.**

And there being no further business before the meeting, the **Chair** declared Council adjourned.

MAYOR'S OFFICE.

Pittsburgh, Pa., April 20, 1915.

To the President and Members of
Council, City of Pittsburgh.

Gentlemen:

I am forwarding you an ordinance drawn by the City Solicitor and the County Solicitor in accordance with their views of what is necessary for carrying on the work of constructing the new City and County Building. I understand this has been asked of them by the courts.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

Also

No. 3054.

DEPARTMENT OF LAW.

Pittsburgh, April 20th, 1915.

To the Council.

Dear Sir:

I send you herewith ordinance authorizing the Mayor and Director of Public Works to execute contract with the Commissioners of Allegheny County for operation, control and maintenance of joint municipal building. This should be introduced in Council today to avoid delay in the matter of the County-City Building. The terms of said contract have already been practically agreed upon by the Commission as you know, and will be subject to final approval before the same is executed.

Respectfully,
CHARLES A. O'BRIEN,
City Solicitor.

Which were read, received and filed.

Also

No. 3055. An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works to enter into a contract with the County Commissioners of Allegheny County for the occupation, use, administration, maintenance, operation and control of a joint County and Municipal Building.

Which was read and referred to the Committee on Public Works.

UNFINISHED BUSINESS.

Bill No. 2937. Resolution authorizing the issuing of a warrant in favor of Dr. J. Walter Beyer for $35.00, for professional services rendered Thomas Hughes, an employee in the Bureau of Water, who was injured by falling from wagon, and charging same to Appropriation No. 1646, Miscellaneous Services, Bureau of Water.

In Council, April 13th, 1915, rule suspended, read three times and failed to pass finally for want of a two-thirds vote.

Which was read, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

English	Kerr
Herron	Rauh
Hetzel	

Noes—Messrs.

Garland	Woodburn
Goehring (Pres't.)	

Ayes—**5.**

Noes—**3.**

And there not being two-thirds of the votes of Council in the affirmative, the resolution failed to pass finally.

Also.

Bill No. 2969. Resolution authorizing the Director of the Department of Charities to expend a sum not to exceed $150.00 for alterations, repairs, equipment and removal to building at 439 Second avenue, Pittsburgh, and setting apart and appropriating the said sum, or so much of same as may be necessary, for the payment or payments required for the above mentioned work out of Appropriation No. 42, Contingent Fund.

In Council, April 13th, 1915, rule suspended, read three times and failed to pass finally for want of a two-thirds vote.

Which was read, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

English	Hetzel
Goehring (Pres't.)	Kerr
Herron	Woodburn

(Messrs. **Garland** and **Rauh** requested to be recorded as not voting.)

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen: I am decidedly in favor of allowing the Department of Charities $150, or as much money as they need to properly furnish new quarters, but I wish to have it distinctly understood and placed in the record that my vote in favor of allowing the Department the $150 does not carry with it my approval of the quarters they intend to rent. I still adhere to my opinion that the engine house on Smithfield street is the proper place for the Department of Charities. Inasmuch as the engine house on Webster avenue was built to accommodate the water tower which now rests in the Smithfield street engine house, there is no reason why the removal should not take place at once. I therefore vote AYE."

Ayes—**6.**

Noes—None.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

REPORTS OF COMMITTEES.

Mr. **Garland** presented from the Committee on Finance, with an affirmative recommendation,

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

English
Garland
Goehring (President)
Herron
Hetzel
Kerr
Rauh
Woodburn

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2367. DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, April 19th, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

With reference to Bill No. 3013, the same being a Resolution requesting the Director of the Department of Public Works to furnish an estimate of the cost of grading Arsenal Park for the purpose of making a ball ground, beg to enclose you herewith copy of report upon the same from Mr. George W. Burke, Superintendent of the Bureau of Parks, in which he states that the making of a ball ground would totally destroy work already done to the amount of at least $15,000.00 and that the idea is not practical.

Therefore, unless we get further instructions, we will not proceed to have an estimate made of the cost of the proposed ball grounds.. Enclosed herewith find blueprints of layout of proposed new ball ground.

Yours very truly,
ROBT. SWAN,
Director.

Attached to Bill No. 3100 is the report of the Superintendent of the Bureau of Parks and also the blueprints.

REPORTS OF SPECIAL COMMITTEES.

Mr. **Garland** presented from the special committee,

No. 3108

Pittsburgh, April 23rd, 1915.

To the President and Members
of Council.

Gentlemen:

The undersigned members of the special committee of Council appointed to consider the advisability of the purchase and distribution of small trees to school children would respectfully report that on Thursday, April 22nd, 1915, your committee met and a proposition was submitted to them from Peter Bohlendar and Son, of Tippecanoe City, Ohio, to furnish 10,000 Catalpas, 5,000 Soft Maples, 5,000 Mulberrys and 500 books, at a price of $137.50, F. O. B. Pittsburgh.

At a further meeting held today, the Board of Public Education was represented by Dr. Geo. W. Gerwig, Secretary, also attended by Mr. Geo. W. Burke, Sup't of the Bureau of Parks.

The above subject was discussed. Secretary Gerwig, speaking for the Board of Public Education, favored the proposed distribution of trees to the school children and agreed to make a proper distribution of the same through the teachers to the children of public schools throughout the City. Sup't Burke stated that the proposition above referred to seemed fair and that the price quoted was very reasonable. The suggestion was that the mulberry trees should be distributed in the more rural districts.

Upon motion it was agreed by the committee that the offer made by the above named firm be accepted, and that the trees be expressed to the City of Pittsburgh, care George W. Burke, Superintendent of Parks, at the Shadyside Station, Pennsylvania Railroad.

Your committee would therefore report favorably in the above matter and recommend the adoption of the resolution herewith submitted.

Respectfully submitted,

JOHN S. HERRON,
ENOCH RAUH,
ROBT. GARLAND,
Chairman.

Which was read, received and filed.

MOTIONS AND RESOLUTIONS.

The **Chair** presented

No. 3109. Whereas, Under the law, it is the duty of Council to annually levy a tax based upon estimates of the amounts required for the running of the departments of the City for the ensuing year; and

Whereas, In determining said tax rate, it becomes necessary for Council to pass upon and fix the salaries and wages of the City employes for the ensuing fiscal year; and

Whereas, Notwithstanding said action of Council in adjusting salaries for the year, applications are presented from time to time for increases in compensation, or restoration of salary; and

Whereas, To consider said applications is not only in conflict with the action of Council taken, but is unjust in discriminating against equally deserving employes who are less persistent in their claims; now, therefore, be it

Resolved, That no salaries or compensation fixed in the making of the annual Budget shall be changed during the fiscal year unless said change be made in pursuance of a general ordinance revising all the salaries or other compensation payable to officials or employes of the City.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Mr. **Rauh** arose and said

In supporting this resolution I desire to say that when Bill No. 3023 was introduced into the Finance Committee of Council last week, I tried hard to have this bill held over for one week in order that copies might be furnished to all members of this committee, so that the ordinance could be carefully studied.

Instead of this, the member of Council from Sheradan, Mr. English, moved to affirm this bill at once, and this motion was promptly seconded by the member of Council from Homewood, Mr. Herron.

May I ask why this great rush affecting the salaries of 33 men? I desire to state that some of these salaries should be reinstated, but the time to do this is not today after the Budget for 1915 has been closed, but at the next Budget session.

I feel satisfied that we have made some mistakes, but if the Budget with over 19,000 items is reopened, where will we land? Other departments will ask to have salaries in their Departments reinstated, and what applies to one Department is equally applicable and just to every one.

For over two months we deliberated over the Budget and in order to try to reduce the millage, part of which was forced upon the City through extravagances of increasing the pay roll during the first few years of the last administration, and now the present administration is compelled to retrench in order to relieve the heavily taxed people of our city.

If in our business we would ask for an extension of time for three years to cover a deficit, what policy would we pursue? Would it not be one of economy and retrenchment? The statement made in committee that this money will not come from the Contingent Fund, makes no difference to me. It is the people's money just the same. The taxpayers of Pittsburgh must be protected. The City now owns over 2,000 pieces of property which the owners were forced to give up, owing to the fact that they could not pay their taxes. I have taken an oath of office to protect the interests of the people of Pittsburgh. I consider spending their money with the same conscience as I would my own.

Mr. **Kerr** arose and said:

"Mr. President and Gentlemen: I am in sympathy with this resolution to a certain extent. I want to say that I have the courage to meet conditions as they arise and do not want to be placed in the position of shutting the door to anyone who may have anything to present before this body. I want the thing to be left open and let the men who apply for increases in salaries come before this body and stand up and defend their position. There are possibly some salaries which ought to be restored—I don't know; but if such is the case, this is not the time to do it.

"These matters should stand until the next budget-making period. Why, the members of Council sat around here three or four months working on the Budget, and at this late date an ordinance is presented to restore certain salaries which were reduced after due deliberation. It is merely to befuddle the minds of the people, or it is all tommy rot.

"I am in favor of the sentiment of the resolution, but opposed to passing it, because I do not want the people of this City to think that we are absolutely unable to defend ourselves and have to surround our deliberations with resolutions that will prevent our taking action on measures such as was before us a few moments ago. I want it distinctly understood that I have the courage of my convictions and stand ready at all times to do my duty."

Mr. **Herron** arose and said:

"Mr. President and Gentlemen: I want to state that the previous speaker is mistaken when he says that great haste was taken by me in moving to return the ordinance restoring certain salaries in the Department of Public Works with an affirmative recommendation. This matter had been before the Council since the consideration of the last Budget, and every member of Council is familiar with the subject. At the time the salary of the men who would be benefited by Bill No. 3023 was reduced I voted against the reduction on the basis that the men were entitled to the salary they received.

"However, be that as it may, the gentleman (Mr. **Rauh**) who has just read his paper is very much concerned about this thing. I am glad to know that he is. 'Consistency thou art a jewel!' Will he go farther and vote to abolish the useless position of Chief of the Bureau of Information and Complaints, and then go a little farther and vote to abolish positions which are useless. I can show him men drawing high salaries who are doing very little to earn their money and I can also show him a resolution presented by the Pittsburgh Realty Owners Association asking this Council to practice economy and abolish all useless positions. Why only a short time ago he advocated the increase of certain salaries. I can name several which might refresh his memory."

And the question recurring on the adoption of the resolution, Mr. **Rauh** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Garland	Rauh
Goehring (Pres't)	Woodburn
Hetzel	

Noes—Messrs.

Herron	Kerr

Ayes—**5.**

Noes—**2.**

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Pittsburgh, Pa.

Gentlemen:

The employes of the Department of Public Works affected by the ordinance asking for the restoration of salaries have handed me the enclosed statement signed by the employes of this department whose salaries were reduced by the Budget Committee and who are asking for the restoration of the same.

The same is submitted to you for your careful consideration in connection with the ordinance pending for the restoration of these salaries.

Yours very truly,
ROBT. SWAN,
Director.

MAYOR'S OFFICE.

Pittsburgh, May 4, 1915.

To the President and
Members of Council,
City.

Gentlemen:

I am forwarding to you report of the Chief Cost Accountant on Councilmanic Resolution No. 3062, being a resolution requesting the Mayor to furnish the first quarterly report of receipts and expenditures as provided in the Appropriation Ordinance for 1915.

I have gone over this report very carefully with the Superintendent of the Bureau of Costs and I agree with his comments on the same. While we are doing everything possible to furnish Council with this information requested in the resolution referred to, however, it is new work and as the forms have only been recently printed, and we have so much other work on hand, we may not be able to carry out the provisions of the resolution as well as we should, especially the first and second quarters. However, after we pass that period we feel that we will be able to comply with the requirements, but the suggestion of the Superintendent's of making the reports semi-annually instead of quarterly appeals to me as being more logical, considering the enormous amount of work to be done.

If this report is not as plain as it should be and Council so desires, I would be pleased to have a conference with your honorable body in the Mayors' Office, for the purpose of going over the same personally, at which time I will have the Superintendent of the Bureau of Costs present.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

BUREAU OF COSTS.

Pittsburgh, April 23, 1915.

Hon. Jos. G. Armstrong,
Mayor.

Dear Sir:

As directed by you I have made an examination of Bill No. 3062, being a resolution adopted by Council on April 20th, requesting the Mayor to furnish the first quarterly report of receipts and expenditures as provided in the Appropriation Ordinance for 1915.

This resolution refers to Section 4 of Appropriation Ordinance Bill No. 2024, for the year 1915. The requirements of this section are that City departments shall furnish to Council quarterly certain statements concerning expenditures. It also provides that the Controller shall prescribe the forms upon which these reports are to be made. Recently there has been transmitted to your office drafts of these forms, which were designed by the Bureau of Accounting Revision of the Controller's Office and prescribed by the Controller. He stated in his letter that while the provisions of the ordinance required that he prescribe the forms, no funds were supplied to his department to cover the cost of printing them and this expense should be met by the City departments making the reports.

Commenting upon the provisions contained in Section 4 of the 1915 appropriation ordinance; in my opinion certain of the provisions cannot now be carried out by many of the City departments for the reason that their accounting methods at present in use will not develop the information required. The information required in another part of this section is of doubtful value and requires a very great amount of work. When Council is informed of the entire conditions, I believe that only such provisions will be required as can be properly observed at this time.

The general requirement that these statements are to be made within fifteen days after the close of each quarter is one which is not possible of observance; the time being insufficient.

Referring to sub-divisions (a) and (b) of this Section calling for statements as follows:

(a) Work accomplished or services rendered during the quarter and the cost thereof, on a consumption basis, classified according to the standard budget titles.

(b) Number of units of work or services in all cases where work or services can be measured in units, and the average cost per unit on a consumption basis.

When City departments and offices have developed expense and cost records which should produce the information required in the above two sections, the provisions can and should be met, for not only Council, but the Public as well should be currently supplied with this information and it should be extended to show comparisons. This statement would also have the greatest administrative value to department heads and to yourself.

Referring to the provisions of subdivision (c) of this Section:

(c) Inventory of supplies, materials and equipment.

(1) On hand at beginning of quarter.

(2) Purchased or received from general stores during quarter.

(3) Consumed or used during quarter.

(4) On hand at end of quarter.

the utility of a consumption report quarterly as above required is very doubtful. Stock accounts should be kept by City departments which will show at all times the supplies, materials and equipment on hand; but physical inventories and statements of this character should in my opinion not be required more often than semiannually and they should then be made cumulative, or in other words should contain progressive information for the entire fiscal period which may have been concluded. A statement to comply with this provision is estimated to require, by code class for each account, over six hundred large sheets—size 14 inch by 17 inch—of typewritten matter. It not being required that this report shall show the allotments to each function the value is not apparent and in my opinion should be foregone entirely.

It is not intended to convey in the foregoing the thought of a disposition to ignore or in any way disregard any requirements of this character which Council may deem wise; but I feel that during such reasonable time as may be necessary to develop the information through the use of proper records the requirements should be elastic to the point of requiring only such information as can now be furnished by the Departments.

Corrective accounting, centralized offices, etc., for City departments cannot be accomplished in any one year. A very great amount of work in the matter of proper research, design and installation of accounting methods must be done before they will be ready to comply with such provisions. Considerable progress has been made in this matter, but even with the present disposition of City departments to bring their accounting methods up to the highest degree of perfection and in line with the best business methods, we are still a considerable distance from realizing such results.

I would respectfully suggest that the matter be taken up with Council at an early date with a view to relieving us to some extent of those things which are not now possible nor of material value to them.

During the last year this office undertook some of the studies and work necessary to produce proper accounting for City departments and several preliminary surveys of the requirements have been made, but because of other work now in hand, we shall not now be able to proceed with much of this work. I have always considered this work to be of the greatest importance and whether this office or some other agency shall undertake to furnish to the departments proper systems for recording the necessary information concerning their operation or not, the work should be prosecuted constantly and with vigor during this and ensuing years.

Direct financial returns in the way of savings are not apparent at the time installations of new methods are made in any business and there is no means by which we will be able to show in dollars and cents the savings which proper accounting should provide. This should not, however, be a deterrent factor in the upbuilding of proper records.

Respectfully yours,
M. E. MOFFETT,
Chief Accountant.

No. 3153.
MAYOR'S OFFICE.
Pittsburgh, April 26th, 1915.

To the Chairman and
Members of Council of the
City of Pittsburgh.

Gentlemen:

I beg to return to you herewith Bill No. 2997 relating to storerooms Nos. 1 and 2, North Side Market, to which I refuse my approval for the following reasons:

First: Prior to resolution of Council adopted March 30th, 1915, directing the Director of Public Works to extend or continue leases in the North Side Market then in existence, until such further time as the Council should fix the duration and term of leases, etc., the said Director acting under the authority of Ordinance No. 170 approved May 1, 1913, had notified H. S. Hays and C. P. Mercer, occupants respectively of storerooms Nos. 1 and 2, that their permits or leases would not be renewed and further, issued permits for said storerooms to Alexander Sloane and Joseph R. Hite for a period of two years from the first Monday of April, 1915, and said parties are now in possession of said stalls.

Believing that the Director of the Department of Public Works acted within his lawful authority and exercised proper judgment and discretion in reference to the leasing of said satlls, I consider that his action in the matter should stand.

Second: It is plainly provided in Section Third, Article Nineteen, of the Charter Act of 1901 that the power of the Council over city markets is to be exercised by general ordinance, providing therefor suitable rules and regulations under control of the executive department within the jurisdiction of which the markets are placed, and this power was properly exercised in the form of Ordinance No. 170 relating to the North Side Market.

Third: The present ordinance is objectionable as an attempt to directly administer and assume executive functions which have been fixed by general ordinance.

For the reasons given I deem it my duty to withhold approval.

Respectfully,
JOS. G. ARMSTRONG,
Mayor.

Which was read, received and filed.

And

Bill No. 2997. An Ordinance entitled, "An Ordinance restoring and reinstating the leases of H. S. Hays and C. P. Mercer for storerooms Nos. 1 and 2 in the North Side Market, and fixing the term and the rental therefor, and providing for leases or permits therefor."

In Council April 20, 1915, rule suspended, bill read three times and finally passed.

Was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. **Woodburn** arose and said:

"Mr. President: In March of 1913, a committee charged with the preparation of an ordinance fixing the rentals of storerooms, stalls and stands in the North Side Market House met the tenants of said market in Select Council Chamber, Old Allegheny City Hall, and the question of duration of leases was finally settled by a two-years' compromise based upon the presumption that, within that time, the new Diamond Market House would be completed, and the assurance that Council would at that time determine a uniform tenure for all market houses, and upon the promise of the committee that it would advocate a five-year term. The committee in no wise pledged the Council as to its attitude toward this program, but after the late Mr. Hoeveler voiced the fear of all that the industry of years, in some cases more than half a century, would be endangered by political changes in the Council and the next administration, did vouch for the equity and integrity of the Councilmanic majority which would not be affected by the pending election. As a member of that committee and one of that majority, I propose to redeem that pledge and fulfill that promise this very day. Five of the present members of this Council voted for Section 2 of ordinance No. 170. which fixed the period of duration at two years from the first day of April, 1913, without authorizing—extension, continuance or renewal. The necessity of such authorization was not contemplated.

Anticipating the expiration of these leases because of their limitation by Ordinance No. 170, on Tuesday, the 30th day of last March, Council, by the resolution referred to in the Mayor's message, directed the proper officer, viz: the Director of the Department of Public Works, to continue or extend said leases for a period still contingent upon the completion of the New Diamond Market House. In the first reason given by the Mayor for refusing to approve Bill No. 2997, we are informed that the Director of the Department of Public Works had already notified the tenants of storerooms Nos. 1 and 2 that their leases would not be renewed, and "further," that "permits for said storerooms" had been issued to new tenants,—"for a period of two years from the first Monday of April," which was the fifth day of April—while Ordinance No. 170, from which authority is claimed for this action, designates "April 1st," exceeding by five days this questionable authority.

The second reason for refusing to approve this action of Council is as follows:

"It is plainly provided in Section 3, Article XIX, of the Charter Act of 1901, that the power of the Council over the City Market is to be exercised by general ordinance, providing therefor suitable rules and regulations under control of the executive department with the jurisdiction of which the markets are placed."

ART. XIX, SEC. 3 XLIII.

This is the summary of the corporate powers of Council, the sum and substance of "home rule", the authority and extent of self-government. This Council has evinced an increasing disposition to diminish these powers, weaken and curtail its authority or allow it to be reduced.

The tendency of this Council is positively toward that of a discredited adjunct.

The last reason for objecting to this bill becoming an ordinance of the City is that it is "An attempt to directly administer and assume executive functions, which have been fixed by general ordinance."

Show me that "general ordinance," whereby this Council, during its almost four years tenure of office, authorized and empowered any officer or empolyee of this municipality to take from any man, be he friend or foe, his property and lawful possessions and just rights, the result of years of energy and honest industry and give them, a spoil of political victory, to those so lost in avarice and self as to forget His commandment that "you love one another" even the free-masonry of human existence.

Thank God, we have, thus far, been in full and perfect agreement in intent and purpose with the spirit of that eminent jurist who declared to the jury, "It takes thirteen men to steal a man's farm."

The ayes and noes were taken agreeably to law, and were:

When the name of Mr. **Garland** was called, he arose and said:

"Mr. Chairman and Gentlemen: On every occasion upon which this matter was up in committee, or in Council, I voted against the outsting of the parties involved, but in view of the fact that the Court through Judge MacFarlane has handed down his decision to the effect that the Administration acted within its rights, and the further fact that the veto handed down fully sets forth the law in the case, I feel that I must follow the law, and therefore vote to sustain the veto."

Ayes—**7.**

Noes—**2.**

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

UNFINISHED BUSINESS.

Mr. **Herron** called up

MOTIONS AND RESOLUTIONS.

Mr. **Woodburn** presented

No. 3159.

MAYOR'S OFFICE.

Pittsburgh, Pa., April 29, 1915.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

I am returning to you Bill No. 2998. After carefully going over the same it does not appear to me that it covers the ground that is absolutely necessary for the protection of the City in connection with previous ordinance passed Bill No. 2017, file 966, providing for compensation for the use of streets.

I suggest that you insert the following as one of the sections of the amending ordinance:

"As compensation to the City for the use of the portion or portions of the street or streets as provided for in this amending ordinance, the Company agrees to pay to the City annually two (2) cents for each duct foot of conduit by it laid under or in the streets of the

City under the authority of this amending ordinance, and rental to be due on the 1st day of January each year."

This being Section 3 of the amending ordinance. What is now Section 3 will be Section 4, and what is now Section 4 of the amending ordinance will be Section 5.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

Which was read and referred to the Committee on Public Service and Surveys.

Also

No. 3160. Resolution requesting the Mayor to return to Council, without action thereon, for further consideration, Bill No. 2998, entitled, "An Odinance amending sections 1 and 2 of an ordinance entitled, 'An ordinance authorizing the Postal Telegraph Cable Company to lay and maintain underground cables, conduits and tubes beneath certain streets of the City of Pittsburgh, approved November 9th, 1914."

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And the Mayor having returned to Council, without action thereon.

Bill ,No. 2998. An Odinance entitled, "An Ordinance amending Sections 1 and 2 of an ordinance entitled, 'An Ordinance authorizing the Postal Telegraph Cable Company to lay and maintain underground cables, conduits and tubes beneath certain streets of the City of Pittsburgh, approved November 9th, 1914."

In Council, April 20th, 1915, Rule suspended, bill read three times and finally passed.

Which **was read.**

Mr. **Woodburn** moved

To reconsider the vote by which the bill was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring, "Shall the bill be read a ,second and third times and finally passed?"

The motion did not prevail.

Mr. **Woodburn** moved

That the bill be recommitted to the Committee on Public Service and Surveys.

Which motion prevailed.

Mr. **Herron** moved

That the following members be excused for absence from Council and committee meetings:

Mr. **Dillinger** on April 5th, 6th, 13th, 14th, 20th, 21st, 27th and 28th, 1915; Mr. **English** on April 27th and 28th, 1915; Mr. **Garland** on April 27th, 1915; President **Goehring** on April 27th, 1915; Mr. **Hetzel** on April 27th, 1915; Mr. **Kerr** on March 31st, and April 21st, 1915; Mr. **Rauh** on April 27th, 1915; Mr. **Woodburn** on April 27th, 1915.

Which motion prevailed.

Mr. **Woodburn** presented

No. 3161. Whereas, Prior to the making of the last municipal budget, very numerously signed petitions were presented by citizens of the North Side for the building of a bridge from the Perrysville avenue district over and across the East street valley to Spring Hill, and that by reason of said petition, a report was prepared by the Department of Public Works which called for a bridge starting at Charles street and continuing across the valley and over East street, terminating at a point near Geyer road at or near the dividing line between the City and Reserve township; and

Whereas, The City felt that it was unable to make said improvement because of the large cost of the same; and

Whereas, It is believed that said improvement would be not only highly beneficial to the City in the district concerned, but would be also of great convenience to the residents of the adjoining townships; and

Whereas, In view of these facts, the County Commissioners have signified their willingness to consider, in connection with the City, the feasibility and advisability of the erection of said bridge: now, therefore, be it

Resolved, That a special committee of three members of Council be appointed to take up the above matter with the County Commissioners, and after consideration of the same report to this body.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed as members of said special committee, Messrs. **Woodburn, Kerr, Hetzel.**

Mr. **Herron** presented.

No. 2162. An Ordinance providing for the making of a contract or contracts for furnishing fuel for Brilliant Pumping Station. Ross Pumping Station, Herron Hill Pumping Station, Montrose Pumping Station, Howard Street Pumping Station, Aspinwall Pumping Station. Lincoln Pumping Station. Troy Hill Pumping Station, Mission Street Pumping Station, Pittsburgh City Home and Hospital, Marshalsea, and the North Side City Home at Warner Station. for one (1) year. from June 1st, 1915, to June 1st, 1916.

Which was read and referred to the Committee on Finance.

And there being no further business before the meeting, the **Chair** declared Council Adjourned.

Pittsburgh, Pa., Tues., May 11th, 1915.

At a meeting of Council held this date the remarks of Mr. **English** made at the meeting of Council held Tuesday, May 4th, 1915, on "Bill No. 2997, An Ordinance restoring and reinstating the leases of H. S. Hays and C. P. Mercer for store-rooms Nos. 1 and 2 in the North Side Market and fixing the term and the rental therefor, and providing for leases or permits therefor," which was returned by the Mayor with his objections, were ordered to be made a part of the minutes of the proceedings of Council of May 4th, 1915, and are as follows:

"Mr. President and Gentlemen: I regret very much that I cannot agree with His Honor, the Mayor, in the conclusions he reaches in his veto of the ordinance now before us.

"I have been informed, and if the information is correct, some person connected with the Law Department has given the Mayor, in my opinion, some bad advice. The members of Council will recall that on March 30th, 1915, by unanimous vote, a resolution was passed in which the Council requested that the leases for the store-rooms and stalls in the North Side Market be extended until such time as the Council would pass a new ordinance in which the new rentals would be fixed for this market along with these for the new Diamond Market, which is not yet ready for occupancy. I have been informed that the Law Department gave the Mayor an opinion that this resolution was merely advisory and that it was not necessary for the Mayor to pay any attention to this resolution for the reason that it had not been referred to committee, then referred affirmatively from committee to the subsequent meeting of Council, and then passed by second and third readings to the Mayor, and then receive the Executive's signature, or else come back to Council with a veto, or allowed to become a law without the signature of the Mayor. If the Law Department gave any such advice, and if the Mayor followed that kind of advice, to my mind, it is simply a technical method of endeavoring to observe the letter of the law and ignore the spirit of it.

"It seems to me that if there was any question about the legality of Council's procedure in passing this resolution on March 30th, it would have been at least common decency and courtesy on the part of the Law Department and the Mayor to come before Council and ask for a conference, in order to determine what would be done in this matter. In the absence of such conference and acting under such bad advice, the Executive would be able to carry out any resolutions with which he was in sympathy and ignore any other resolutions with which he did not agree, and the Council would never be informed as to his action in either case.

"In this present matter of taking away from reputable tenants leases which they were enjoying by virtue of the Council's legal ordinance and deprive such reputable persons of their valuable rights is, to my mind, an outrageous breach of faith. To hide behind any subordinate officer or the Law Department and permit any lease holder of the city to be deprived of his rights has no justification whatever in this enlightened day. It is particularly distasteful to think that the Law Department, which is the legal representative of the Council as well as the Mayor, to step in between and give either one advice contrary to the opinion of the other without giving both parties the same decision and deprive either or both of an opportunity to take such further action as they would deem necessary, is, to my mind, the principal reason why we should pass this ordinance over the veto of the Mayor in view of the fact that the resulting complicated situation is due to the bad advice of the Law Department.

"It is the duty of the Council under the law to fix the rents to be paid by lease holders in the markets, and it is our duty to see that the markets as well as every other department of the City shall be so operated as to insure equal rights to all the citizens of the City. In other words, it should not be left to the discretion of any official to permit political influence or any other kind of influence to interfere with the handling of the City's business, in such a manner as to result in any injustice to any citizen, taxpayer or lease holder. Our duty in this matter is plain.

"We are elected at large by the majority vote of all the voters of the City, and in my opinion Council should stand for equal rights for all the people of the City and resist to the utmost the actions of any other official who endeavors to deprive any citizen of his rights. This resistance should be applied with equal force to any City official whether it be His Honor, the Mayor, the City Solicitor, the Director of any department or the superintendent of any bureau or any other official. We know that an injustice has been done two tenants in the North Side Market; they have been deprived of their just and legal rights. To prevent this injustice we passed a resolution on March 30th and now we make it more specific by naming these persons in the ordinance now before us today, which has been vetoed by the Mayor, and in spite of the interference of the City Solicitor in representing the Mayor only in the injunction suit before the Court and ignoring the Council, who do not agree with the Mayor in this matter, it seems to me the only thing for us to do is to pass this ordinance today over the veto of the Mayor and if any further action is necessary, I for one am prepared to go as far as possible in order to secure for these two tenants their just and legal rights. I am therefore compelled to vote for this ordinance to become a law notwithstanding the veto of the Mayor."

Proceedings of the Council of the City of Pittsburgh

Vol. XXXXVIIII Tuesday, May 11, 1915, No. 23

COUNCIL

JOHN M. GOEHRING .... President
E. J. MARTIN .... City Clerk
ROBERT CLARK ..... Assistant City Clerk

Pittsburgh, Pa., Tues., May 11th, 1915.

Council met.

Present—Messrs.

English	Kerr
Goehring (Pres't)	Rauh
Herron	Woodburn
Hetzel	

Absent—Messrs.

Dillinger	Garland.

The **Chair** stated that as there were no objections, the reading of the minutes of the previous meeting would be dispensed with.

Mr. **English** arose and stated:

That it is his desire to have the remarks made by him on the veto of the Mayor on Bill No. 2997, An Ordinance restoring and reinstating the leases of H. S. Hays and C. P. Mercer for storerooms Nos. 1 and 2 in the North Side Market and fixing the term and the rental therefor, and providing for leases or permits therefor, inserted in the minutes of May 4th, 1915.

The **Chair** said

"Notwithstanding the fact that this matter has been passed upon by Council in a motion that remarks shall not be inserted in the minutes unless reduced to writing and so requested, I am of the opinion that it is not a proper matter to be controlled by a motion of Council; that it should be controlled by a rule of Council. The rule, as I understand it in parliamentary practice, is not to insert speeches or remarks as part of the minutes. While our rules of Council do not specifically refer to that matter, the rules of Council do generally refer to the fact that matters not specifically referred to by the rules shall be controlled by parliamentary practice. Therefore, I am ruling, notwithstanding the motion made about a year ago, that the matter can only be controlled by a rule of Council. Under the present status, unless my decision is appealed from, and in the future, it shall be the rule of Council that remarks shall not be part of the minutes."

Mr. **English** arose and stated:

That he did not wish to appeal from the decision of the chair, but simply wished to make a motion to amend the minutes of the last meeting so that they shall include his remarks made on the Mayor's veto of Bill No. 2997.

Mr. English moved

To amend the minutes of the proceedings of Council of May 4th, 1915, by the insertion of his remarks on the Mayor's veto of Bill No. 2997.

Which motion prevailed.

And the minutes, as amended by the insertion of Mr. **English's** remarks, were approved.

REPORTS OF COMMITTEES.

Mr. **Herron** (for Mr. **Garland**) presented from the Committee on Finance, with an affirmative recommendation.

No. 3242. Report of the Committee on Finance for May 12th, 1915, transmitting sundry papers to Council.

Which was read, received and filed.

Also

Bill No. 3182. An Ordinance entitled, "An Ordinance amending Section 1 and the title of an ordinance entitled, 'An Ordinance authorizing and regulating the payment to persons in the employ of the City of Pittsburgh, of salary or wages, during absence from their employment, by reason of illness contracted, or injuries sustained while in the performance of their duties, approved April 7th, 1915.' "

Which was read.

Mr. **Herron** moved.

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger	Hetzel
English	Kerr
Goehring (Pres't)	Rauh
Herron	Woodburn

When the name of Mr. **Rauh** was called, he arose and said.

"In explanation of my stand on this bill, I desire to state that I am compelled to vote for it in the interest of efficiency and also to serve the interest of the taxpayers. When, during the last Legislature, I succeeded in having enacted the measure commonly known as 'The Rauh Act', authorizing cities of the first and second class to compensate employes for time lost while in the employ of the City, as a result of injuries, sickness or disability at any time sustained while in the performance of their duties—I did it feeling that the City would not be taken advantage of by any of its employes, but of late some city employes have asked for claims under this Act which, in my opinion, are unjust.

This bill still gives the employes of the City a certain compensation for illness contracted or injuries sustained while in the performance of their duties, but the provisions are such that it will be far more difficult to impose upon the City after its passage than if this bill were not in force.

While I am still of the firm opinion that all employes of the City should be paid in full, as stated in the Rauh Act, nevertheless owing to the reasons aforementioned, I deem it my duty to vote for this bill."

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 3163. Resolution authorizing the issuing of a warrant in favor of Vinton F. Porter, Secret Service Operative of the Bureau of Police for the sum of $20.00, reimbursing him for expenses in trip to Cleveland in the discharge of his duties, and charging the same to Code Account No. 42, Contingent Fund.

Which was read.

Mr. **Herron** moved.

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dillinger
English
Goehring (Pres't)
Herron
Hetzel
Kerr
Rauh
Woodburn

Ayes—8.

Noes—None.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Also

Bill No. 3187. Resolution authorizing the issuing of a warrant in favor of Frank R. Liggett in the sum of $157,00. refuding overpaid water rate on property at 6308, 6310 and 6314 Penn avenue, and charging same to Appropriation No. 41.

Which was read.

Mr. **Herron** moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dillinger
English
Goehring (Pres't)
Herron
Hetzel
Kerr
Rauh
Woodburn

Ayes—8.

Noes—None.

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, May 24th, 1915.

To the Council.

Gentlemen:

I submit herewith for your information a statement showing the amount of warrants drawn, vouchers registered, etc., and the balances remaining to the credit of the several appropriations as of March 31st, 1915.

Respectfully,
E. S. MORROW,
City Controller.

DEPARTMENT OF LAW.

Pittsburgh, May 20th, 1915.

Hon. John M. Goehring,
President of Council,
City Hall, Pittsburgh, Pa.

Dear Sir:

Pursuant to arrangement I beg to advise the Council that the proceedings instituted at No. 1685 April Term, 1915, Docket "A" for condemnation of lands of Theodore Lau, et al., for Beechview Playground, have resulted in an award in favor of the owners aggregating $19,500.00. This is $7,000.00 in excess of the amount set aside or designated in the Budget for this purpose. This being the case before proceeding further in the matter of appeals, or otherwise, I desire to have the decision of Council in the premises. While the several awards may be reduced on trials of the appeals, this, of course, of conjectural, and if it should be determined by the Council that only $12,000.00, or close to that sum is available for this purpose, the only safe course is to stop the proceedings and rescind.

Respectfully yours,
CHARLES A. O'BRIEN,
City Solicitor.

Which were severally read and referred to the Committee on Finance.

Also

No. 3295. Communication from The New Future Association, Mrs. J. C. DeNoon, President, inviting Council to participate in an informal farewell luncheon to be given Rolla H. McBride, Superintendent of the Parting of the Ways Home, on Friday, May 28th, 1915, at the Fort Pitt Hotel.

Also

No. 3296.

MAYOR'S OFFICE.

Pittsburgh, May 21, 1915.

To the President and Members
of City Council,
City of Pittsburgh.

Gentlemen:

Bill No. 3036 which is before me for my approval or disapproval: Would state that the facts set forth in the bill are absolutely the duties of the

Civil Service Commission, and an ordinance is not required, as the Act of Assembly creating the Civil Service Commission covers all such conditions. However, this bill is a step in the right direction and feeling that same should be put into force as soon as possible and at least before the next appropriation bill that Council will have to make, I am adding my signature to same.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

Which were read, received and filed.

UNFINISHED BUSINESS.

Bill No. 3222. An Ordinance entitled, "An Ordinance authorizing and directing an increase of indebtedness of the City of Pittsburgh in the sum of ninety thousand dollars, and providing for the issue and sale of bonds of said City in said amount, to provide funds for the payment of the difference between the total cost, damages and expenses and the special benefits arising to property benefited by the relocating, widening, extending, change of grade, grading, paving, curbing and otherwise improving of Hamilton avenue, and providing for the redemption of said bonds and the payment of interest thereon."

In Council May 22nd, 1915, read a first time.

Which was read a second time and agreed to.

Mr. **Garland** moved

A suspension of the rule to allow the third reading and final passage of the bill.

Which motion prevailed.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger
English
Garland
Goehring (Pres't.)
Herron
Hetzel
Kerr
Rauh
Woodburn

Ayes—9.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

MOTIONS AND RESOLUTIONS.

Mr. **English.** presented

No. 3297. Whereas, In the Bond Issue Election of 1910 the citizens of Pittsburgh approved an item of $55,000.00 for the straightening, widening and improvement of Webster avenue, from Fullerton street to Roberts street; and

Whereas, It will be necessary to secure the co-operation of abutting property owners owing to the vacation of the present street in exchange for acquiring private property for the new street; therefore, be it

Resolved, That the President of Council appoint a committee of three members of Council to confer with His Honor, the Mayor, the Director of the Department of Public Works and the property owners interested in an effort to bring about the improvement of Webster avenue.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed, as members of said special committee, Messrs. **English, Garland** and **Kerr.**

Mr. **Garland** presented

No. 3298. Whereas, Leo M. Frank, of Atlanta, Georgia, has been convicted of murder in the Circuit Court of Fulton County, Georgia, and although the trial judge of said court expressed doubt as to his guilt, was sentenced by said court to be hanged on June 22, 1915; and

Whereas, His conviction was, according to the opinion of a large number of competent and unprejudiced persons who have investigated the matter, influenced by unusual conditions which deprived the said Leo M. Frank of a fair and free trial; and

Whereas, The Governor of the State of Georgia has the right and power in his discretion to commute the sentence of and pardon persons convicted of crime; and

Whereas, While it does not behoove any person to question a verdict rendered by his fellow citizens, or the decision of any regularly constituted court of justice, yet, in a question of mercy and where a human life is at stake, no person should hesitate to ask that the power of the Governor to commute a sentence be extended to any unfortunate who may come under the jurisdiction of the law, and especially where such circumstances as have surrounded the trial and conviction of said Leo M. Frank prevail; now, therefore, be it

Resolved, That the Council of the City of Pittsburgh, Pennsylvania, petition and request His Excellency, Hon. John M. Slayton, Governor of the State of Georgia, if his judgment, combined with human compassion, will allow him to do so, that he take such action as he shall deem right and proper to commute to life imprisonment the sentence already imposed on said Leo M. Frank; and

Resolved Further, That the Clerk of Council be and he is hereby directed to write to His Excellency, Hon. John M. Slayton, Governor of the State of Georgia, notifying him of the adoption of these resolutions and sending him a copy thereof.

Which was read.

Mr. **Garland** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Herron** presented.

No. 3299. Whereas, The Pittsburgh Railways Company in past years has refused to give transfers on July 4th, on the ground that it causes delays owing to the great number of people traveling on that day; and

Whereas, The Council of the City of Pittsburgh believe that the citizens would rather endure a slight delay if they could get the transfer on July 4th; therefore, be it

Resolved, That His Honor, the Mayor, be requested to have the City Solicitor ask the Public Service Commission to grant a hearing on the matter of transfers on July 4th and use every available means to secure a decision promptly.

Which was read.

Mr. **Herron** moved,

The adoption of the resolution.

Which motion prevailed.

Mr. **Woodburn** presented

No. 3300. Whereas, For many years two real relics—a small cannon and a ten-inch Columbiad—have peacefully reposed in West Park on the North Side, whose history, if made known, would not only be instructive, especially to the younger generations, but would also determine a greater appreciation of them and fix their value in public esteem; therefore, be it

Resolved, That the Director of the Department of Public Works be authorized and directed to place upon each of these memorials a tablet bearing its respective legend as set forth in the historical sketches hereunto attached.

SMALL CANNON.

Composed of pieces of cannons and shells brought from England by General Braddock, which after his defeat by the French and Indians, were destroyed by Colonel Dunbar to prevent their bei~~ used by the enemy. Abe Patterson Post, No. 88, G. A. R., employed the inmates of the Soldiers' Orphans School on Mount Dunbar, Penna., to gather the fragments from which this cannon was cast, and presented it to the Allegheny Parks in commemoration of the first war in America, with which local history is vitally interwoven.

10-INCH COLUMBIAD.

In December, 1860, Secretary of War Floyd, a Southerner, in President Buchanan's Cabinet, desiring to assist the South by transfer of munitions of war from the arsenals in the North to those in the South, ordered the transfer of 124 heavy cannon from the Allegheny Arsenal to New Orleans. Meetings of citizens were held in Pittsburgh and Allegheny, at which they pledged themselves to oppose the transfer by force if necessary. This Columbiad had been loaded with 34 others on the Steamer "Silver Wave", but was removed by the citizens to the wharf. Protests were sent to the President and fiinally the order for their removal was countermanded. In 1893, Congress, by resolution, donated this cannon to the Allegheny Parks, a memento of the loyalty of her citizens.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

Which was read and referred to the Committee on Finance.

Mr. **Woodburn** presented from the Special Committee.

No. 3334.

To the Members of Council:

The undersigned special committee, appointed by Council to consider, in connection with the County Commissioners, the matter of erecting a bridge across the East Street Valley from a point on Charles street to a point near the Township line, would respectfully report.

That they viewed the location with the County Commissioners and that they feel that a bridge such as proposed would be very desirable; that it would afford communication and connection between the present inhabitants of the Hill Tops and would be followed up by the improvement of large tracts of at present unimproved property. They would, however, report that there is a great difference of opinion with regard to the cost of such improvement and that the construction of said bridge would be largely dependent upon its being built at a cost that would justify, in view of the number of people to be accommodated thereby.

Your committee would therefor advise and recommend that the City Engineering Department, in connection with the Engineers of the County, agree upon and prepare plans and specifications for such a structure as they may think desirable which will give sufficient data from which estimates may be obtained from contractors as to the probable cost of such structure, and it therefore presents with this report a resolution authorizing and directing the preparing in connection with the County Engineers of such plans and specifications.

Ch. H. HETZEL,
J. P. KERR,
S. S. WOODBURN,
Chairman.

Which was read, received and filed.

Also

No. 3335. Resolved, That the Director of Public Works be requested, in connection with the Engineers of the County, to prepare plans and specifications for a bridge over the East Street Valley from a point on Charles street to a point near the township line, which plans and specifications shall be sufficiently specific to all contractors to give estimates as to the cost of erecting said structure.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

No. 3376.

MAYOR'S OFFICE.

Pittsburgh, June 8, 1915.

To the President and
Members of Council,
City.

Gentlemen:

Under date of May 5th, resolution to transfer $735.00 from Appropriation No. 42, Contingent Fund, to Appropriation No. 1637, Miscellaneous Services, Bureau of Water, to provide moneys for the rent of offices of the Bureau of Water, in conformity with an ordinance of Council authorizing leases for their space, was introduced into Council.

This resolution was referred to a committee of Council consisting of Messrs. Dillinger, Hetzel and Herron. To date no further action has been taken and I am respectfully calling this to your attention for the reason that a lease for the rooms occupied by the Bureau of Water cannot be executed until this money is provided, as the amount of money in the fund for Miscellaneous Services, Bureau of Water, is not adequate by the above amount.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

No. 3380.

MAYOR'S OFFICE.

Pittsburgh, June 7th, 1915.

To the Council of Pittsburgh,
Council Chamber, Pittsburgh.

Gentlemen:

I have before me your resolution that I instruct the City Solicitor to proceed in the matter of bringing before the Public Service Commission the subject of compelling transfers by the Pittsburgh Railways Company for the Fourth of July.

This matter, as you know, has been under discussion for some time past and is one of the subjects covered by conferences heretofore held between the representativs of the Railways Company, the Administration and the Council.

I am advised by the City Solicitor that it would be utterly impracticable to attempt the presentation to the Commission of the question of transfers in Pittsburgh with any hope of results for the coming Fourth of July.

With this knowledge in view I immediately started negotiations with President Callery of the Railways Company and have succeeded in obtaining the desired result of the present year, that is, that the usual transfers are to be issued in Pittsburgh for July 4th, 1915, and subsequent thereto the matter, if not permanently settled by negotiation, will be presented, with other subjects in connection with the railway service, to the Public Service Commission for settlement and adjudication.

Respectfully,
JOS. G. ARMSTRONG,
Mayor.

Which was read, received and filed.

MOTIONS AND RESOLUTIONS.

Mr. **Rauh** presented

No. 3385. Whereas, A bill known as Senate Bill 490 has passed both Houses of the Legislature; and

Whereas, The bill contemplates assessing the taxpayers of our city one mill for the upkeep of our public libraries; and

Whereas, This additional burden would cost our taxpayers almost $500,000 per year additional to what is now being appropriated by the City; and

Whereas, The people of our city are already too heavily tax ridden; and

Whereas, This bill would increase taxation over one-half mill; therefore, be it

Resolved, That it be the unanimous opinon of the Council, which is the tax-levying power of our city, that this unjust and unnecessary bill should be vetoed; and be it further

Resolved, That a copy of these resolutions be forwarded at once to His Excellency, Governor Martin G. Brumbaugh.

Which was read.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Dillinger** called up

COUNCIL

JOHN M. GOEHRING . . . . President
E. J. MARTIN . . . . City Clerk
ROBERT CLARK . . . . . Assistant City Clerk

Pittsburgh, Pa., Tues., June 15th, 1915.

Council met.

Present—Messrs.

Dillinger
English
Goehring (Pres't)
Herron
Hetzel
Kerr
Rauh
Woodburn

Absent—Mr. Garland.

The **Chair** arose and said:

"Gentlemen, I presume the members of Council saw in the newspapers of the other day a notice that the President of Council proposed to give each member an opportunity to preside over at least one session of Council. Carrying out that suggestion, and commencing with the member whose name appears first in the roll-call, I ask that Mr. **Dillinger** take the chair."

And thereupon Mr. **Dillinger** took the chair.

The **Chair** stated that as there were no objections, the reading of the minutes of the previous meeting would be dispensed with.

PRESENTATIONS.

Mr. **Goehring** presented

No. 3394. Whereas, The City of Pittsburgh had on deposit with the German National Bank the sum of forty-one thousand, three hundred forty-eight dollars and ninety-nine cents ($41,348.99) of which twenty thousand one hundred and sixteen dollars and thirty-nine cents ($20,116.39) was due directly to the City of Pittsburgh and twenty-one thousand, two hundred thirty-two dollars and sixty cents ($21,232.60) was in the account of the Monongahela Bridge Company of Pittsburgh, all the stock of which is owned or controlled by the City of Pittsburgh; and

Whereas, A Receiver has been appointed for the German National Bank and a plan has been proposed by the depositors and stock-holders' committee whereby the City would receive eighty-five per cent. of its deposits upon the carrying out of said plan and a depositor's certificate for the remaining fifteen per cent., which would bear three per cent. interest; and

Whereas, It is necessary that the said committee should be informed as to the willingness of the City to accept the said plan; and

Whereas, It appears to be for the best interest of the City to approve the said plan; now, therefore, be it

Resolved, That the City Treasurer be and he is hereby authorized and directed to signify to the said committee the willingness of the City to accept said plan as proposed in the communication of May 24, 1915, and the proper officers of the City are further authorized and directed to enter into the proposed depositors' agreement dated the 24th day of May, 1915.

MAYOR'S OFFICE.
Pittsburgh, June 11th, 1915.

To the President and
Members of Council.

Gentlemen:

While I have signed Bill No. 3269, Resolution relative to leasing property from Geo. V. Kimberlin on Kenwood avenue and Federal street, and Bill No. 3268, Resolution setting aside $500 from Appropriation No. 42 for the purpose of improving property leased from Geo V. Kimberlin, nevertheless I feel that in all such cases the amounts which the City is obligated should be specified in the body of the ordinance or resolution.

In the cases above referred to, for your information, I enclose a report giving the data which I think should have been contained in the resolution.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

DEPARTMENT OF ASSESSORS.
Pittsburgh, June 10, 1915.

Hon. Jos. G. Armstrong,
Mayor,
City of Pittsburgh.

Dear Sir:

Concerning enclosed resolution would say that the Kimberlin property contains 6.217 acres and is assessed at $5,500.00 upon which the City taxes for 1915 are $111.10. For four years the taxes would approximate $440.00.

Yours respectfully,
BOARD OF ASSESSORS,
By Thomas J. Hawkins,
Chief Assessor.

Which were read, received and filed.

Mr. **English** moved

That the Director of the Department of Public Works furnish a report to Council as to whether or not the City is using for playgrounds the whole of Mr. Kimberlin's property and the assessed valuation of it; or whether the City is only using a portion of the property for playgrounds and in that case to furnish the assessed valuation of the portion of the property used.

Which motion prevailed.

The **Chair** presented

No. 3432
CITY COUNCILS,
Philadelphia, Pa., June 12, 1915.

Mr. E. J. Martin,
City Clerk,
Pittsburgh, Pa.

Dear Sir:

In reply to your communication of June 9th, permit me to say that you will find by the enclosed copy of Itinerary of the "Liberty Bell" to San Francisco the special train runs through Pittsburgh at 3 A. M. Compliance with the request of the Council of Pittsburgh would disarrange the whole Itinerary, which at this late day is not possible.

Permit me to suggest that in all probability an arrangement could be made on the return of the "Bell" to comply with the request. I shall have the matter referred to the proper Committee for future action.

Very truly yours,
WM. H. FELTON,
Chief Clerk.

Copy of Itinerary attached.

Which was read, received and filed.

Which was read.

Mr. **Goehring** moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

At this time Mr. **English** arose and read extended remarks, which he asked to have inserted in full in the minutes of today's proceedings of Council.

Mr. **Goehring** arose to a point of order and stated that at the meeting of Council, held May 11th, 1915, the **Chair** ruled as follows:

"Notwithstanding the fact that this matter has been passed upon by Council in a motion that remarks shall not be inserted in the minutes unless reduced to writing and so requested. I am of the opinion that it is not a proper matter to be controlled by a motion of Council; that it should be controlled by a rule of Council. The rule, as I understand it in parliamentary practice, is not to insert speeches or remarks as part of the minutes. While our rules of Council do not specifically refer to that matter, the rules of Council do generally refer to the fact that matters not specifically referred to by the rules shall be controlled by parliamentary practice. Therefore, I am ruling, notwithstanding the motion made about a year ago, that the matter can only be controlled by a rule of Council. Under the present status, unless my decision is appealed from, and in the future, it shall be the rule of Council that remarks shall not be part of the minutes."

In accordance with that ruling, and in my judgment the remarks as made by Mr. **English** should not become a part of the minutes of the proceedings of Council. There was no appeal from the ruling of the **Chair** on May 11th, and if there were objections to the ruling, then was the time to make them.

The **Chair** ruled that under the ruling of the **Chair** as made on May 11th, 1915, the point of order is well taken.

Mr. **English** arose and stated:

That if that is the ruling of the **Chair** today he would have to appeal from the decision; but that he would much prefer not to do so. In his judgment it would be practical if the remarks of members when reduced to writing should be inserted in the minutes of Council on motion and the subject left to a vote of Council.

Mr. **Herron** moved,

That the remarks of Mr. **English** be printed in full in the minutes.

Mr. **English** arose and withdrew his appeal from the decision of the **Chair.**

Mr. **Goehring** arose to a point of order, and stated: "That motions and resolutions at this time were out of order and that the **Chair** could not now entertain a motion of this character, and in order to entertain the motion it would require a suspension of the rule."

The **Chair** ruled the point of order well taken.

And there being nothing further before the Council, the **Chair** ordered that the Clerk proceed with the regular order of business.

And the resolution as read a second time was agreed to.

And the resolution was read a third time and agreed to.

And upon final passage the ayes and noes were taken and being taken, were:

Ayes—Messrs.

English
Goehring
Herron
Hetzel
Kerr

MOTIONS AND RESOLUTIONS.

Mr. **Herron** moved,

That the remarks of Mr **English** this day made on Bill No. 3336, Resolution appropriating the sum of $5,000 from the Contingent Fund, Appropriation 42, for the maintenance of engine houses, discontinued in the 1915 budget, and the sum of $12,000 for the wages of at least twenty firemen to man the said engine houses for a period of six months, be printed in full and made a part of today's meeting.

Mr. **Goehring** arose to a point of order and stated "That this motion is entirely out of order and not a proper motion to be acted on at this time in view of the rules of Council." However, he did not want to be technical; but stated that if the Council had rules of order they should be followed in all cases and that the ruling made on May 11th should govern the Council in this respect. He further stated that he did not have any objections to having the remarks made a part of the record of Council, if it is the wish of the members.

The **Chair** stated

That the point of order "appeared to be well taken" in accordance with the ruling of the Chair made at the meeting of Council, held May 11th of this year, and therefore decided the point of order "well taken."

Mr. **Kerr** arose and appealed from the decision of the Chair.

Mr. **Goehring** moved

To lay the appeal from the decision of the **Chair** on the table.

Which motion was not seconded.

President, Pro Tem. **Dillinger** called Mr. Woodburn to the Chair.

And Mr. **Woodburn** taking the Chair said:

The question before Council is, "Shall the decision of the Chair be sustained?"

All in favor of sustaining the decision of the Chair will vote Aye; those opposed, No, and directed the Clerk to call the roll:

Ayes—Messrs.

Goehring

Noes—Messrs.

Dillinger (Pres't Pro tem.)	Kerr
English	Rauh
Herron	Woodburn
Hetzel	

When the name of Mr. **Dillinger** (President, Pro. Tem.) was called, he arose and said:

"Gentlemen:

I was not here on May 11th, but from the remarks made by Mr. **Goehring** I believe he is quite right when he says that the members of Council should have contested his ruling at the time it was made. However, I want to say that I am opposed to that ruling, for the reason that all legislative bodies, as far as I know, allow the remarks of members to be inserted as part of the minutes. It does strike me that very often the remarks of members when inserted in the minutes are merely cumbering the record, but that is the privilege the members have. I will have to vote against the ruling for those reasons."

When the name of Mr. **Goehring** was called, he arose and said:

"Mr. President and Gentlemen:—I vote Yes with this explanation: That I am not opposed to placing remarks in the printed records of Council if it is the desire of the members that that should be done; but I want to say that this should be governed by a rule of Council. I therefore want to say further that the rules of Council should be changed or amended so as to conform to that wish, and not by a motion or by a ruling of any presiding officer."

When the name of Mr. **Kerr** was called, he arose and said:

"Mr. President and Gentlemen:—At the time this ruling was made I think that the members of Council did not recognize the purport of the ruling. I am quite sure that no one appreciated the vast scope which the ruling was intended to cover. I am quite sure that an appeal would have been taken at that time had the members of Council recognized the position in which they would be placed and in which we find ourselves today had we known the exact meaning of the ruling. The minutes of any legislative or deliberative body is the record of that body and incorporates all the transactions of the body. The Congressional Record is the minutes of the proceedings of the Congress at Washington, and all the speeches made by the members of Congress are printed in the record The same is true with every legislative body in the United States and, I believe, the English Parliament; and until parliamentary authority or procedure is furnished me, showing that my view on this matter is incorrect, I shall most certainly oppose any such ruling as was made on this subject. I therefore vote No."

When the name of Mr. **Rauh** was called, he arose and said:

"Mr. President and Gentlemen:—In voting No. I wish to state that in every parliamentary body that I attended, the members that wished to explain their vote on any matter had the privilege of doing so, and any member of this Council or any legislative body should have an opportunity of explaining his vote and have his remarks placed in the record."

Ayes—**1.**

Noes—**8.**

And the **Chair** (Mr. **Woodburn**) stated

That as there was not a majority of the votes of Council in the affirmative the decision of the Chair was not sustained.

At this time, President, Pro. Tem., **Dillinger** resumed the Chair.

And the question recurring, "Shall the remarks of Mr. English on Bill No. 3336 be printed in full and made a part of the record of today's meeting, as moved by Mr. Herron?"

The motion prevailed.

And Mr. **English's** remarks are as follows:

Mr. President and Gentlemen: The principle involved in this resolution is of such vital importance that I have prepared the following statement, which I desire to have recorded in the printed record of Council proceedings.

I do not think the Council has given this appropriation of $17,000 the consideration it deserves; particularly, in this respect, we are asked to appropriate this money without any detail report in writing either from the Director of the Department of Public Safety or the Chief of the Bureau of Fire. In view of the fact that we have required the City Solicitor to furnish a written approval of Resolution, Bill No. 3369, for $18.00, being a refund of taxes, it seems to me we should require the Chief of the Fire Bureau or the Director of the Department of Public Safety to give us some detail statement regarding the expenditure of the money which we are asked to appropriate in this resolution.

To my mind we are simply coming back to the propostion which was advanced during the budget hearings, namely, the closing of a certain number of fire engine houses. At that time I objected to the closing of any fire engine houses without a comprehensive study of distances, motorization and the balancing of the advantages against disadvantages in closing certain engine houses. I warned the members of the Budget Committee that we would have delegations from boards of trade demanding that the engine houses be not closed; and in addition to that we would have pressure brought from the members of the Fire Department who desire to retain their position. In addition to that we have the responsibility of being a party to loading up the pension roll at the rate of $600 a year for every man who is forced to go on the pension roll.

It now seems that the Mayor realizes the importance of this matter and that the Council is practically back to the budget hearing again. I do not know whether it is the intention of the Department of Public Safety to continue these engine houses in use after the expenditure of the money proposed in this resolution; I do not know whether they will call upon us to appropriate money in the next budget to continue these engine houses; I do not know whether it is the plan of the Department to abandon one or five or any number of engine houses; I do not know whether it is the plan of the Department to make an honest endeavor to try out the two-platoon system with as few men as is necessary, or whether they intend to stick to their original statement that it required 200 additional men to operate the two-platoon system. In fact, I do not possess the information which should be given voluntarily by the Department of Public Safety before we could intelligently determine what to do with this resolution. Perhaps some members of this Council have been given some advanced information by the Department and perhaps that is the reason for passing this resolution without a complete detail report in writing; but I, for one, am opposed to granting any appropriation unless the Council has all the information it desires.

However, the question is of such vital importance to certain districts in the City that I am willing to run the risk of making a mistake by voting for ths appropriation and I do so with apprehension as to the outcome. I do not fear the criticism of any citizen or set of citizens in a matter in which I have complete information which would enable me to determine what the proper course should be, for I would then be in a position to view with satisfaction my course in opposing or favoring any ordinance in this Council. However, in view of the fact that the information on this subject has been denied me and this denial has practically been approved by the Council in committee meeting, although we still have three weeks before July 1st, which would give us ample time to have a conference with the officials concerned in this matter; yet, believing that the best interests of the taxpayers and property owners will be served if we continue in operation all of the engine houses and all of the men who are able to perform efficient service as firemen, I believe it is my duty to vote to allow the appropriation, although, at the same time, I must record my disapproval of the manner and method in which they have gone about this matter.

I propose to vote for this resolution with the distinct understanding and warning that this item of $17 000 will not be cast up in the next budget as an emergency or as a contingency. On the contrary, it is neither; for the matter was thoroughly discussed during the budget hearing, and I was one of the members who was outvoted by the determination to cut down the appropriation. Every member of Council knew that the salaries of 37 men for the last six months of this year were not provided in the appropriation ordinance of 1915.

It matters not to me whether any or all of the members of Council are consistent in their attitude, but for my part I have not changed from the position I maintained during the budget hearings. I sincerely hope that the Council will require the Department to disclose more of its plans before this money is expended. I for one am determined to insist that by July 15th the director of each department shall place in the hands of Council a report of the receipts and expenditures for the first six months of the year 1915. You will recall that I asked for this information at the end of the first quarter, but owing to neglect on the part of some person it was not furnished and the Council was promised a report for the first and second quarters by the end of June. Believing that such a report will be of help in determining whether or not the money has been judiciously spent in all the departments of the City, particularly in the Department of Public Safety, I propose to vote for this resolution.

DEPARTMENT OF LAW.

Pittsburgh, June 21st, 1915.

To the Council,
Municipal Building,
Pittsburgh, Pa.

Gentlemen:

It seems advisable in view of the time and effort spent by the Law Department in securing legislation at Harrisburg during the last session of the legislature to report to Council the matters which were considered for legislation, and briefly the history of this legislation.

A number of bills were prepared dealing with the question of the revenues of the City, all of which failed of final passage.

These bills included a bill to make a uniform tax on both buildings and land, which was vetoed by the Governor.

A bill to permit a tax on poles, wires and tracts.

A bill to permit cities of the second class to make a switch license charge.

A bill to permit cities of the second class an annual license tax on automobiles.

A bill to permit charges on public bridges sufficient to pay the cost of maintenance, and to provide a sinking fund.

All of these bills failed of passage either in the House or the Senate.

Two bills were prepared for the purpose of conferring additional powers upon cities of the second class relating to street railways, either surface, elevated or subway. Both of these bills were vetoed by the Governor.

The veto of these two bills, particularly the bill providing for the construction of underground tubes and subways to be used either for street passenger railway companies or for pipe gallery purposes operates to delay the consideration of these matters for another two years. In view of the time which must necessarily elapse between the study of such matters and the actual construction work it seems especially unfortunate that the City should be deprived of the power which it so manifestly needs in dealing with the transportation problem and the improvement of its streets. More especially because no reasonable objections can be found to such legislation, and it certainly canot be considered as harmful.

The following legislation has been finally approved, viz.:

An act amending the previous act relating to a joint-county and city building, which now makes it possible to proceed with the joint city and county building.

An act changing the tax year so that taxes hereafter will be collected in January, February and March of each year, with the right to pay either in one installment or in four quarterly installments, and providing for a different time for the passage of the annual appropriation ordinance and tax levying ordinance, and providing certain other changes in regard to the preparation of the annual budget.

An act has also been approved giving cities the power to construct tracks on their highways and lease the same to public service corporations.

An act has also been passed providing for the registration of deeds in cities of the second class, and providing for the payment of registration fees for the same.

An act has been passed amending the general lien act of 1901 for the purpose of simplifying the practice of the city in securing the payment of its taxes and municipal claims and simplifying the process of acquiring property for the non-payment of the same.

An act has also been approved to enable the city to perfect its title to real estate acquired at a sale for unpaid taxes or municipal claims.

An act has been approved carrying into operation the constitutional amendment of 1913, whereby cities may eliminate certain indebtedness, such as water bonds from their constitutional debt.

An act has also been approved amending an act passed earlier in the session, which required cities to secure a list of liens, mortgages and judgments against property affected by street improvements. The amendment makes this requirement no longer necessary, and saves to the city many thousands of dollars annually by the elimination of this requirement.

An act prepared by the Civic Club and supported by the Law Department, has been approved giving the cities of the second class complete power over the matter of fire prevention and regulation, and dealing with explosives and inflammable materials.

In conjunction with the county an amendment was prepared to the county road act so that a county is now enabled to improve roads connecting with highways within the limits of a city, borough or township.

From the foregoing it will appear that while several of the most important acts prepared by the Law Department have either been lost in the Senate or the House or vetoed by the Governor, that a very considerable number of other acts, which in many instances are of great importance to the city, have been finally passed.

Yours truly,

CHAS. K. ROBINSON

First Asst. City Solicitor.

Which was read, received and filed, and a copy furnished each member.

No. 3483.

DEPARTMENT OF LAW.

Pittsburgh, June 19th, 1915.

Hon. Robert Garland,
Council Chamber, City Hall,
Pittsburgh, Pa.

My dear Sir:

In the matter of Hurd and Trafford Land Company's properties in Homewood to be leased by the City for playground purposes, I beg to say that I have talked with Rev. McCullough and Mr. Jack Hurd, who represents his father, A. V. Hurd, in the transaction, and they confirm the following arrangements with reference to leasing the properties :

The lease with Hurd is to provide for a three year term with a ninety day clause to vacate in case of sale. If the City is compelled to vacate pursuant to the ninety day clause, Mr. Hurd will reimburse the City for its improvements to the extent of $800.00; the City shall have the right upon vacating the premises to remove any improvements placed upon said premises by it. The consideration for the lease shall be the exoneration by the City of City and school taxes for the term the City occupies the premises under the lease. The Trafford Land Company's lease shall provide for a term of three years with a ninety day clause similar to the Hurd lease. The consideration for the lease shall be the exoneration by the City of the City and school taxes for the term the City occupies the premises, and the City upon vacating the premises shall have the privilege of removing any improvements made by it upon the premises.

If this ordinance shall finally pass Council on next Tuesday, I have arranged with the parties to have the leases executed Wednesday or Thursday of next week.

Yours very truly,
HERMAN F. RUOFF,
Asst. City Solicitor.

In accordance with the announcement of President **Goehring** of June 15th, 1915, he called Mr. **English** to the Chair.

And thereupon Mr. **English** took the Chair.

The **Chair** stated that as there were no objections, the reading of the minutes of the previous meeting would be dispensed with.

PRESENTATIONS.

Mr. **Dillinger** presented

No. 3490. Whereas, the various departments of the City are authorized from time to time to make purchases of automobiles; and

Whereas, It frequently happens that it is possible to secure a second-hand automobile which will serve the purpose of the Department with the same degree of satisfaction as a new automobile, and the same can be purchased at a material reduction in price over the cost of a new automobile; Now; therefore, be it

Resolved, That whenever any department of the City of Pittsburgh has been heretofore or hereafter authorized to purchase an automobile, and in the opinion of the Director of the Department of Supplies and the Mayor a second-hand automobile would serve the same purposes and prove as satisfactory as a new machine, and in the opinion of the Director of the Department of Supplies and the Mayor, a second-hand machine could be purchased at a price which would be materially lower than the price at which a new machine could be purchased, then the Director of the Department of Supplies and the Mayor are hereby authorized to advertise for bids on both new and second-hand machines, either or both.

The Director of the proper Department shall prepare the necessary specifications for the letting of said contract. In case the bids call for a second-hand automobile, the specifications shall provide that the Department shall have the right to use and operate the machine for a period of ten days before actually awarding the contract.

And the resolution was read a second time.

Mr. **Herron** arose and said:

Mr. President and Gentlemen: On the resolution just read, I wish to state, as briefly as possible, my reasons for voting against this transfer. When the appropriation for expert witnesses was before the Budget Committee in January the City Solicitor stated that he would endeavor to get along with $10,000; that he would refrain from using expert witnesses before the Board of Viewers, and in that way he felt certain that the amount of $10,000 would be sufficient. Just a short time later one of the Assistant City Solicitors (Mr. Irons) appeared before the Finance Committee and stated that he had just taken time to come before the committee to impress upon the members the urgency of the the transfer of $10,000 additional, stating that it was absolutely necessary that this amount be appropriated, as the Second Avenue Improvement cases had almost depleted the amount appropriated in the budget.

"I want to state, Mr. President, that at that time I had my doubts as to the advisability of transferring any further additional amounts to the Law Department for expert witnesses. However, the transfer was made and we are confronted with the spectacle of having at this time for this particular transfer, another Assistant City Solicitor (Mr. Robinson) appear before us and he stated that because of the drain of the Second Avenue Improvement cases the Department would have to have $5,000 additional for the payment of services rendered by expert witnesses. I endeavored to have this Assistant City Solicitor state whether or not that sum would be sufficient; but one of the members of Council impressed him very much with the fact that he need not answer, and he did not answer. Therefore, I have no way of knowing whether this sum will be sufficient or not; the only thing I know is that the Department had been extravagant with the amount entrusted in its care.

"Figures that are available in the Controllers Office will show you that one certain individual last year received for expert services the sum of $3,385; while so far this year he has received $3,766.70—another expert last year received $3,615 while so far this year he has received $3,666.70; and still another one last year received $1,080, while so far this year fas received $611.68, and still another one who did not appear on the roll last appears this year and so far has received $1.725,03

"I want to call your attention also to the fact that the City of Pittsburgh employs in its several departments a great number of physicians, some of whom are considered experts in their line; and whenever it becomes necessary for the Law Department to call in medical witnesses they find it imperative to go outside the regular corps of City physicians and empoly so-called medical experts. One physician last year received $1,275 for services rendered as medical expert witness, and so far this year has received $600; another physician last year received $627.50, and so far this year has received $425.

"I could go on enumerating cases, which to my mind, show a reckless expenditure of the City's funds, but I will not take up your time.

"We were promised, or at least I so understood it, that the Law Department would show Council, if we would allow the original $10,000 fund for expert witnesses, where the City had profited by it. But I am not convinced that the merits of the case rest upon the evidence of professional witnesses. Neither do I care to take away credit that is due the Law Department for winning cases and put it to the credit of the expert witnesses.

"I am not satisfied that the Law Department is paying sufficient attention to the requests of Council. Only a few months ago a resolution was unanimously adopted by this Council requesting the Law Department to make no further settlements in property damage cases without the consent of Council, and I have been informed that this agreement has not been lived up to.

"I also want to call your attention to the fact that only a short time ago when a request for transfer of money was asked by one of our departmental directors, a member of Council said, 'What is this thing coming to? Are we again making the budget?' And I say again, with double emphasis, that that same question might well be asked here.

"For the reasons stated above, Mr. President, I am compelled to vote No, satisfied that the best interests of the City will be served by a curtailment of this particular fund. The expenditures for 1914 by the Law Department for expert witnesses amounted to $43,485.16, and at the present rate this sum will be exceeded this year, notwithstanding the fact that the Council by every means within its power is trying to impress upon all departments the matter of retrenchment."

Mr. **Rauh** arose and said:

"Mr. President and Gentleman: When the matter of making an appropriation to the Law Department for witness fees was up for consideration by the Budget Committee, I voted to refuse this appropriation.

"I, as well as the other members of the Council who voted against this appropriation, was at that time warned by the President of Council that we were making a serious mistake. He further advised us that it was necessary to employ experts if the City desired to win its cases. At that time I thought we could use our City Property Assessors, and also the City Physicians to aid the City in presenting its side of the case in any law suit in which it may be involved. However, after the City Solicitor showed us that by using City employees they would prejudice the case in the minds of the Jury, and after listening to the charge of a learned Judge some time ago, I was convinced that my vote against this proposition was wrong, and when I feel that I voted wrongly on any measure in this Council I am always willing to abide by what I think is right and change my position accordingly.

"I want to say, therefore, Mr. President, that it is absolutely necessary that the City appropriate a certain amount of money for the employment of expert witnesses, in view of the fact that the Law Department a short time ago showed us how the City had been saved the amount of about $240,000 lately by employing expert witnesses in its defense. The point I want to make is this, that if we as Councilmen can save $240,000 (or whatever the amount is) it is our duty as representatives of the City to set aside a proper amount for the purpose of retaining expert witnesses. I have spoken to well-known lawyers on this matter and they agree with the President of Council, who is an able attorney, that it is necessary for the City to employ expert witnesses in property damages cases if it desires to win We all saw our mistake when the City Property Assessors were called as witnesses in a late law suit and the judge ruled that they could not be witnesses for the City. Therefore, let us reverse the position, and suppose one of the members of this Council was on the jury and suppose a case came up against the City and you saw City employes come there and testify in its behalf, how would our minds act? We would say, 'all these fellows stick together.' These are the reasons why I change my vote, and I think it is necessary, just, right and equitable that the City should make an appropriation for expert witnesses."

Mr. **English,** (President, Pro Tem.) said:

"Gentlemen:—To my mind we should not pass this resolution today or any other day until we receive more information. I am perfectly willing to furnish the Law Department with money that is necessary to properly conduct that department, but in this case there are two important reasons why this resolution should not pass, but on the contrary should be held up for further information.

"The first and principal reason is that the Law Department has not presented to the Council sufficient information to justify this expenditure. It seems to me they should give us an itemized statement showing the particular case, the name of the expert, and the amount paid such expert, and the result of the verdict or the final conclusion of the case, so that we could determine whether or not the money has been or will be properly spent. If any fees are excessive we could then cut them down to the proper amount; but to simply vote a blanket sum of money, whether it is $5.00 or $5,000, without sufficient information is a matter which cannot have my consent.

"The second reason is that contained in the second clause of this bill. In this clause is contained a statement that there was an item in the appropriation ordinance called 'Miscellaneous Services,' and that it now appears that $5,000 of this Miscellaneous Services fund will not be needed this year. If this is true, then the Law Department deliberately set up a blind pool or pocket, amounting to $5,000, in the budget appropriation ordinance for just such a purpose as now confronts them, namely, to fill out an appropriation which was not deemed necessary when the budget was made. In other words, we are submitting to blind pools in the budget, and this a very important item.

"For these reasons I am compelled to vote No on this bill."

Mr. **Kerr** arose and said:

"Mr. President and Gentlemen:—I think it is a deplorable condition if the statement made by the former speaker is true, to the effect that the City must employ expert witnesses to counteract the testimony of those of the opposing side, or the case will fail for want of sustaining evidence. I submit, Mr. President, that it is most unfortunate to the City if the fortunes of men and justice in our courts turn on testimony that can be bought by the highest bidder. Testimony of that kind to the average person is absolutely without weight and I, as a layman, cannot see why the courts of our county give expert evidence so much consideration.

"A few days ago an expert testified in a famous case which is going on at the present time to determine the sanity of a man. This expert testified unqualifiedly that this man was sane. This same expert conducts a private sanitarium for the treatment of insane people. He discharged from his sanitarium as cured a man who had been an inmate in his institution for a year or more, and within 24 hours after the man left the institution he killed a woman. Yet the sanity of the man on trial today will be determined by evidence given by such men as this.

"The same condition prevails in this City with reference to our real estate damage cases. The expert evidence submitted by the Law Department is as valueless as the evidence given by this famous expert on insanity. But as our legal colleague advises that it is necessary to produce such evidence in court, I presume there is nothing for us to do but to furnish sufficient money to continue this deplorable practice."

And the resolution as read a second time was agreed to, read a third time, and upon final passage the Ayes and Noes were taken, and being taken were:

Which motion prevailed.

Dr. J. F. Edwards, Director of the Department of Public Health, at this time appeared and asked Council to meet at Wood and Water streets, Wednesday morning, June 30th, 1915, at 9:30 o'clock, for the purpose of taking part in the Baby Week Parade.

The **Chair** (at the request of the Mayor) presented

No. 3521.

MAYOR'S OFFICE,
Pittsburgh, Pa.
June 29th, 1915.

To the Council of Pittsburgh,
City Hall, Pittsburgh.

Gentlemen:

I herewith transmit to you certain recommendations respecting the matters which are now pending between the City of Pittsburgh and the Pittsburgh Railways Company.

You will recall the City has heretofore made certain demands upon the Pittsburgh Railways Company for improvement in the service and the Pittsburgh Railways Company has requested the granting of certain additional privileges and franchises in the City of Pittsburgh for the purpose of improving the service and that thereafter various conferences have been held between your Body and the representatives of the Pittsburgh Railways Company and certain matters have been tentatively agreed upon.

The recommendations which are transmitted herewith have been prepared after consultation with the Law Department and the Department of Public Works and represent the recommendations of the said Departments.

I have considered the matters referred to in the recommendations under three general headings, namely:

First: The granting of the various franchises and privileges requested:

Second: The consideration of the terms of an ordinance under which any of these rights might be granted;

Third: The consideration of the preparation of a new general ordinance to take the place of the general ordinance of 1890.

It may be recalled that the general ordinance of 1890 was passed at a time when the present system of transportation was practically new and untried and that the experience of the last twenty-five years has demonstrated the necessity of a more direct and closer control of certain matters in the hands of the City, and it therefore seems advisable, at this time, to consider the matter of a new general ordinance which must be accepted by all the companies hereafter acquiring any rights or privileges from the City of Pittsburgh.

I would suggest that this matter be taken up at once by your Body, looking toward a possible and prompt solution of the matters referred to in the recommendations and to this end that such conferences as may be found necessary be held between myself and your Body and representatives of the Pittsburgh Railways Company.

Respectfully,
JOS. A. ARMSTRONG,
Mayor.

RECOMMENDATIONS RESPECTING CERTAIN SUGGESTIONS MADE BY THE PRESIDENT OF THE PITTSBURGH RAILWAYS COMPANY FOR ADDITIONAL PRIVILEGES AND FRANCHISES.

In these recommendations I have considered only the question of the advisability of granting the requests, leaving to other recommendations the question of the terms and conditions under which such a request might be granted.

The recommendations are taken up in the order appearing in the letter of the President of the Pittsburgh Railways Company to the Mayor of the City of Pittsburgh, dated September 28th, 1914.

No. All of the matters heretofore recommended are recommended subject to the terms and conditions hereinafter suggested.

In addition to the matters which are specifically contained in the draft of the proposed form of ordinance for No. 23 your attention is called to the following matters which should be considered by your Body in the grant of the foregoing privileges and franchises, namely:

First: The requirement of a service standard.

Second: The requirement of a definite program for the future maintenance and rehabilitation.

Third: The question of a rerouting plan for the cars in the downtown district of the City of Pittsburgh and the preparation of such a plan by the Railways Company showing the use to be made of the various switches and track herein recommended.

Fourth: The consideration of the matter of requiring the Railways Company to abandon the use of all single truck closed cars within a period of five years, eliminating 20 per cent thereof each year.

Fifth: Consideration of a plan by which the tracks may be removed from the streets where no actual service is furnished, but the tracks are held merely for franchise purposes. Under the existing legislation, agreements may be entered into for a period of years which will preserve the rights of the Company and will enable the street to be properly paved and maintained.

The other matters recommended for your consideration are included in a draft of a proposed ordinance which may be used as a general type of ordinance for all of the foregoing, and the new general ordinance must be accepted by all of the companies securing any future grants or franchises.

PROPOSED FORM OF ORDINANCE TO BE GRANTED TO THE VARIOUS STREET RAILWAY COMPANIES IN THE FUTURE, THE GRANT AT NO. 23 BEING TAKEN AS A MODEL FOR THE OTHER FRANCHISES.

An Ordinance No. granting unto the .... Railways Company, its successors, lessees and assigns the right to enter upon, use and occupy certain streets and highways in the City of Pittsburgh for a term of ten years, subject to the terms and conditions herein provided.

Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the .... Railways Company, its successors, lessees and assigns shall have the right and is hereby authorized to enter upon, use and occupy for the purpose of its street railway, the streets and highways included in the following route, to-wit:

....

....

.... and to construct, maintain, operate and use railway tracks on the routes hereinbefore mentioned and to operate its cars thereon and to use electricity as a motive power and to erect, maintain and use in the streets and highways before mentioned, such posts, poles and other supports as said company may deem convenient for the support and maintenance of its overhead system and for the operation of its railway, subject, however, to the provisions of an ordinance approved...... ...., 1915, entitled, "A General Ordinance relating to the entry upon, over or under, for the use or occupation of any street, lane, or alley, or any part thereof for any purpose by passenger or street railway companies, or by companies operating passenger or street railways, providing reasonable regulations pertaining thereto for the public convenience and safety, and providing a penalty for the violation of the provisions thereof."

Section 2. The rights herein granted shall continue in force subject to the terms and provisions hereof for a period of ten years from and after the date of the acceptance of this ordinance; provided, however, that the City may at any time terminate the rights herein conferred by the passage of another ordinance, giving the said company six months' notice of its intention to terminate the rights herein conferred, upon reimbursing to the Company the actual cost of the construction work in pursuance of this ordinance, less ten per cent thereof for each year that has elapsed since the date of the acceptance of this ordinance to the time fixed for the termination of said rights.

Section 3. This ordinance is granted for the purpose of accomplishing certain improvements in the service of the street railway companies in the City of Pittsburgh and for the special purpose of permitting the operation of a downtown loop, or loops which will enable passengers coming from any part of the City of Pittsburgh to the downtown section of the City to reach any of the depots of the City within a reasonable time without the payment of additional fares. The said loop, or loops to have universal transfers with any lines crossed by the said loop, or loops and to extend as far as the corner of Ohio and Federal streets on the North Side, the corner of New Grant and Liberty street in the City proper and the Lake Erie station on the South Side, and said cars are to be operated at intervals not exceeding five minutes.

In case at any time hereafter, said service shall not be furnished, the City reserves the right upon the enactment of another ordinance, to terminate all the rights and privileges conferred by virtue of the provisions of this ordinance and in such event, no compensation or reimbursement whatever shall be made by the City to the Railways Company.

Section 4. This ordinance shall not become operative unless ....: .... and the Pittsburgh Railways Company shall within thirty days after the passage and approval hereof, file their respective acceptances in writing with the City Controller, of this ordinance, and the ordinance approved ...., 1915, referred to in section one hereof, which acceptances shall stipulate that these ordinances are accepted subject to all the terms, conditions and agreements provided therein.

Section 5. It is hereby understood and agreed that neither the purpose nor intent, nor the obligation of this contract, if and when approved by the Public Service Commission of the Commonwealth of Pennsylvania, is such as, to impair or in any wise affect the exercise by said Commission of any of the powers vested in it by the Public Service Company Law, approved July 26th, 1913.

A GENERAL ORDINANCE

Relating to the entry upon, over or under, or the use or occupation, of any street, lane or alley, or any part thereof, or by companies operating passenger or street railways, and providing reasonable regulations pertaining thereto for the public convenience and safety, and providing a penalty for the violation of the provisions thereof.

Section 1. All passenger or street railway companies and all companies operating passenger railways or street railways, shall be subject to the following regulations:

Every such company, before constructing or reconstructing a passenger or street railway, or any extension, branch or alteration thereof, shall file with the Department of Public Works a plan showing the exact location of its proposed tracks, sidings, turnouts and switches, the pattern of its rails, and the kind and character of foundation or road-beds proposed to be laid. It shall also file a plan of any other underground or overhead construction that may be necessary, or appurtenances thereto, showing the exact location and kind of poles and posts along the line of the curb, or approximate thereto, and the exact character and design. The company shall, in all instances, show the depth of the foundation for its tracks and the character of its construction and the same shall be done in all cases, at least, of as good a character and similar depth to the foundation under the balance or shoulder of the street. All work and all plans to show the same shall be subject to the approval of the Director of the Department of Public Works and no work shall be commenced by the railway company until such approval shall have been given to every detail of construction, which shall include the depth and character of the foundation and paving the type of rails to be used, the location and character of the poles, wires and other appurtenances.

The Company shall lay and maintain its tracks, so that the rails shall conform to the level of the street to meet the contour of the same, and in case any change is made in the grade of the street or in the curve or contour thereof, so that the rails are not on a level with the grade of the street, the street railway company shall immediately change its tracks to conform to the new lines of the street.

Every such company shall lay and construct a pavement upon the space within its tracks and one foot outside thereof, of such character of foundations and paving material and of such specifications as may be approved by the Director of the Department of Public Works, and shall, at all times, keep the same clean and maintain such pavement in good order, condition and repair, so long as its tracks shall be used.

In case any company shall fail to clean its tracks or pavement, or keep the same in reasonable and proper repair the City may clean or repair the same as may be required and charge therefor the actual cost of labor and materials and 15 per cent additional for administration and plant charges and an additional 10 per cent of such cost and such companies by the acceptance of this ordinance hereby agree to pay the said sums within ten days after receipt of the statements therefor from the City of Pittsburgh, in any case in which the said company fails to keep the said streets clean or in proper repair, or both; Provided, however, that in lieu of the obligation heretofore provided for the keeping of the aforesaid portion of said streets clean, that the City of Pittsburgh will perform the said obligation for all the said railways companies within the City of Pittsburgh, upon the payment at the rate of $550 per year per mile of single track and at the rate of $750 a year per mile of double track, said payments to be made in equal monthly installments.

When the tracks of any street or passenger railway cross at grade the tracks of a railroad operated by steam, before the car of any such railway company shall be allowed to cross the tracks of any such railroad, it shall be brought to full stop, and it shall be the duty of the conductor, or person in charge of said car, to go forward and ascertain that such car can be passed over such crossing in safety, before such car shall be allowed to proceed.

Each of said companies shall yield the right of way to the fire department when going to fires, and to the police and patrol wagons when answering calls, and if then signaled by any person in charge of any fire apparatus or police patrol wagon, shall bring its car to a full stop until after such fire apparatus or police patrol wagon shall have passed such car.

Section 2. Every such company shall furnish clean, sanitary and well lighted car, properly heated and ventilated. All such cars shall be kept well cleaned, and shall be thoroughly disinfected, at least once a week, and adequate heating arrangements shall be provided, so that the cars may be heated to a temperature of 60 degrees, during the coldest days in Winter.

Every car operated during the period of the year from the first of October to the first of May shall contain an accurate thermometer, which shall be hung in a conspicuous place. The Director of the Department of Public Health shall have charge of enforcing the provisions of this section. The cleaning required by this section shall be thorough, so as to remove dust and dirt from behind gratings or ventilators, or other places where the same might accumulate. Said companies shall at all times give the Director of the Departments of the City, or the employees of said Departments, access to the places where their cars are cleaned.

Every such company shall provide sufficient cars to furnish reasonable service at all times. The Director of the Department of Public Safety shall have charge of all traffic rules and regulations respecting the use and occupation of the highways of the City of Pittsburgh and shall, from time to time, prescribe such reasonable rules and regulations as may be necessary for the full and complete use and enjoyment of the highways of the City of Pittsburgh by the foot passenger and vehicular traffic and by said railways and particularly the control and regulation of the temporary use of the streets by the said company or companies for storage or lay-overs, or for any other purpose.

Section 3. All rails shall be bonded, or other adequate provisions made, so that there will be no loss of electricity underground and no opportunity for electricity to pass from the lines of the company to the various pipe lines of the City, or other corporations.

Section 4. None of such companies shall have the right to enter upon, over or under, use or occupy any of the streets, lanes, alleys, or highways, or parts thereof, within this city, until after such company shall have procured the consent of Council of this City, by an ordinance, other than this one, duly passed and approved, granting such rights unto such company, and unless such company shall file with the Controller of the City within thirty days after the passage or approval of such ordinance, its certificate of acceptance of all the conditions and provisions of this ordinance, the said certificate to be executed under the corporate seal of such company, duly attested by the President and Secretary thereof.

Section 5. Each and every person or corporation violating any of the provisions of this ordinance shall pay a fine of not less than ten dollars, nor more than one hundred dollars for each and every violation of this ordinance.

Section 6. It is hereby understood and agreed that neither the purpose nor intent, nor the obligation of this contract, if and when approved by the Public Service Commission of the Commonwealth of Pennsylvania, is such as, to impair or in anywise affect the exercise by said Commission of any of the powers vested in it by the Public Service Company Law, approved July 26th, 1913.

Section 7. That any ordinance, or part of ordinance, conflicting with the provisions of this ordinance, be and the same is hereby repealed, so far as the same affects this ordinance.

Mr. **Kerr** moved.

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. **English** (President Pro tem.) said:

"Gentlemen:—I think this is a very unbusinesslike procedure. You will recall that during the budget hearing I protested againts any appropriation for rent for the City Hall Property and now we find that instead of having to pay rent as was figured during the budget hearings for the last three months of the year 1915, you will have to provide for the additional month of September. This means that it will be necessary to tap the Contingent Fund or some other appropriation for this additional $5,000 rent for September. This ordinance does not provide for any rent to be paid by the City for the use of Warner Poor Farm property until such time as the City moves out of the Warner Station property to Marshalsea, and thus giving possession to the County. How do we know but what the County will demand rent immediately after the closing of this proposition Assuming that we could not get into the new Joint City Hall and Court House Building for one year (which is an exceedingly short time) we will then have to pay rent for the Old City Hall property for one year at the rate of $5.000 per month or $60,000. The interest on the $386,000 we will receive from the County on this deal, at the extremely high rate of 5 per cent. interest, amounts to little less than $20,000 per year. You will thus see that the City will be paying at the rate of $40.000 per year for the privilege of making this real estate transfer to the County at this time.

"It is my opinion that this is a very unbusiness-like procedure for both the City and County officials concerned in this matter. It has been said that the City pays practically 70 per cent. of the taxes into the County Treasury. This being the case, the City is already under great expense as it will practically be paying for 70 per cent. of this new building, and it is not fair to rob the taxpayers of the City through the matter of keeping books in the County.

"It seems to me a financial transaction of the size and character of this one should be approached in a spirit of fairness by both the City and County officials. I cannot see any reason for not having a distinct understanding that the City would not receive any interest on the $386.000, and the County should not receive any rent from the City for the use of the present City Hall building. In other words, neither the City nor the County should lose any money in erecting this joint building as it is not fair to the taxpayers. Consequently, I am compelled to vote against this bill."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally "

MOTIONS AND RESOLUTIONS.

Mr. **Woodburn** presented

No. 3526

Whereas, In the transition from horse-drawn to self-propelled vehicles, the City has been deprived of a reasonable and just revenue; and

Whereas, This change has necessitated a different character of street construction at a greatly increased cost as well as maintenance; and

Whereas, Because of the increased speed of traffic movement (from 6 or 7 miles an hour to 15 or 20 miles an hour) the City has been compelled, for the protection of life, limb and property, to more than double the cost of traffic regulation and control; and

Whereas, Automobiles and motor-driven trucks of greater weight and capacity have taken the places of coaches, cabs, carriages, wagons and other vehicles for hire in the transportation of persons and property; therefore, be it

Resolved, That a committee of three be appointed to study this subject for revenue purposes to the extent of levying and collecting license taxes or fees, as well as to establish stands, and to fix the rates and prices for the transportation of persons and property from one part of the City to another.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed as members of said committee, Messrs. **Woodburn, Dillinger** and **Herron.**

Mr. **Dillinger** presented

No. 3527. Resolution instructing the officials in charge of the Naturalization Day Celebration, July 5th, in Schenley Park, to issue a permit to the members of the Equal Franchise Federation to erect and maintain a rest pavilion for use of women and children, July 5th, in Schenley Park, and permitting said Federation to display in the pavilion the Women's Liberty Bell, a replica of Old Liberty Bell.

Which was read and referred to the Committee on Parks and Libraries.

Mr. **Kerr** called up,

Bill No. 3374. An Ordinance entitled, "An Ordinance repealing the portion of Ordinance No. 62, entitled, 'An Ordinance re-establishing the grade of Penn avenue, from Eleventh street to Water street,' approved the eleventh day of March, 1915, which re-establishes the grade of Penn avenue, from the westerly line of Eleventh street to the westerly line of Seventh street.

In Council, June 22nd, 1915, bill read and further action indefinitely postponed.

Which was read.

Mr. **Kerr** moved.

To reconsider the vote by which further action on the bill was indefinitely postponed.

Which motion prevailed.

And the question recurring, "Shall further action on the bill be indefinitely postponed?'

The motion did not prevail.

No. 3528. Whereas, There is a certain piece of property located in the Fourth ward, owned by Mr. Frank McCann, which is available for playground purposes; and

Whereas, The young people of that neighborhood are most anxious to have it put in such condition as to allow them to play ball, etc., upon it; therefore, be it

Resolved, That the Director of the Department of Public Works furnish Council, at its next meeting, an estimated cost of the amount necessary to level up this property so as to make it available.

Which was read.

Mr. **Kerr** moved

The adoption of the resolution.

Which motion prevailed.

The **Chair** presented.

No. 3529. Whereas, The Pittsburgh Railways Company has promised to grant street car transfers on July 5th, which will be celebrated on July 5th, this year; and

Whereas, There will be a lot of confusion owing to this being a new thing in the City and the public not being fully acquainted with the matter; and

Whereas, It is desirable that the large number of people be accommodated as promptly as possible; and

Whereas, The City should co-operate with the Pittsburgh Railways Company in this matter; therefore, be it

Resolved, That His Honor, The Mayor, be and he is hereby requested to have the Director of the Department of Public Safety detail one or more competent officers at each important transfer point to assist in the orderly handling of the traffic on July 5th.

Which was read.

Mr. **Hetzel** moved

The adoption of the resolution.

Which motion prevailed.

No. 3607.

MAYOR'S OFFICE.

Pittsburgh, July 7th, 1915.

To the Chairman and
Members of Council,
City of Pittsburgh.

Gentlemen:

I return herewith Bill No. 3403 without my approval for the following reasons:

Experience demonstrates that the allotment of these stands should be left to the discretion of the Director of the Department of Public Works. The allotting and leasing of stands in market houses and places to proposed standholders and tenants is an executive function of the Department of Public Works, and, in my judgment, the public needs are best subserved and the purposes of the market are carried out more advantageously and better taken care of when left in charge of the responsible official.

Very respectfully yours,
JOS. G. ARMSTRONG,
Mayor.

Which was read, received and filed.

And

Bill No. 3403. An Ordinance entitled, "An Ordinance authorizing and directing the Director of the Department of Public Works to allot stands in new market building and providing for allotment of stands to old standholders and preference to existing tenants."

Was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger
Garland
Goehring
Hetzel (Pres't Pro tem.)
Kerr
Rauh
Woodburn

Noes—Messrs.

English
Herron

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen: I am voting NO on this ordinance for the reasons given below. It seems to me there is a misunderstanding as to Council's power with regard to the operation of our market houses; as to whether or not in this instance we are not interfering with the executive functions of the Municipal Government. To my mind the Council has the right to fix the rental for stands and stalls in the markets; but since the Council did not see fit to follow my suggestion to allot the stalls and stands in the new Diamond Market by public auction and to fix certain rentals therefor, we should not divide the responsibility, which we will be doing if this bill becomes a law notwithstanding the veto of the Mayor. If this bill becomes a law, we will be delegating the power to the Director of the Department of Public Works, or his subordinates. I am not willing to do that and since I am to be denied the right by my vote to fix the prices of leases and the rentals for the stalls and stands in the Diamond Market, I do not propose to transfer that power indirectly to the Department of Public Works."

When the name of Mr. **Herron** was called, he arose and said:

"Mr. President and Geneltmen: I realize that somebody must be in authority at the Diamond Market House. As this building is entirely different from the one torn down, and as the allotment of the stalls and stands will no doubt cause confusion and dissatisfaction, I do not feel like interfering with the department's arrangements. My idea was to simply express the desire of Council that we considered the rights of the old tenants, and that I feel we have done, and I am satisfied that the best interests of all will be conserved by placing the responsibility upon the Director of the Department of Public Works. I therefore vote NO."

Ayes—**7.**

Noes—**2.**

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

The **Chair** also presented

No. 3608.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, July 13th, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

I wish to express my thanks for the very kind resolution in regard to the Fourth of July celebration which your Honorable Body passed last Tuesday.

I realized that only your desire to best serve the interests of the taxpayers was the cause of no appropriation being made for the Fourth of July celebration, and that it was the desire of Council to make such an appropriation could you have conscientiously done so, and feeling confident that the patriotic citizens of Pittsburgh who fully understood the situation would cheerfully contribute, I was prompted to appeal to them.

Their response was most gratifying and I wish to publicly express my thanks to the citizens of this City for their liberal contributions and it is to them alone that the success of the Independence Day Celebration is due.

Yours very truly,
ROBT. SWAN,
Director.

Which was read, received and filed.

DEPARTMENT OF LAW.

Pittsburgh, July 22, 1915.

Finance Committee of the Council,
City Hall, Pittsburgh.

Gentlemen:

The matter of the contract between the City of Pittsburgh and the Pennsylvania Water Company for fire hydrant services and other purposes remains uncompleted as tentatively agreed upon between your Committee and the Pennsylvania Water Company for the reason that the Company has inserted a provision in said contract which the Law Department has not been willing to accept, without first submitting the matter to Council. The paragraph in question is as follows:

"Eighth: That if during the term of this agreement, the Council of the City of Pittsburgh or its successor should deem it advisable to provide for the inspection of the mains of the said first party, it is hereby agreed that the said inspection shall be made without cost to the first party, as part of the consideration for the service rendered by the said first party in supplying fire protection, and it is further agreed as a part of the consideration of this contract, that the City shall not during the term of this contract, impose any license, tax or other charge upon the property, franchises or business of the Water Company, which would diminish the returns to be paid to the Water Company."

There are two questions raised by this paragraph, first, whether the City could agree legally not to tax the property of the Water Company, if it now has or hereafter acquires such powers, and second, whether it ought to enter into such an agreement.

Similar agreements have been entered into between the Water Company and boroughs and the Water Company has been unwilling to eliminate this paragraph in the contract.

Under the circumstances it seems advisable to again refer the matter to you and to have the matter finally determined by your Committee.

Respectfully,

CHAS. K. ROBINSON.

MAYOR'S OFFICE

Pittsburgh, July 15, 1915.

To the President and
Members of Council,
City of Pittsburgh.

Gentlemen:

I have had up with the Chief Cost Accountant, Bureau of Costs, the subject matter in Bill No. 3617 passed by your honorable body on July 13th. After going thoroughly into the proposition with him I feel that the request made by your body is beyond his reach with the force that he has to carry on the work. However, I would ask that you give him a hearing before your committee and be prepared to interrogate him as he wishes you to bring out the best points connected with the system and the requirements of your bill.

Yours very truly,

JOS. G. ARMSTRONG,
Mayor.

DEPARTMENT OF PUBLIC WORKS

Pittsburgh, July 23rd, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

As the Troy Hill Reservoir has been abandoned for use as a reservoir, the disposition of the property is a matter which must be considered in the near future.

I have certain ideas regarding the same that I could best explain on the grounds and I would like, therefore, for your Honorable Body to fix a date to visit the property with me and go over the matter so as to be thoroughly conversant with the situation.

Yours very truly,
ROBT. SWAN,
Director.

DEPARTMENT OF PUBLIC WORKS.
Pittsburgh, July 23rd, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

With reference to Resolution adopted at the meeting of your Honorable Body on June 29th, 1915, providing that the Director of the Department of Public Works furnish Council an estimated cost of the amount necessary to level up property owned by Frank McCann in the Fourth Ward, beg to advise as follows:

To improve this property it would require a large amount of excavation, also the removing of present sheds and the construction of a ball backstop, which could be constructed from the material obtained from the sheds.

To do this work and put the property in good condition for ball ground and playground, it would require $800.00. This plot of ground contains a little over 1 1-2 acres. But a small portion of it is level.

Yours very truly,
ROBT. SWAN,
Director.

Which were severally read and referred to the Committee on Public Works.

No. 3663

Pittsburgh July 17th, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

With reference to Resolution adopted at your meeting of June 15th, 1915, "that the Director of the Department of Public Works furnish a report to Council as to whether or not the City is using for playgrounds the whole of Mr. Kimberlin's property and what the assessed valuation is; or whether the City is only using a portion of the property for playgrounds and in that case to furnish the assessed valuation of the portion of the property used.

I beg to enclose you herewith copy of report from Mr. N. S. Sprague, Superintendent Bureau of Engineering, upon the same.

Yours very truly,
ROBERT SWAN,
Director.

July 14, 1915.

Mr. Robert Swan,
Director, Department of Public Works,
City of Pittsburgh.

Dear Sir:

Herewith I return you copy of Council Bill No. 3269, also Bill No. 3268, the former being a resolution authorizing the execution of a lease between the Department and George V. Kimberlin, and the latter, a resolution setting aside $500.00 for the purpose of improving the property leased from the aforesaid.

On June 16th, a letter was sent to the Department from the City Clerk containing copy of a resolution asking for a report to Council, "As to whether or not the City is using for playgrounds the whole of Mr. Kimberlin's property and what the assessed valuation is; or whether the City is only using a portion of the property for playgrounds and in that case to furnish the assessed valuation of the portion of the property used."

In accordance with your instructions contained in letter of June 29th, the entire property has been surveyed and the portion leased to the City for playground purposes is shown upon the accompanying blue print; likewise the portion of the property which was not leased to the City. The assessed valuation of the leased property is as follows:

Land	$3,500.00
Building	500.00
Parcel of land excluded from lease—assessed valuation.....	1,500.00

The Park Engineer has been furnished with the data shown upon the enclosed print, and with this information will be able to answer the question of what part the City is using for playground purposes.

Yours truly,
N. S. SPRAGUE,
Superintendent.

Which was read, received and filed.

There being no objections, Mr. T. J.. Keenan was given the privilege of the floor, and read the following communication:

DEPARTMENT OF LAW.

Pittsburgh, July 15th, 1915.

T. J. Keenan, Esq.,
Keenan Bldg., City.

Dear Sir:

Considering further the matter of the improvement of Penn avenue, it has seemed advisable to prepare new waivers which provide for the change of grade only between Federal street and Sandusky street, the former Sixth street, to the former Seventh street, and I herewith enclose several of these waivers which you may take to the property owners between these points. So far as the property owners between Seventh street and Eleventh street are concerned, since the grade is to remain the same under the proposed new plan, it will not be necessary to secure their waivers.

I herewith enclose a list of the property owners between Sixth and Seventh streets and have indicated opposite the name of each whether or not he has signed the previous waiver.

Yours truly,

CHAS. K. ROBINSON.

Mr. Keenan stated that the repeal of the ordinance changing the grade of Penn avenue between Seventh and Eleventh streets would not invalidate the waivers covering the other sections of the Penn Avenue Improvement; that the cost of the change of grade on Penn avenue from Seventh to Eleventh streets would far exceed the benefits derived therefrom; that the only waivers affected by the repeal of the ordinance changing the grade on Penn avenue between Seventh and Eleventh streens would be the waivers signed by property owners abutting on Penn avenue between Sixth and Seventh streets; and that he was confident that the seven property owners who waived damages to their property on Penn avenue between Sixth and Seventh streets would sign new waivers. He further stated that the question whether the repeal of a portion of the regrading project would invalidate all the damage waivers should again be referred to the Law Department for an opinion in view of the opinion given him by Mr. Robinson. He further stated that the proposed change in grade was so light and the damage caused by it would be so large that the City ought not to change the grade.

The Clerk read for the information of Council an opinion of Mr. C. K. Robinson, Assistant City Solicitor, dated July 7, 1915, submitted to the Committee on Public Service and Surveys regarding the nullification of the waivers of property owners on Penn avenue.

Mr. **Kerr** moved

That an opinion be furnished by the Law Department to Council (1) whether the repeal of the ordinance changing the grade of Penn avenue between Seventh and Eleventh streets would not invalidate the waivers covering the other sections of the Penn avenue improvement; (2) whether the cost of the change of grade on Penn avenue from Seventh to Eleventh streets would far exceed the benefits derived therefrom; and (3) whether the waivers affected in repealing the change of the grade on Penn avenue between Seventh and Eleventh streets would only be the waivers of the property abutting on Penn avenue between Sixth and Seventh streets; this opinion to be submitted at the next meeting of Council.

Which motion prevailed.

Mr. **Woodburn** moved

That the bill be laid over for the present.

Which motion did not prevail.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

English	Hetzel

Mr. **English** presented

No. 3730

Whereas, The Supreme Court of the State of Pennsylvania has rendered a decision affecting various improvements for which Council had authorized a Bond Issue; and

Whereas, The public at large and particularly the people living in the vicinity of the proposed improvements are anxious to know just what is to be done in this matter; and

Whereas, It is desirable that the people be fully informed about the questions involved; therefore, be it

Resolved, That the City Controller be and he is hereby requested to furnish each member of Council a written statement as to how the bonded debt of the City is affected by the decision of the Supreme Court, and that the City Solicitor be requested to furnish an opinion as to how the decision of the Supreme Court in this case affects the bonding power of the people and the Council; and that in case the Controller and the City Solicitor cannot agree as to the status of the bonding power of the Council, then the Mayor is requested to furnish the Council a written opinion from the bond attorneys; and, be it further

Resolved, That His Honor, the Mayor, be requested to call a conference with the City Controller, the Council, the City Solicitor and the Bond Attorneys, when this information is ready for Council.

Which was read.

No. 3731. Whereas, The emergency reserve supply of water at Marshalsea is only sufficient to last for one to two days; and

Whereas, The patients to the number of 1200 to 1400 would suffer greatly in case of a broken water main; and

Whereas, The sum of $9,000.00 paid annually to a private water company for supplying water to Marshalsea represents the interest and sinking fund charge on approximately $130,000.00; therefore, be it

Resolved, That a committee of three members of Council be appointed to investigate the advisability of the City furnishing water to the City buildings at Marshalsea.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

And Messrs. **English, Hetzel** and **Dillinger** were appointed as members of said committee.

Mr. **Goehring** presented.

No. 3732. Whereas, The Board of Directors of the Homeopathic Hospital are considering the subject of abandoning the hospital situated on Second avenue and

Whereas, This action would leave only two hospitals in the downtown district to which emergency cases can be committed,

Resolved, That the President of Council shall be and he is hereby directed to appoint a committee of three to meet a similar committee appointed by the Board of Directors of the Homeopathic Hospital to consider and report on the advisability of adopting some policy by which said hospital can be continued in operation.

Which was read.

No. 3733

Whereas, In connection with location of the Schenley Monument the City authorities contemplate making certain changes in the main entrance to Schenley Park and in the grounds adjacent thereto; and

Whereas, The Schenley Park concerts are held at a point located (as shown by the print hereto attached) some 4,100 feet, or about three-quarters of a mile, from the Forbes street entrance; and

Whereas, Said concerts, largely patronized as they are by women and children at said location, and by reason of its distance from the street car lines and lack of protection in case of sudden storms, is very undesirable; and

Whereas, It is desirable that in the changing of the grounds near the park entrance consideration should be given to the providing for a suitable place for public gatherings, including concerts and other entertainments; now, therefore, be it

Resolved, That a special committee of three members of Council be appointed to take up with the Director of the Department of Public Works the advisability of changing the location for the holding of public concerts and the providing for the same, as well as other public gatherings at a place at or near the main entrance to Schenley Park, and that said committee report its findings and conclusions to Council.

DEPARTMENT OF LAW,
City of Pittsburgh.
Pittsburgh, August 7th, 1915.

To the Council,
City Hall, Pittsburgh.

Gentlemen:

Replying to your request expressed in the following motion: "That an opinion be furnished by the Law Department to Council (1) whether the repeal of the ordinance changing the grade of Penn avenue between Seventh and Eleventh streets would not invalidate the waivers covering the other sections of the Penn avenue improvement; (2) whether the cost of the change of grade on Penn avenue, from Seventh to Eleventh streets would far exceed the benefits derived therefrom; and (3) whether the waivers affected in repealing the change of the grade on Penn avenue, between Seventh and Eleventh streets would only be the waivers of the property abutting on Penn avenue between Sixth and Seventh streets; this opinion to be submitted at the next meeting of Council."

I beg to say:

First: An ordinance changing the grade of Penn avenue between Seventh and Eleventh streets would not, in my judgment, invalidate the waivers covering the other sections of the Penn avenue improvement. By the clear terms of each waiver as drawn and executed by the property owner, it is based upon and confined to the improvement made within the territory or district mentioned and described therein, the legal effect of which provision is to restrict the signers of said waivers in their rights to operations such as change of grade and other features within the zone or district to which said waivers apply.

Second: The Director of Public Works is the proper source of information as to cost, etc., of any change of grade, but as to benefits, the waivers are all based expressly upon non-assessment of any benefits against the signers.

Third: This question is practically answered by the reply to the first, to the effect that said waivers are all divided into different districts or zones and the signer of each waiver is restricted in his right to the particular district or zone to which his waiver applies.

Respectfully,
CHARLES A. O'BRIEN.

Which was read, received and filed.

The **Chair** stated

If it is necessary to have a hearing, Council will have it now. That at the last meeting of Council action had been indefinitely postponed on the ordinance providing for the repealing of the ordinance re-establishing the grade of Penn avenue, and that under the rules of Council it would be necessary to reconsider the action at the same or next subsequent meeting, otherwise the ordinance could not be revived during the present session of Council.

Mr. **English** stated

That he would like to be placed on record as intending to vote on the proposition as he thought proper, as the Law Department had practically reversed itself in the last opinion.

MOTIONS AND RESOLUTIONS.

Mr. **Woodburn** presented

No. 3747. Resolved, That the Mayor be and he is hereby requested to return to Council, for further consideration, Bill No. 3318, An Ordinance granting to the Allegheny County Steam Heating Company, a corporation existing under the laws of the Commonwealth of Pennsylvania, the right to enter upon any of the streets, roads, lanes or alleys in that part of the City of Pittsburgh between the Allegheny and Monongahela rivers, and west of Hooper street, Washington place and Sixteenth street, for the purpose of laying and maintaining conduits, pipes and other appliances thereunder, for the conveyance and distribution of steam or hot water for heat and other purposes, subject to certain terms and conditions as herein provided.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And the Mayor having returned, without action thereon,

Bill No. 3318. An Ordinance entitled, "An Ordinance granting to the Allegheny County Steam Heating

Company, a corporation existing under the laws of the Commonwealth of Pennsylvania, the right to enter upon any of the streets, roads, lanes or alleys, in that part of the City of Pittsburgh between the Allegheny and Monongahela rivers, and west of Hooper street, Washington place and Sixteenth street, for the purpose of laying and maintaining conduits, pipes and other appliances thereunder for the conveyance and distribution of steam or hot water for heat and other purposes, subject to certain terms and conditions as herein provided."

In Council, July 30th, 1915, Rule Suspended, bill read a first and second times and amended by striking out part of Section 7, as shown in red, and as amended agreed to on second reading, bill read a third time and finally passed.

Which was read.

Mr. **Woodburn** moved

To reconsider the vote by which the bill was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring, "Shall the bill be read a second and third times and finally passed?"

The motion did not prevail.

Mr. **Woodburn** moved

That the bill be recommitted to the Committee on Public Service and Surveys.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared

Council adjourned.

Mr. **Goehring** moved,

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. **English** arose and said

Mr. President, I wish to have the following statement printed in the record in connection with my vote on the final passage of Ordinance No.......

This ordinance is practically an indeterminate franchise carrying two protective clauses which are of tremendous import to the City as compared with public utility franchises given by former City officers.

1st. Compensation is provided.

2nd. Right of the City to purchase is provided.

Of the compensation clause no criticism can be made, as a percentage of Gross Receipts is without doubt fair to both the Company and the City. The correct amount is carefully insured in the provision that the City is to receive sworn statements of the Company's business, and further, the City has access to the Company's books at any time.

The disposition of the funds which will accrue to the City is a matter entirely in the hands of the City officials as the Company is not interested after payment to the City has been made.

Although it does not affect this franchise it seems fitting to me to express my opinion at this time on this fund. I think the revenue from this franchise should be deposited in a special Sinking Fund and the accumulation should be applied to the purchasing of the plant should the City care to exercise the option of purchase. The entire taxpaying public should never be called upon to pay the entire amount to purchase this utility for the reason that possibly ninety per cent of the tax-payers would not get any benefit from eventual City ownership.

On the right of the City to purchase, in my opinion a few additional words should have been inserted in this ordinance which would clearly show that should the City ever purchase this utility, this Council does not intend that the City shall be required by the appraisers to pay the Company for any extras concealed in such terms as value of franchise, good will, going concern, engineering blunders, poor investments, discount on bonds sold under par, promoters' expenses, loss of interest on capital during the time getting the Company started, etc.

This is a new venture in a public utility which is new to this community. It is a speculation pure and simple and this Company may not make any profits for years to come. Then if the venture becomes successful and the City then desires to purchase the City should not have to pay for extras to which I have referred or for errors or blunders made by the promoters and managers. I think we should insert some such provisions in this ordinance. However, the City Solicitor, Mr. O'Brien, and his assistant, Mr. Jarrett, have both advised the committee that the words "physical property and plant only" in Section 8 eliminates the extras to which I have referred, and that my suggestions are not needed. As no member of the committee would or did second my motion to insert additional provisions I take it that all agree with the City Solicitor and hence the distinct understanding is as follows: In appraising the property and plant no discretion is left to future appraisers, public service commissioners, or any other reviewing body to read into this ordinance their opinions of this Council's intentions regarding the meaning of the words "physical property and plant only" and that we today want future reviewers to understand that the City is not to pay for extras to which I have referred or those of like kind.

If the members of Council agree with me in my statement on this point then I wish to be recorded as voting in favor of the passage of this ordinance. If the members of Council do not understand this term "physical property and plant only" as I understand it, then I will be compelled to change my vote too and ask to be recorded as voting against the passage of this ordinance. My reason is that if the members of Council do not agree on the meaning of this term "physical property and plant only" how can appraisers, service commissioners, courts or the people determine our meaning?

Mr. **Rauh** arose and said

"Mr. Chairman and Gentlemen —I vote for Bill No. 3318 because I think it is most advantageous for the taxpayers of our City. Whether the Company makes or loses money, the interests of the people of Pittsburgh will be well safeguarded."

Mr. **Garland** arose and said

"I wish to state distinctly that this Allegheny Heating Company ordinance does not convey a perpetual franchise in any sense of the word, as the ordinance specifically provides that the City can purchase the physical property and plant any time after 25 years.

When one considers the handsome compensation which we have exacted from the Company, it is a question if the City would want to purchase, but we have the right if we wish to exercise it. Let us remember one important matter however—Even if the Company makes no profit whatever, the City gets its 3 per cent of gross receipts.

The compensation provided for in the ordinance, 3 per cent on gross receipts, which in my opinion, will approximate about 10 per cent on profits, is an exceedingly handsome revenue, and I question if any municipality in the country has ever obtained from a public service corporation anything approaching this—certainly the City of Pittsburgh never did.

I think the Council should be congratulated upon having secured provisions of this kind in the ordinance now before us. We have worked hard on this ordinance, and I believe it will be a good one for the City in every particular.

With regard to diversion of resultant revenue from the City Treasury to a special sinking fund as suggested by one of the members of Council, I am of the opinion that this is strictly revenue, and as such, and it could be considered no other way, it will help to reduce the annual rate of taxation.

And the bill, as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

English	Hetzel
Garland	Kerr
Goehring	Rauh
Herron	Woodburn (Pres't Pro tem.)

When the name of Mr. **Kerr** was called, he arose and said:

"Mr. Chairman and Gentlemen: —I did not think that this should be a limited or definite franchise. That an agreement should be made with the Company for a period of probably fifty years, with the right of the City to purchase between the first and the second twenty-five years, if the City cared to exercise that right. That would give the Company ample time to try out the proposition and ascertain whether, or not, they could make money.

I believe that the Company is already assured of the success of this enterprise. I believe they have already assurances and contracts made with a number of large office buildings and department stores in this section of the City that will guarantee the success of the undertaking.

The ordinance appears to be fair to the citizens of Pittsburgh; it appears to be the best ordinance of the kind we have ever had, carrying with it a revenue to the City, and also giving the City the right to acquire the plant at any time after twenty-five years.

I will therefore vote "Aye."

When the name of Mr. **Rauh** was called, he arose and said,

"Mr. Chairman and Gentlemen: —I vote "Aye" for the reason I have already given."

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. **English** (for Mr. **Dillinger**) presented from the Committee on Public Safety, with an affirmative recommendation,

No. 3755. Report of the Committee on Public Safety for August 10th, 1915, transmitting two resolutions to Council.

Which was read, received and filed.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

With reference to Bill No. 3669, the same being a Resolution "directing the Director of the Department of Public Works to investigate the matter of rebuilding sewer on Eighth street," which was read and adopted at your meeting of July 23rd, 1915, beg to enclose you herewith copy of report upon the same from Mr. N. S. Sprague, superintendent of the Bureau of Engineering.

Yours very truly,
ROBT. SWAN,
Director.

Rebuilding Eighth Street Sewer,
Council Bill No. 3669.

August 14th, 1915.

Mr. Robert Swan,
Director, Department of Public Works,
City of Pittsburgh.

Dear Sir:

Herewith I return you copy of Council Bill No. 3669, which is a resolution of Council authorizing the Department to investigate the necessity for the reconstruction of the public sewer on Eighth street, and I submit herewith a report covering this matter:

The existing 42 inch brick sewer on Eighth street drains a section of the "Hump" district and extends along Strawberry alley and Eighth street to the Allegheny river. Although this sewer was constructed in about 1847, it is, according to report by Mr. Flinn, Division Superintendent, Highways and Sewers, in a very good condition.

Similar to all of the sewers in the down-town district, except Barker's place, which is now under construction, it is constructed at a depth of about ten to twelve feet below the present grade of the street. As the Barker's place sewer with laterals on Penn avenue, provides drainage for all abutting property along Penn avenue past Eighth street, there is no need of additional depth of the Eighth street sewer at this point. Therefore, the property which would be benefited by the reconstruction of this sewer at a greater depth would be entirely along Eighth street from Liberty avenue to the river, other than those at the intersection of Penn avenue and Eighth street which are provided for by the laterals on Penn avenue. So far as we are informed, the existing property has adequate drainage and there is no back-flooding from the existing sewer. The capacity of this sewer is by far in excess of that required to carry the maximum amount of drainage from this district.

The total estimated cost of constructing a 36 inch brick sewer from Liberty avenue to the Allegheny River is $16,000.00.

Owing to the unsettled condition of the drainage question in the City of Pittsburgh, no definite policy can be considered for the general reconstruction of the sewers in the down-town section. Moreover, as there are no funds at present available, and as there is no pressing need for this work, I recommend that the reconstruction of these sewers, especially the one on Eighth street, be deferred until there is a definite policy established for the ultimate drainage of the City and until there is a greater necessity for this work.

Yours truly,
N. S. SPRAGUE,
Superintendent.

Which was read and referred to the Committee on Public Works.

Mr. Garland presented

No. 3822. Resolution authorizing the issuing of a warrant in favor of the Beltzhoover Republican Club for the sum of $10.00, refunding amount paid for permit to operate swings at Carnival Exhibition, and charging the same to Appropriation No. 42, Contingent Fund.

MOTIONS AND RESOLUTIONS.

The Chair presented

No. 3825

September 7th, 1915.

Hon. John M. Goehring, President,
and Members of Council,
Pittsburgh, Pa.

Gentlemen:

As you are aware the recent decision of the Supreme Court of Pennsylvania in the Shuldice case has made it imperative that some action be speedily taken towards the submission of a bond issue to a vote of our people for much needed improvements in various sections of the City, and what items or subjects shall be included in said submission should be a matter for earnest consideration by the legislative and executive departments of the City government. In view of the situation and the great importance of wise and deliberate action in the premises, in pursuance of Section 11 of the Act of 1911, creating your honorable body, I hereby call a conference between the Council and myself, the City Controller and the Law Department at such early date as shall be selected for the purpose of discussing the following subjects:

First:—Shall a bond issue be had for

(a) The widening of Diamond street from Grant street to Smithfield street and from Market place to Liberty avenue?

(b) The widening and improving of East Ohio street from Heinz street to the City Line?

(c) The construction of a boulevard from Brownsville avenue to Merrimac street along the hillside to give access to the South Hills with a reasonable grade?

(d) Raising the streets above flood level from Federal street to the new Manchester bridge?

(e) The widening of Grant boulevard and the construction of the new

Monongahela boulevard from the Court House to Schenley Park?

(f) The extension of Sixth avenue to connect with the Tenth street Bridge by the construction of a tunnel and other improvements?

(g) The widening and improvement of Warrington avenue from Montooth street to West Liberty avenue for the purpose of connecting the West Liberty, Beechview and Beltzhoover districts with Mount Washington and the new tunnel?

(h) The widening and improvement of Mount Oliver avenue (formerly Amanda street) and Freeland street, in order to connect with South Eighteenth street and Warrington avenue, making a through connection from the South Twenty-second street district to the Hilltops?

(i) The widening and improvement of Chartiers avenue from Corliss street to the bridge over the P. C. C. & St. L. R. R. at Sheridan Station, to connect Sheridan and the outlying boroughs via the Corliss street tunnel with the City?

(j) The widening, changing of grade and improvement of East Carson street from Smithfield street to Seventh street and the widening and improvement of West Carson street from the Point Bridge to Steuben street?

(k) The improvement of a connection between North avenue and the East street district, either by the widening and improvement of East street, Madison avenue or Howard street?

(l) Providing additional funds for the opening, relocating and improvement of Second avenue from Glenwood to the City line, and also for the changing of the location of Second avenue from Hazelwood to Greenfield avenue for the purpose of eliminating railroad crossings at Hazelwood?

(m) Providing additional funds for the widening and improvement of Webster avenue, from Fullerton street to Roberts street?

(n) The widening, improvement and opening of Arlington avenue from South Twenty-seventh street aud Jane Street to Clover street?

(o) The construction of a surface water drain in the upper end of the Nine Mile Run drainage basin?

(p) The widening, straightening and improvement of Saw Mill Run?

(q) The construction of a highway bridge across East street from Charles street to Geyer road?

(r) The construction of a highway bridge on Greenfield avenue from Wheatland street to Greenfield avenue?

(s) Providing additional funds for the construction of the Beechview Bridge and approaches?

(t) The acquisition of all the land lying between Highland Park and the Allegheny River and between Heth's Run and Washington boulevard for park purposes and also for the improvement of the boulevard between these points?

(u) The establishment of an improvement rotary fund, which matter has been under consideration and discussion for some time?

(v) Providing funds for the general repair of all streets to bring the same to a proper standard so that they can be maintained thereafter by annual appropriation?

(w) Providing funds for the payment of judgments and contractors' claims against the City?

(x) The construction of a high service reservoir in the eastern section of the City, together with the installation of the necessary pumps and pipe lines in order to meet the growing demand of the Squirrel Hill and Lincoln territory; for the construction of an additional pump and appurtenances in the Howard street Pumping Station; for repairs to Herron Hill Reservoir; for the progressive metering of the City; for the construction of several large feeder lines for the improvement of the service; for providing and equipping storage yards for the Bureau of Water and to provide funds for other matters relating to the betterment of the water service of the City.

(y) The completion of the motorizing system for the Fire Department.

In addition to the foregoing there are many other matters for consideration.

Second:—Discussion of the various ordinances, claims, grants, concessions and other matters still pending from former conferences with the representatives of the Pittsburgh Railways Company with a view to improvements of its service in the City.

Respectively submitted,

JOS. G. ARMSTRONG,

Mayor.

Which was read, received and filed.

Mr. **Kerr** moved

That Council meet with the Mayor in conference in the Council chamber on Wednesday, September 8th, 1915, at 10 o'clock, A. M., to take up the matters mentioned in the communication.

Mr. **Garland** presented

No. 3826. Whereas, The City contemplates the abandoning of the property known as the Montrose Pumping Station; and

Whereas, Said property having a river frontage of about 1500 feet is suitably adapted for a public boating site; be it therefore

Resolved, That the Director of Public Works be requested to furnish Council with an estimate of the cost of equipping said site with the necessary accommodations for boating and bathing.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 3827. Whereas, It appears that the rates charged for fire insurance on the North Side are in excess of those charged in what might be termed Pittsburgh proper, these being applicable to risks of like class and occupancy; and

Whereas, The reasons for making this differential have now disappeared, owing to the fact that the North Side, or former Allegheny, has now an adequate water supply, and the Fire Department is fully as efficient as on the opposite side of the river, and there now exists no conflict of management in said Fire Department, such as existed when said differential was made, these and other conditions being the basis upon which such excessive rates were applied to the North Side; therefore, be it

Resolved, That a committee of three be appointed to take this matter up forthwith with the Board of Underwriters, so that proper redress may be obtained.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed, as members of said committee, Messrs. **Garland, Woodburn** and **Hetzel.**

Also

No. 3828. Whereas, The Liberty Bell is expected to arrive in the City November 22nd, or some time late in November,

Resolved, That a committee of three be appointed to co-operate with His Honor, the Mayor, and the chairman of the Pittsburgh Liberty Bell committee of the Veterans of the Foreign Wars of the United States, with a view to arranging for a proper patriotic celebration of this important event.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed, as members of said committee, Messrs. **Garland, Kerr** and **Rauh.**

Mr. Woodburn presented

No. 3829. Whereas, The Court has decreed that the revenues of the North Side Market are only applicable to its maintenance, and hence cannot be counted in the general revenues of the City; therefore, be it

Resolved, That a committee of three be appointed to carefully investigate the receipts and expenditures of the North Side Market, and to recommend to Council a plan of management in accord with this ruling of the court.

Which was read.

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

And the **Chair** appointed, as members of said committee, Messrs. **Woodburn, Kerr** and **Herron.**

Also

No. 3830. Whereas, It is reported, and persistently repeated, that in that part of the City formerly known as the "Red-Light District of the North Side," with the knowledge, hence the consent, of the police, there exists a number of so-called "clubs," devoted to tippling and gambling, each presided over by one or more well known characters, and paying for "privilege and protection" $250.00 to $350 to a certain named person said to be an attorney; therefore, be it

Resolved, That the Director of the Department of Public Safety be requested to furnish a committee of three members of this Council, appointed by the President, full access to the books and records of the Sixth Police District, and as full information as to the operation of the same as the committee may require.

Which was read.

Mr. **Woodburn** (seconded by Mr. **Dillinger**) moved

The adoption of the resolution.

Which motion prevailed.

The **Chair** appointed as members of said committee, Messrs. **Woodburn, Dillinger,** and **English.**

The **Chair** presented

No. 3831. Whereas, a project has just been launched whereby it is hoped that the entire citizenship of this community will erect a fitting memorial to pay tribute to the dignity of labor; Therefore, be it

Resolved, That Director Swan, of the Department of Public Works be directed to submit at the earliset possible time, a list of all city properties which in his judgment would be a proper site for such memorial.

Which **was read.**

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

Mr. English moved.

That the following members be excused for absence from the following meetings:

Mr. **Dillinger,** July 30th, and August 9th, 10th and 11th, 1915; Mr. **Herron,** August 10th, 1915; Mr. **Kerr,** August 9th and 10th, 1915; Mr. **Rauh,** August 9th and 10th, 1915.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared

Council adjourned.

Noes—Mr. English.

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen: I cannot agree with Bill No. 3684, File No. 1723, which provides for the issuing of councilmanic bonds to the amount of $2,760,000. The principal objection to this ordinance is that in my opinion contractors' claims, judgments and assessments arising from the opening, widening and improving of streets, and the construction of sewers and other floating indebtedness is a matter of such vital importance that the accumulations of any one year should be taken care of in the tax levy of the year following such improvement.

"You will readily understand that it is not necessary for Council to now issue these bonds for the sum of $2,760,000, as the people who hold these claims and judgments are perfectly willing to continue holding them for an indefinite time, or as long as such claims carry with them the six per cent. interest, which I understand is being paid on this amount of claims.

"It seems to me a very unbusinesslike procedure to allow these accumulations to pile up until they reach the great sum of $4,000,000. We have been advised that only $2,760,000 is now due. We do not seem to be concerned about the other $1,240,000, although they bear interest also. Would it not be better for us to call a halt on this style of procedure—find out just what streets, just what sewers, and what other floating debt is included in this sum before we even consider the passage of such an ordinance as this. It seems to me the bond attorneys who are so jealous of the possibility of our not having the right polling places at a special election might look into this bond issue on the ground that specific items have not been furnished the Council. We do not know whether all of this amount or any of it is for the 'Hump" improvement. We do not know whether it is for a complete sewer or what part of it is for sewers; in fact, we are all absolutely in the dark, and yet the Council is asked to blindly go ahead and issue this amount of bonds, entirely ignoring the fact that there is half as much more of similar claims which must be met by the the next Council in the year to follow or one or two years later.

"It has been my constant endeavor since I have become a member of this Council to protest against the folly of attempting to get by one year with a low tax levy only to meet with financial difficulties in the year or years following, when it will be absolutely necessary for this or some succeeding Council to take up questions which have been neglected by their predecessors. It seems to me a better way to dispose of these claims and judgments is to spread the payment of them over a series of years in a manner similar to that method by which the deficit of last year was spread over a period of three years.

"I think it is my duty to call your attention to this, for I believe it would be much better for the City to pay $2,760,000 worth of claims in a short period, say five years, rather than issue bonds extending for a term of 30 years. You will note that in a period of 30 year bonds the amount of interest and sinking fund practically doubles the price of the bond, so that in voting for this $2,760,000 worth of bonds every member who favors such a procedure is actually fastening onto the City another $2,760,000, making the total cost $5,520,000, and this does not include any interest which has already been paid on these claims at the rate of 6 per cent. In addition to this the Councilmanic bonding power which has been in dispute for many years is still further crippled. Prior to the passage of this ordinance, we at least know that we still have a councilmanic borrowing power of $2,760 000; after the passage of this ordinance who knows what our borrowing power is?

"For these reasons, Mr. President and Gentlemen, I say it is a grave mistake to issue bonds for this kind of work and compel the taxpayers of Pittsburgh to pay a sum twice for one operation. Consequently, I cannot give my consent to the passage of this ordinance and am compelled to vote No."

When the name of Mr. **Rauh** was called, he arose and said:

"Mr. President, I must seriously object to the statement of Mr. English, in which he states that the gentlemen holding claims against the City do not wish their money. Many of the contractors owe their amount owing them by the City to our banks and are anxious to get their money from the City, and I am pleased to see Controller Morrow agree with me. The fact that the City pays six (6) per cent. on the $2,760,000 of claims, whereas under councilmanic bond issue this would cost about four and one-half (4½) per cent., or a saving of about one and three-quarters (1¾) per cent. on $2,760,000 each year—a very considerable saving to the taxpayers."

Ayes—8.

Noes—1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Ayes—Messrs.

Goehring (Pres't)	Woodburn.
Hetzel,	

Noes—Messrs.

English	Herron,
Garland,	Kerr.

When the name of Mr. **English** was called, he arose and said:

"Mr. President and Gentlemen:—I cannot give my consent to the passage of Bill No. 3756, File No. 1769, which is a repealing ordinance, for the reason that it takes out of the appropriation ordinance of 1915 one of the main checks the Council has in determining whether or not a proper budget was submitted by the several departments and bureaus of the City Government.

"Permit me to call your attention to this fact; immediately after this repeal ordinance in committee we were confronted with some 8 or 10 requests for transfers. I will readily grant that errors are made by the best of people and that it would be unfair to expect every item in the budget to be absolutely correct, and it would be folly to expect that any one can guess 12 months in advance; but I do submit that in making up appropriations for salaries, for positions which were created and which existed at the time the budget was made, there should not be any error in the arithmetic. A certain number of employes at a certain prescribed wage or salary would require the Council to appropriate a certain sum of money,—that is a simple problem in multiplication; but when an attempt is made to take away salary appropriations and change from permanent to temporary wages and to other items, the Council should be informed of such matters by the officials in the various departments.

"Mark my prediction! that if this repealing ordinance is passed the last safeguard against budget juggling will be eliminated. The matter of a fifty-dollar expense for advertising can readily be disposed of in this manner, —if any transfers for salaries are absolutely necessary why can not the various departments' requests be assembled in one large ordinance and pay, say $100 or $150 for printing one large ordinance, containing several pages, rather than a number of one-page ordinances at the rate of $50 each. This fifty-dollar printing item is a mere bugaboo or 'man of straw' raised for the purpose of obscuring the real issue; and the real issue is Council's control over the appropriations.

"I cannot give my consent to the passage of such an ordinance and am compelled to vote 'No.'"

Ayes—5.

Noes—4.

REPORTS OF SPECIAL COMMITTEES.

Mr. **Woodburn** presented

No. 3880

To the President and
Members of Council.

Gentlemen:

Your special committee appointed some time ago to study and investigate the two-platoon system for the Fire Bureau respectfully returns herewith Bill No. 2808, An Ordinance establishing a Training School for Firemen in the Bureau of Fire, Department of Public Safety, of the City of Pittsburgh, with the recommendation that the amendments made in the ordinance be approved and that it be referred to the Committee on Public Safety for an affirmative recommendation. This ordinance has been before your special committee since March 9th, 1915, and in that time there were several meetings held, at which the Two Instructors for the Fire Bureau were present, and at the meeting held today there were a number of firemen, who constituted a committee to represent the firemen, present who stated that the ordinance met with their approval and asked for its passage. In view of this fact and the further fact that the ordinance meets with the approval of your special committee, it is under these conditions that it is returned to Council with the above recommendation.

Your special committee also had before it the ordinance providing for a two-platoon system for firemen in the Department of Public Safety, known as Bill No. 3687. This ordinance also meets with our approval, and it is returned to Council with the request that it be referred to the Committee on Finance for the purpose of considering at the time the budget is before Council so that the proper appropriation for carrying out this system can be made. Your committee has asked the Director of the Department of Public Safety for information regarding the number of men it will require to operate this system; how many motorized houses will the Department have in operation by the first of next year, etc. As soon as this information is received it will be submitted to the Committee on Finance.

Yours respectfully,
CHAS. H. HETZEL,
G. A. DILLINGER.
S. S. WOODBURN, Chairman

Which was read.

Mr. **Woodburn** moved

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

Mr. **English** arose and said.

"Mr. President and Gentlemen: I think the passage of this ordinance at this time is the culmination of a series of blunders which are bringing ridicule on this Council. For the past two years every member of Council has proclaimed that he is for honesty and efficiency in the City Government. Today we find some forty candidates for Council going around the City and urging the voters to elect them on a similar platform.

"In the midst of so much political campaigning on an economy and efficiency basis, it should not be necessary for any member of Council to call attention to the flagrant job which is being put over on the people today. It should not be necessary to refer to the deficit created a year ago, in trying to run the City for 12 months on the receipts for 11 months. It should not be necessary to refer to the $800,000 emergency bond issue to pay the running expenses of the City for two or three months. It should not be necessary to refer to New York experts and the cost of their work in pointing out economics. Here we have the shameful spectacle of spending $40,000.00 simply because it happens to be lying around loose.

"Now, if we had received some kind of a written report as to what streets or alleys were to be repaired or what boardwalks were to be repaired, there might be some reasonable excuse for considering this ordinance. But I admit that the short verbal statement of the Director of the Department of Public Works that it was his intention to apply this money to all the highways is not sufficient. If Council must spend this money, why not employ some of the carpenters who have been idle for several months while white wings have been getting the money Council appropriated for Carpenter Labor.

"It seems to me that we should have up all the cash balance we can find, for unless some real economics are instituted the Council will have to levy higher taxes, not only in 1916 but 1917 as well.

"Why should we spend weeks going over a budget and arguing for days over small items in an effort to keep down the cost of government. and now in the last quarter of the year reverse the program and try to find ways in which to spend what small balances we might have. I say it is much better to have some kind of a cash balance rather than another deficit. I am in favor of repairing streets and will gladly vote for sufficient money for the Highways Department, but I cannot vote for this item in this manner without some definite information. Therefore, I vote "No."

And the resolution was read a third time, and upon final passage the ayes and noes were taken. and being taken were:

Ayes—Messrs.

Dillinger	Hetzel
Garland	Kerr
Goehring (Pres't)	Rauh
Herron

The **Chair** presented

No. 3914

September 15th, 1915.

President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

With reference to Bill No. 3826, the same being a resolution requesting the Director of the Department of Public Works to furnish Council with an estimate of the cost of equipping Montrose Pumping Station site with the necessary accommodations for boating and bathing, beg to enclose you herewith estimate of cost of three propositions, as prepared by the Bureau of Recreation.

I would respectfully recommend that Plan No. 1 be adopted if anything is to be done in 1916, as I do not think that the use for the present would justify a larger expenditure.

Yours very truly,
ROBT. SWAN,
Director.

Estimates of Cost of equipping Montrose Pumping Plant site for bathing and boating:

Plan No. 1.—Remove cinders and clinkers from shore and beach; replace with river sand. Build float and canoe racks, purchase tents, erect bathing booths. Estimated cost ......$6,000.00 from shore and beach; replace with river sand. Build float and canoe racks, purchase tents, erect bathing booths. Estimated cost $6,000.00

Plan No. 2.—In addition to above, refloor engine room for use as auditorium and dancing floor, cut canal from river to basement of same for permanent boat house; bridge canal. Estimated cost $25,000.00

Plan No. 3.—Add to above, steel and concrete recreation pier, equipment of canoes, row, sail and motor boats. Estimated cost $50,000.00

Which was read and referred to the Committee on Finance.

MOTIONS AND RESOLUTIONS.

Mr. **Dillinger** arose and said:

"Mr. President and Gentlemen: I would like to ask the indulgence of Council to make a statement. I feel that I owe it to a class of our citizens more than myself to make a statement regarding a publication in the Pittsburgh Leader of last evening. The article is the outcome of remarks accredited to me as being made in the Nixon Theatre last Saturday at noon.

"The Jewish Race in the earliest part of history have been one of the most upright, industrious and charitable people the world has ever known. The remarks that formed this article must have come from the mind of a pervert or from the mind of an insane person. Out of the whole cloth, it was a malicious, slanderous, libelous attack upon one of the finest classes of our citizenship. The remarks that I made in the Nixon Theatre were these: 'I said that Senator Bois Penrose had come to Pittsburgh last week with $150,000.00 with which to defeat the O'Neil ticket. I gave as my authority one Abraham Livinsky Stein, a member of the last Legislature, the mouthpiece of the liquor interests at Harrisburg. I said that I did not believe Mr. Stein was correct in his figures; that I did not believe the whiskey gang could gather $150,000; that it was their mouthpiece I gave as my authority; and I did not think the people of Allegheny county would defeat the O'Neil ticket.' Those are as near the exact words I used, with possibly a little more energy and vigor than I use here.

"The only reference I made in my entire talk to any person of the Jewish race was that of Mr. Stein.

"I am sorry that one of the oldest races, the Jewish people, have to stand for one of their own number allowing such a slanderous, villifying attack to be made upon their race. I feel that I owe it to the Jewish people of Pittsburgh to make this statement. I do not believe in wasting time on eleventh hour attacks of canards who issue statements such as appeared in the Pittsburgh Leader prior to election, as I am not a candidate for any office.

"As long as I have been a member of this Council I have tried my best to represent all the citizens of Pittsburgh, regardless of race, creed or color.

"The Rev. Dr. Shelton, as well as Homer A. Young, Percy F. Smith and A. T. Morgan, were on the platform, and Mr. T. J. Gillespie was one of the speakers. I think all the remarks made at that meeting had been taken down in shorthand by a young man in a box to my right, and I shall try to get a verbatim copy, so that it as well as my remarks here may be inserted in the minutes of today's meeting."

Mr. **English** arose and said:

"Mr. President and Gentlemen: I regret very much that it is necessary to object to printing some portion of the speaker's statement in the Councilmanic record. In a matter of personal privilege, it seems to me proper for the gentleman to make a denial of something with which he has been charged, and I have no objections to that portion regarding the denial being printed in the record of Council. However, when the gentleman proceeds to repeat a political speech made in a partisan campaign and asks to have it printed in the record of a non-partisan Council, I think it is time for some member of Council to object. We are a non-partisan body and in my opinion we should preserve the record to that extent at least and not permit any political addresses made in a partisan campaign to be repeated and made part of the business of Council.

"In making this objection, I trust the members of Council, particularly the gentleman who makes the address will understand that there is nothing personal in my objections. It is the matter about which he speaks to which I have objected. I think all the members will agree with me that the regular proceedings of Council should not contain any political addresses of any kind whatsoever."

Mr. **Dillinger** arose and said:

"Mr. President, this was not a non-partisan meeting; it was a meeting of the Allegheny County Republican Committee, and any member of this Council, if he sees fit, may take part in such a campaign. I ask as a personal privilege to have my remarks inserted in the minutes of Council."

The **Chair** said:

"Are there any further remarks or objections? If not, the remarks will be inserted in the record."

And there being no further business before the meeting, the **Chair** declared Council adjourned.

THE BOARD OF PUBLIC EDUCATION.

Pittsburgh, Pa., Sept. 22, 1915.

E. J. Martin, Esq.,
City Clerk, City Council,
Pittsburgh, Pa.

Dear Sir:

I beg to advise you that The Board of Public Education at its meeting on September 21st, 1915, unanimously adopted the following resolution:

"Whereas, By authority of resolution No. 259 of Council of the City of Pittsburgh, approved June 29, 1915, said City has leased from Trafford Real Estate Company a certain lot or piece of ground situate in the Thirteenth ward of the City of Pittsburgh;

having a frontage of 160 feet more or less on the easterly side of Lang avenue, and extending back a distance of 320 feet more or less, to property of F. E. McGillick and the Pennsylvania Railroad Company, and containing 1.162 acres, for playground purposes; and

Whereas, By authority of resolution No. 260 of said Council of the City of Pittsburgh, approved June 29, 1915, said City has leased from A. V. Hurd a certain lot or piece of ground situate in the Thirteenth ward of the City of Pittsburgh; having a frontage of 200 feet on the easterly side of Lang avenue, and extending back a distance of 306 feet, more or less, to Clawson street and containing 1.374 acres, for a period of three years beginning July 1, 1915, for playground purposes; and

Whereas, The said premises are exonerated from City taxes during the said term of said leaseholds and, in the opinion of this Board, it is advisable and for the public interest that the said premises should also be exonerated from the payment of school taxes,

Resolved, That the premises of the Trafford Real Estate Company and A. V. Hurd, above described, be and they are hereby exonerated from the payment of school taxes, respectively, for and during the term of said leases to the City of Pittsburgh and their use by said City as playgrounds."

Very truly,

G. W. GERWIG,
Secretary.

Which was read, received and filed.

Which motion prevailed.

And the bill was read a second time.

Mr. **Dillinger** arose and said:

"Mr. President and Gentlemen: I vote for this ordinance because it is a good ordinance, and made mandatory by the Act of Legislature. I have confidence in the Board and do not believe that the fund created by this ordinance providing pensions for City employes should be referred to as a 'blind pool.' "

Mr. **English** arose and said:

"Mr. President and Gentlemen: I am voting for this ordinance for the following reasons:

1. I am in favor of a fair pension for City employes, who have reached the age of 60, after a faithful service to the City for a period of 20 years.

2. That the City Solicitor advises that this ordiance is necessary to bring into being the Pension Board, whose duty is it to get information for the Council before an appropriation is asked in 1917.

3. It is with the distinct understanding that my approval of this ordinance is merely a temporary start of the Pension Board and does not carry with it any promise to blindly vote for an appropriation in 1917.

In explanation, I want to be sure that in starting this new municipal pension we should place it on a solid foundation, so that in the years to come every City employe who registers will be properly taken care of. I do not want to be a party to starting any more pension funds like those now existing in the Police and Fire Departments. We all know these two funds are in bad shape financially, and must collapse in the near future unless placed upon a firm foundation. It is much better for this Council to proceed carefully and cautiously and build strongly for the future, rather than raise the hopes of the employes by a temporary expedient which cannot last."

Mr. **Garland** arose and said:

"Mr. President and Gentlemen: I am voting to carry out the provisions of the Act of Assembly.

"It will remain for the future to decide as to whether this Pension Fund is built upon proper foundations.

"New York City is now experiencing considerable financial trouble over her eight pension funds, and a committee of citizens with George W. Perkins, chairman, is working out a solution of this exceedingly perplexing problem.

"We must be guided by the experience of other communities as well as our own, and I predict that it will be many months before we are assured as to what the cost will be to the taxpayers, and it will be observed that the City pays nothing until 1917. In the meantime, however, our duty and our obligation is to start the fund by enabling legislation, and to carry out its provisions as best we can, having the mutual interests of both the taxpayer and the employe at heart."

And the bill as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger	Hetzel
English	Kerr
Garland	Rauh (Pres. Pro tem.)
Herron	Woodburn

Ayes—8.
Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

At this time Mr. **Herron** arose and read the following communication, and on behalf of Mr. **English,** requested that it be printed in the record:

Pittsburgh, Pa., October 4th, 1915.

To the President
and Members of Council.

Gentlemen:

I do not see why this Council should at this particular time pass Bill No. 3624, An Ordinance authorizing the Mayor and the City Solicitor to enter into a contract with a Title Company for furnishing certified copies of liens, etc.

I am satisfied that any taxpayer can have this ordinance declared illegal because it is one of those "lump-sum, blind pool" ordinances, which may amount to little or may amount to a great deal; and there is no possible way of telling from this ordinance just how much money will be required to carry out its provisions.

The second objection I have to this ordinance is, that our own Law Department is the proper office through which the City could get the information required. It is very evident that some person will have to go to the court house and look through the books in the Recorder's or Prothonotary's office to get a list of liens and judgments against any properties on account of new street improvements. Naturally, any Title Company or outside corporation would have to charge a profit for the services rendered by its employees in getting this information for the City, and in the charge of the title company to the city would be included a profit together with other overhead expenses, such as rent, telephone service, office equipment, officers' salaries, etc. All of this expense would not have the slightest thing to do with the individual labor of the clerk who would search the County records for the information desired. It seems to me that our own Law Department could well afford to put on an extra clerk or two for this particular and specific purpose, of furnishing this information, and the City would at all times have copies of it and would be able to obtain the information at first cost, equal if not actually less than it could be obtained by an outside corporation.

In the second place, I do not see why our Law Department cannot give us advice that this act is unconstitutional. It seems to me that if ever a bill was an outrage on the taxpayers of Pittsburgh, this particular bill is. The Council has not seen a copy of the Act of Assembly referred to. Do these acts specifically say that this work must be done by a title company? If they do, then it seems to me our Law Department has more ground for claiming that this act is unconstitutional than they have for claiming that the uniform tax law is unconstitutional. If our Law Department is disposed to attack the uniform tax act, in addition to the law suit projected by the bond attorneys, then I say why not turn the Law Department loose on acts such as this, and let them test the constitutionality of this particular bill which was passed by the Legislature of 1915.

I endeavored to bring out these points before the Finance Committee and sincerely hope that this ordinance will be recommitted for additional information before Council passes it finally.

Yours respectfully,

W. Y. ENGLISH.

Mr. **Herron** moved

That the bill be recommitted to the Committee on Finance.

Which motion prevailed.

Also, with a negative recommendation,

Bill No. 3845. Resolution authorizing the issuing of a warrant in favor of Dr. Lawrence E. Rectenwald in the sum of $153.75, in full settlement of all claims for damages to automobile caused by running into a hole on Wylie avenue near Chatham street, and charging the same to Appropriation No. 42, Contingent Fund.

Which was read.

Mr. Garland moved

That further action on the resolution be indefinitely postponed.

Which motion prevailed.
